airmail service during flying s infancy At the behest of his employer Howard Hughes Buck spent three months flying with Tyrone Power on a trip to South America Africa and Europe He flew the New York Paris Cairo route in the days when flight plans called for lengthy stopovers and enjoyed all that those romantic places had to offer He took part in a flight that circled the globe sideways from pole to pole He advised TWA s president on the shift to jet planes a world expert on weather and flight Buck used a B 17G to chase thunderstorms worldwide as part of a TWA Air Force research project during World War II for which he was awarded the Air Medal as a civilian by President Truman In North Star over My Shoulder Bob Buck tells of a life spent up and over the clouds and of the wonderful places and marvelous people who have been a part of that life He captures the feel taste and smell of flying s greatest era how the people lived what they did and felt and what it was really like to be a part of the world as it grew smaller and smaller He relates stories from his innumerable visits to Paris the city he loves more than any other echoing Gertrude Stein s view that America is my country and Paris is my home town and from his trips to the Middle East including flights to Israel before and after it became a state A terrific storyteller and a fascinating man Bob Buck has turned his well lived life into a delightful memoir for anyone who remembers when there really was something special in the air
