A Journey to the Promised Land J. Mastine Nisbett, 2011-03-11 Dean Nisbett has crafted an excellent book that is carefully researched He is a masterful storyteller combining theology sociology history scripture and church architecture into a masterpiece Writing about the struggle of a suburban parish to build an edifice the author cites numerous parallels between the Israelites history and that of the parish He recasts the Israelites story into the contemporary making the Bible relevant in demonstrating the ongoing work of God Nisbett explores the struggle of African Americans to be integrated into the United States of America He addresses the tension between West Indians and black Americans and notes the latter's significant contribution to the Episcopal Church He recognizes the indelible contribution of the first African Americans who penetrated the white enclave of Cambria Heights Recognition is also made of black Episcopalians for their valuable contribution to the society and for challenging the church to be honest to its Catholicity insisting that they black Episcopalians be included into the Body of Christ The author

Saint Benedict on the Freeway Corinne Ware, 2011-12-01 How can we heal the rift between our daily lives and the sacred How can we live a life capable of hearing the still small voice of God while experiencing the speed and sensory overload of modern life This book is Ware s answer to these questions She acknowledges that others have addressed the questions On the one hand there are books which have significant depth but speak in academic or in group language and provide little help adapting these insights to everyday life On the other hand there are practical how to exercises which assist in very particular spiritual experiences but which do not offer integrated sustainable life changing patterns St Benedict on the Freeway fills this gap It translates into twenty first century life spiritually formative practices worked out in the past creatively adapting those disciplines to contemporary daily life This adaptation is the heart of Ware s book She attempts first to draw attention to our own awareness of God She discusses how a Rule functioned for Benedict s time and how it can function for us as a liberating reminder of God instead of as another repressive and burdensome taskmaster Ware also asks how the hours of prayer vigils lauds prime terce sext none vespers compline can increase our spiritual awareness even if our community does not stop for prayer at designated times during the day Also Ware explores prayer in dimensions beyond the spoken word The author targets what she terms something more people those who want to grow spiritually but do not know how to do so Typically these people go on retreats and hear inspirational speakers but their everyday lives lack the luster of those occasional times They go from one spiritual oasis to another wishing for something that will sustain them in between St Benedict on the Freeway responds to this yearning as both a book for personal reading and a resource for small groups in the church

Sanctioning Modernism Vladimir Kulic, Timothy Parker, Monica Penick, 2014-06-01 In the decades following World War II modern architecture spread around the globe alongside increased modernization urbanization and postwar reconstruction and it eventually won widespread acceptance But as the limitations of conventional conceptions of modernism became apparent modern architecture has come under increasing criticism In this collection of essays experienced and emerging scholars take a fresh look at postwar modern architecture by asking what it meant to be modern what role modern architecture played in constructing modern identities and who sanctioned or was sanctioned by modernism in architecture This volume presents focused case studies of modern architecture in three realms

political religious and domestic that address our very essence as human beings Several essays explore developments in Czechoslovakia Romania and Yugoslavia and document a modernist design culture that crossed political barriers such as the Iron Curtain more readily than previously imagined Other essays investigate various efforts to reconcile the concerns of modernist architects with the traditions of the Roman Catholic Church and other Christian institutions And a final group of essays looks at postwar homebuilding in the United States and demonstrates how malleable and contested the image of the American home was in the mid twentieth century These inquiries show the limits of canonical views of modern architecture and reveal instead how civic institutions ecclesiastical traditions individual consumers and others sought to sanction the forms and ideas of modern architecture in the service of their respective claims or desires to be modern **Radical**
