The Challenges of Resolving the Israeli-Palestinian Dispute Bren Carlill,2021-01-02 This book explains why the Israeli Palestinian dispute is so difficult to resolve by showing that it consists of multiple distinct conflicts Because these tend to be conflated into a single conflict attempts at peace have not worked Underpinned by conflict theory observations of those involved and analyses of polling data the book argues that peace will not be possible until each of the dispute s distinct conflicts are managed Early chapters establish a theoretical framework to explain and define the different conflicts This framework is then applied to the history of the dispute The actions and perceptions of Israelis and Palestinians make sense when viewed through this framework The Oslo peace process is examined in detail to explain how and why each side s expectations were not met Ultimately lessons in ways to build a future viable peace are drawn from the failures of the past

Imperial Perceptions of Palestine Lorenzo Kamel,2015-07-03 The Palestine Exploration Fund established in 1865 is the oldest organization created specifically for the study of the Levant It helped to spur evangelical tourism to the region in the late 19th and early 20th centuries which in turn generated a huge array of literature that presented Palestine as a Holy Land in which local populations were often portrayed as a simple appendix to well known Biblical scenarios In the first book focused on modern and contemporary Palestine to provide a top down and a bottom up perspective on the process of simplification of the region and its inhabitants under British influence Lorenzo Kamel offers a comprehensive outlook based on primary sources from 17 archives that spans a variety of cultural and social boundaries including local identities land tenure toponymy religious and political charges

institutions and borders By observing the historical dynamics through which a fluid region composed by different cultures and societies has been simplified the author explores how perceptions of Palestine have been affected today WINNER OF THE PALESTINE BOOK AWARD 2016 Antisemitism in the End Times Olivier J Melnick,2025-10-07 Find Hope in the Fight Against the Longest Hatred As inflammatory rhetoric and unprovoked violence against Jews surge worldwide Christians are faced with significant questions What is next on God s agenda for His people of promise And how can we as friends of the Jewish people and of Israel fight against this rising hatred Antisemitism in the End Times provides a roadmap for Christians seeking to understand and confront this age old prejudice As this longstanding hatred takes on its most insidious and lethal form yet antisemitism expert Olivier Melnick provides compelling insights to help you understand antisemitism s many iterations throughout Scripture history and culture replace false narratives about the Jewish people and Israel with historical and biblical truth become an ally in the fight against the dangerous new face of end times antisemitism As your awareness of antisemitism s pervasiveness grows you will be equipped and mobilized to fight boldly against it to build bridges with the Jewish people and to introduce as many as possible to saving faith in Messiah Jesus *Islamophobia* Stephen Sheehi,2010-12-03 Islamophobia The Ideological Campaign Against Muslims examines the rise of anti Muslim and anti Arab sentiments in the West following the end of the Cold War through GW Bush s War on Terror to the Age of Obama Using Operation Desert Storm as a watershed moment Stephen Sheehi examines the increased mainstreaming of Muslim bating rhetoric and explicitly racist legislation police surveillance witch trials and discriminatory policies towards Muslims in North America and abroad The book focuses on the various genres and modalities of Islamophobia from the works of rogue academics to the commentary by mainstream journalists to campaigns by political hacks and special interest groups Some featured Islamophobes are Bernard Lewis Fareed Zakaria Thomas Friedman David Horowitz Ayaan Hirsi Ali Irshad Manji George W Bush Dick Cheney John McCain Hilary Clinton and Barack Obama Their theories and opinions operate on an assumption that Muslims particularly Arab Muslims suffer from particular cultural lacuna that prevent their cultures from progress democracy and human rights While the assertion originated in the colonial era Sheehi demonstrates that it was refurbished as a viable explanation for Muslim resistance to economic and cultural globalization during the Clinton era Moreover the theory was honed into the empirical basis for an interventionist foreign policy and propaganda campaign during the Bush regime and continues to underlie Barack Obama s new internationalism If the assertions of media pundits and rogue academics became the basis for White House foreign policy Sheehi also demonstrates how they were translated into a sustained domestic policy of racial profiling and Muslim baiting by agencies from Homeland Security to the Department of Justice Furthermore Sheehi examines the collusion between non governmental agencies activist groups and lobbies and local state and federal agencies to in suppressing political speech on US campuses critical of racial profiling US foreign policy in the Middle East and Israel While much of the direct violence against Muslims on American streets shops and

campuses has subsided Islamophobia runs throughout the Obama administration Sheehi therefore concludes that Muslim and Arab hating emanate from all corners of the American political and cultural spectrum serving poignant ideological functions

Evolution Versus Revolution Melvyn L. Fein, 2017-07-05 Revolutionary and evolutionary theorists have very different views about change Fein writes in favour of evolution He proposes an integrated model of social evolution one that accounts for the complexity inconclusiveness and impediments that characterize social transformations This multi dimensional approach recognizes that change is always saturated in conflict Major changes are rarely initiated by conscious decisions that are automatically implemented power and morality generally control the direction that significant alterations take Fein explains how the social generalist dilemma places our need for both flexibility and stability in opposition to each other such that non rational mechanisms are needed to produce a solution He also describes how an inverse force rule dictates that small societies are bound together by strong social forces whereas large ones are secured by weak forces This suggests that social roles are likely to become professionalized over time If social change is in fact analogous to natural rather than artificial selection we may be in the midst of an only partially predictable middle class revolution Indeed the current impasse between liberals and conservatives may be evidence that we are in the consolidation phase of this process Should this be the case a paradigm shift not a classical revolution is in our future

Hearts and Minds Nachman Shai, 2018-03-08 Small scale wars terrorism and guerilla warfare each characterized by low intensity violence are the new global reality in the twenty first century States in general and liberal democratic states in particular are compelled to develop a new operational approach to deal with these phenomena At the same time the world of diplomacy is experiencing its own upheaval its old closed door practices being displaced by the demand for ongoing public diplomacy Concurrent with these developments individuals and nongovernmental organizations harness the new media revolution to create powerful global networks to promote common causes transcending the state and breaking its exclusive control over information In this book Nachman Shai examines the case of Israel a liberal democratic state faced with an incessant stream of diverse low intensity threats Shai discusses the military political economic legal and public diplomacy fronts of the second intifada 2000 2005 and how Israel deliberated its response in an environment where the state is only one of the players in a global arena in which individuals nongovernmental organizations and international news corporations all operate

research on how immigration from Western and Eastern Europe established a new and distinctively American Jewish identity that went beyond the traditions of Europe yet remained attached in many ways to its European origins **Saving Sophie**
