What does a fish need?

In the home, fish need to be kept in a fish tank. If there is just one fish, like a goldfish, then they can live in a fairly small tank but they need enough room to move freely. You may choose to keep lots of fish at one time, but if you do, you will need a large tank. Some fish live in cold water so their tank can be filled with water from the tap. Others need warm water to survive so their tank needs to have a special part that heats the water up. Some fish need fresh water, while others will need salt water in order to stay healthy.
