Tom L. Beauchamp, 2010-04-28 Tom L. Beauchamp of Georgetown is one of the founding fathers of contemporary bioethics and is particularly influential as one of the co-authors with James Childress of *PRINCIPLES OF BIOMEDICAL ETHICS* first published by OUP over 25 years ago and a true cornerstone of contemporary bioethics. This volume is both an introductory textbook as well as a definitive expression of what is known as the dominant principlist approach which views bioethical reasoning developing out of four key principles: respect for autonomy, nonmaleficence, beneficence, and justice. This view has been highly influential over the last two decades and has set the agenda for the field. This volume will collect Tom Beauchamp's 15 most important published articles in bioethics, most of which were published over the last 25 years and most of which have a strong connection to the principlist approach. Most of the essays included here augment, develop, or defend various themes, positions, and arguments in that earlier book, both adding depth as well as taking off in new directions. Among the topics discussed are the historical origins of modern research ethics, moral principles, and methodological concerns. Beauchamp will include a new introduction to explain the history of the essays and their relationship to the principlist theory.

In addition to this volume of Medieval Philosophy, a comprehensive survey of the whole of Western philosophical history, and other individual volumes for each of the major historical eras are also available for specialized courses.

The Philosophy of Sri Aurobindo Debidatta Aurobinda Mahapatra, 2020-05-14 Indian philosopher, poet, mystic, and Yogi Sri Aurobindo argued that human society has evolved throughout history and is destined to move towards better organization of life. Applying his ideas to problems confronting the world today, this collection presents an in-depth exploration of Aurobindo's evolutionary philosophy and Integral Yoga. Written by an international team of scholars and practitioners, each chapter takes a theoretical aspect of Sri Aurobindo's philosophy, positions it alongside policy debates on the individual and the state, and explains its practical and educational benefits. Contributors discuss his vision of unity in diversity, shed light on his poetry, and offer a comprehensive view of his concept of ethics, as well as his metaphysics of consciousness. They examine his contribution to the Indian response to post-Enlightenment modernity and reveal how his philosophy illuminates some of the fundamental problems of our times, offering possible solutions. God, Time, and the Incarnation Richard A. Holland Jr., 2012-02-20 The dominant view among Christian theologians and philosophers is that God is timeless that he exists outside of time in an atemporal eternity In *God Time and the Incarnation* Richard Holland offers a critical evaluation of this traditional view in light of the most central doctrine of Christianity the Incarnation of Christ Holland reviews the history of this controversy highlighting the various theological problems for which atemporal models have been offered as a solution He asserts the central importance of the Incarnation for Christian theology and evaluates several atemporal models in light of this doctrine Finally he suggests that the traditional atemporal view is not compatible with a robust and orthodox view of the Incarnation This book rejects the traditional atemporal view of God's relationship to time and argues based on the Incarnation that God experiences temporal sequence in his existence
