animistic religion When this book first appeared 1886 the philological school of interpretation of religion and myth being then still powerful in England was criticised and opposed by the author In Science as on the Turkish throne of old Amurath to Amurath succeeds the philological theories of religion and myth have now yielded to anthropological methods The centre of the anthropological position was the ghost theory of Mr Herbert Spencer the Animistic theory of Mr E R Tylor according to whom the propitiation of ancestral and other spirits leads to polytheism and thence to monotheism In the second edition 1901 of this work the author argued that the belief in a relatively supreme being anthropomorphic was as old as and might be even older than animistic religion This theory he exhibited at greater length and with a larger collection of evidence in his Making of Religion Since 1901 a great deal of fresh testimony as to what Mr Howitt styles the All Father in savage and barbaric religions has accrued As regards this being in Africa the reader may consult the volumes of the New Series of the Journal of the Anthropological Institute which are full of African evidence not as yet discussed to my knowledge by any writer on the History of Religion As late as Man for July 1906 No 66 Mr Parkinson published interesting Yoruba legends about Oleron the maker and father of men and Oro the Master of the Bull Roarer

Myth, Ritual and Religion (Complete) Andrew Lang, 2020-09-28

The past systems of mythological interpretation have been briefly sketched It has been shown that the practical need for a reconciliation between RELIGION and MORALITY on one side and the MYTHS about the gods on the other produced the hypotheses of Theagenes and Metrodorus of Socrates and Euemerus of Aristotle and Plutarch It has been shown that in each case the reconcilers argued on the basis of their own ideas and of the philosophies of their time The early physicist thought that myth concealed a physical philosophy the early etymologist saw in it a confusion of language the early political speculator supposed that myth was an invention of legislators the literary Euhemerus found the secret of myths in the course of an imaginary voyage to a fabled island Then came the moment of the Christian attacks and Pagan philosophers touched with Oriental pantheism recognised in myths certain pantheistic symbols and a cryptic revelation of their own Neo platonism When the gods were dead and their altars fallen then antiquaries brought their curiosity to the problem of explaining myth Christians recognised in it a depraved version of the Jewish sacred writings and found the ark on every mountain top of Greece The critical nineteenth century brought in with Otfried Muller and Lobeck a closer analysis and finally in the sudden rise of comparative philology it chanced that philologists annexed the domain of myths Each of these systems had its own amount of truth but each certainly failed to unravel the whole web of tradition and of foolish faith Meantime a new science has come into existence the science which studies man in the sum of all his works and thoughts as evolved through the whole process of his development This science Comparative Anthropology examines the development of law out of custom the development of weapons from the stick or stone to the latest repeating rifle the development of society from the horde to the nation It is a study which does not despise the most backward nor degraded tribe nor neglect the most civilised and it frequently finds in Australians or Nootkas the germ of ideas and institutions which Greeks or Romans brought

to perfection or retained little altered from their early rudeness in the midst of civilisation It is inevitable that this science should also try its hand on mythology Our purpose is to employ the anthropological method the study of the evolution of ideas from the savage to the barbarous and thence to the civilised stage in the province of myth ritual and religion It has been shown that the light of this method had dawned on Eusebius in his polemic with the heathen apologists Spencer the head of Corpus Cambridge 1630 93 had really no other scheme in his mind in his erudite work on Hebrew Ritual Spencer was a student of man s religions generally and he came to the conclusion that Hebrew ritual was but an expurgated and so to speak divinely licensed adaptation of heathen customs at large We do but follow his guidance on less perilous ground when we seek for the original forms of classical rite and myth in the parallel usages and legends of the most backward races Myth, Ritual and Religion (Vol. 1&2) Andrew Lang,2020-12-17 Myth Ritual and Religion in 2 volumes is one of the best known works by a Scottish author Andrew Lang first published in 1887 in which he explained the irrational elements of mythology as survivals from more primitive forms Volume 1 Systems of Mythology New System Proposed The Mental Condition of Savages Confusion With Nature Totemism The Mental Condition of Savages Magic Metamorphosis Metaphysic Psychology Nature Myths Non aryan Myths of the Origin of the World and of Man Indo aryan Myths Sources of Evidence Indian Myths of the Origin of the World and of Man Greek Myths of the Origin of the World and Man Greek Cosmogonic Myths Savage Divine Myths Volume 2 Gods of the Lowest Races American Divine Myths Mexican Divine Myths The Mythology of Egypt Gods of the Aryans of India Greek Divine Myths Apollo Artemis Dionysus Athene Hermes Demeter Heroic and Romantic Myths **Myth, Ritual & Religion** Andrew Lang,2005-01-01 First published in 1887 this early work of comparative mythology remains a vital resource to students and devotees of ethnography history and world legends Lang s stunningly comprehensive overview of pre scientific thinking provide In Volume Two Lang explores the concept the the divine as it has manifested itself around the world examines the importance of ritual and delves particularly into the mythologies of ancient Egypt Greece Mexico and India to demonstrate Scottish journalist and author ANDREW LANG 1844 1912 the son of the sheriff clerk of rural Selkirkshire was educated at Edinburgh Academy the Universities of St Andrews and Glasgow and Balliol College Oxford A contemporary and friend of Robert Primitive Culture Edward Burnett Tylor,2010-12-02 The highly influential classic study of cultural evolution as an anthropological theory first published in 1871 **Notes and Queries: a Medium of Inter-communication for Literary Men, Artists, Antiquaries, Genealogists, Etc** ,1889 **Curious Myths of the Middle Ages** Sabine Baring Gould,1872 *Abominable Snowmen* Ivan T. Sanderson,2008-11-01 Scottish zoologist IVAN TERRANCE SANDERSON 1911 1973 coined the word cryptozoology and first used it in print in this hard to find 1961 work the story of hairy hominids across the planet from the very beginnings of human civilization until the mid 20th century With its scientific anthropological approach this is one of the first books to treat the phenomenon of Bigfoot seriously and introduced a groundbreaking classification system for the spectrum of subhumanoids I am happy that a whole new

generation of cryptozoologists in training will be able to read Ivan T Sanderson's classic book says cryptozoologist Loren Coleman in his new introduction This book opened the minds of many to the vastness of the hominoid reports and spotlighted for people that Bigfoot Sasquatch research was the next area for exploration in North America This new edition complete with the original illustrations and maps is part of Cosimo's Loren Coleman Presents series LOREN COLEMAN is author of numerous books of cryptozoology including Bigfoot The True Story of Apes in America and Mothman and Other Curious Encounters
