Austrian Capital Theory Peter Lewin, Nicolas Cachanosky, 2019-01-10 This Element presents a new framework for Austrian capital theory starting from the notion that capital is value Capital is the value attributed by the valuer at any moment in time to the combination of production goods and labor available for production Capital is the result obtained by calculating the current value of a business unit or business project that employs resources over time It is the result of a subjective entrepreneurial calculation process that relates the flow of consumptions goods to the value of the

productive resources that will produce those consumptions goods The entrepreneur is a ubiquitous calculating presence In a review of the development of Austrian capital theory by Carl Menger Eugen von Böhm-Bawerk Ludwig von Mises Friedrich Hayek Ludwig Lachmann as well as recent contributions the Element incorporates the seminal contributions into the new framework in order to provide a more accessible perspective on Austrian capital theory Language for Special Purposes Felix Mayer,2001 **Looking Back, Looking Forward** John Pepper,2017-08-28 *Global Perspectives on Interventions in Forensic Therapeutic Communities* Geraldine Akerman,Richard Shuker,2022-02-10 *Global Perspectives on Interventions in Forensic Therapeutic Communities A Practitioner's Guide* explores the validity and effectiveness of secure settings as therapeutic communities TCs Rooted in practice this book examines the transferability of approaches within international TCs to other forensic settings while considering how the environment contributes to effectiveness In this volume Akerman and Shuker bring together leading clinicians from across the world to offer insight into critical topics including the impact of gang membership on therapeutic process and the community how core creative therapies are integrated and how the model is applied in international settings and across varied contexts Leading clinicians draw on rare reports and papers to explain the therapeutic community model while keeping in mind the diverse contexts within which it is practiced The book provides a much needed global perspective on the diverse role TCs have across forensic services This groundbreaking book is valuable reading for forensic and clinical psychologists counsellors social workers and psychiatrists working in secure prison or rehabilitation settings as well as students in these fields Hitchcock's Moral Gaze R.
