Heretics and Colonizers Nicholas B. Breyfogle,2011-08-11 In Heretics and Colonizers Nicholas B Breyfogle explores the dynamic intersection of Russian borderland colonization and popular religious culture He reconstructs the story of the religious sectarians Dukhobors Molokans and Subbotniks who settled either voluntarily or by force in the newly conquered lands of Transcaucasia in the nineteenth century By ordering this migration in 1830 Nicholas I attempted at once to cleanse Russian Orthodoxy of heresies and to populate the newly annexed lands with ethnic Slavs who would shoulder the burden of imperial construction Breyfogle focuses throughout on the lives of the peasant settlers their interactions with the peoples and environment of the South Caucasus and their evolving relations with Russian state power He draws on a wide variety of archival sources including a large collection of previously unexamined letters memoirs and other documents produced by the sectarians that allow him unprecedented insight into the experiences of colonization and religious life Although the settlers suffered greatly in their early years in hostile surroundings they in time proved to be not only model Russian colonists but also among the most prosperous of the Empire s peasants Banished to the empire s periphery the sectarians ironically came to play indispensable roles in the tsarist imperial agenda The book culminates with the dramatic events of the Dukhobor pacifist rebellion a movement that shocked the tsarist government and received international attention In the early twentieth century as the Russian state sought to replace the sectarians with Orthodox settlers thousands of Molokans and Dukhobors immigrated to North America where their descendants remain to this day **New States, New Politics** Ian Bremmer,Ray Taras,1996-12-28 Since its publication in 1993 Nations and Politics in the Soviet Successor States edited by Ian Bremmer and Ray Taras has established itself internationally as the genuinely comprehensive systematic and rigorous analysis of the nation and state building processes of the fifteen states that grew out of the 1991 collapse of the Soviet Union New States New Politics Building the Post Soviet Nations was first published in 1997 and succeeds and replaces the editors earlier book with a fresh collection of specially commissioned studies from the world s foremost specialists Far from eradicating tensions among the former Soviet peoples the disintegration of empire saw national minorities rediscovering long suppressed identities The contributors to New States New Politics bring together historical and ethnic backgrounds with penetrating political analysis to offer an intriguing record of the different roads to self assertion and independence being pursued by

these young nations **The Armenians** Razmik Panossian,2006-05-27 The Armenians traces the evolution of Armenia and Armenian collective identity from its beginnings to the Armenian nationalist movement over Gharabagh in 1988 Applying theories of national identity formation and nationalism Razmik Panossian analyzes different elements of Armenian identity construction and argues that national identity is modern predominantly subjective and based on a political sense of belonging Yet he also acknowledges the crucial role of history art literature religious practice and commerce in preserving the national memory and shaping the cultural identity of the Armenian people Panossian explores a series of landmark events among them Armenians first attempts at liberation the Armenian renaissance of the nineteenth century the 1915 genocide of the Ottoman Armenians and Soviet occupation He shows how these influences led to a multilocal evolution of Armenian identity in various places in and outside of Armenia notably in diasporan communities from India to Venice Today these numerous identities contribute to deep divisions and tensions within the Armenian nation the most profound of which is the cultural divide between Armenians residing in their homeland and those who live in the United States Canada the Middle East and elsewhere Considering the diversity of this single nation Panossian questions the theoretical assumption that nationalism must be homogenizing Based on extensive research conducted in Armenia and the diaspora including interviews and translation of Armenian language sources The Armenians is an engaging history and an invaluable comparative study

Armenian and Jewish Experience between Expulsion and Destruction Sarah M. Ross,Regina Randhofer,2021-11-22 Jews and Armenians are often perceived as peoples with similar tragic historical experiences Not only were both groups forced into statelessness and a life outside their homelands for centuries in the 20th century in the shadow of war they were threatened with collective annihilation Thus far academic approaches to these two classical diasporas have been quite different Moreover Armenian and Jewish questions posed during the 19th and 20th centuries have usually been treated separately The conference We Will Live After Babylon that took place in Hanover in February 2019 addressed this gap in research and was one of the first initiatives to deal directly with Jewish and Armenian historical experiences between expulsion exile and annihilation in a comparative framework The contributions in this volume take on multidisciplinary approaches relating to the conference s central themes diaspora minority issues and genocide **Censorship** Derek

Goff, 2021-01-15 Nested Nationalism is a study of the politics and practices of managing national minority identifications rights and communities in the Soviet Union and the personal and political consequences of such efforts Titular nationalities that had republics named after them in the USSR

were comparatively privileged within the boundaries of their republics but they still often chafed both at Moscow's influence over republican affairs and at broader Russian hegemony across the Soviet Union. Meanwhile members of nontitular communities frequently complained that nationalist republican leaders sought to build titular nations on the back of minority assimilation and erasure. Drawing on extensive archival and oral history research conducted in Armenia, Azerbaijan, Dagestan, Georgia, and Moscow, Krista A. Goff argues that Soviet nationality policies produced recursive nested relationships between majority and minority nationalisms and national identifications in the USSR. Goff pays particular attention to how these asymmetries of power played out in minority communities following them from Azerbaijan to Georgia, Dagestan, and Iran in pursuit of the national ideas, identifications, and histories that were layered across internal and international borders. What mechanisms supported cultural development and minority identifications in communities subjected to assimilationist politics? How did separatist movements coalesce among nontitular minority activists? And how does this historicization help us to understand the tenuous space occupied by minorities in nationalizing states across contemporary Eurasia? Ranging from the early days of Soviet power to post-Soviet ethnic conflicts, *Nested Nationalism* explains how Soviet era experiences and policies continue to shape interethnic relationships and expectations today. — *Genocide* Adam Jones, 2006

Recent events in the former Yugoslavia, Rwanda, East Timor, and Iraq have demonstrated with appalling clarity that the threat of genocide is still a major issue within world politics.

Ethnicity, Nationalism and Conflict in the South Caucasus Ohannes Geukjian, 2016-05-13

This book examines the underlying factors of the Nagorno Karabakh conflict in the South Caucasus from 1905 to 1994 and explores the ways in which issues of ethnicity and nationalism contributed to that conflict. The author examines the historiography and politics of the conflict and the historical territorial and ethnic dimensions which contributed to the dynamics of the war. The impact of Soviet policies and structures are also included, pinpointing how they contributed to the development of nationalism and the maintenance of national identities. The book firstly explores the historical development of the Armenian and Azerbaijani national identities and the overlapping claims to the territory of Nagorno Karabakh. The author goes on to assess the historical link between ethnicity and territorial location as sources of ethnic identification and conflict. He examines how identity differences shaped the relations between Armenians and Azerbaijanis during the different phases of conflict and presents a detailed historical account of Soviet nationalities policy and ethno-territorial federalism, the basis of which ethnic relations were conducted between governing and minority nations in the South Caucasus. This invaluable book offers students and scholars of post-Soviet politics and society a unique insight into the causes and consequences of this long-standing conflict.
