JAN KNAPPERT was born in Holland in 1927. He holds three degrees in Oriental Languages and has studied at London, Ghent, Pretoria and Makerere. His doctorate from Leiden is in Swahili Literature. Since 1964 he has been a lecturer at the School of Oriental and African Studies, London. His publications are numerous: among them his collection, *Myths and Legends of the Swahili* and *A Choice of Flowers*, an anthology of Swahili love poetry, appear in African Writers Series, and a major historical critical anthology, *Four Centuries of Swahili Verse*.

These stories are rich in variety. There are interesting comparisons to be made between the style of telling and of the contents between the ten tribes represented; the Bakongo, who gave the country and river its name, tell stories of the palm groves of the lower Congo, while the Alur of the north-east tell mystical stories of people and the Lake which will be familiar to other Luo people in Uganda and Kenya. Peoples in West Africa and Zambia will also find echoes among their own stories.

Myths & Legends of the Congo Jan Knappert, 1971 *The Archetype of the Dying and Rising God in World Mythology* Paul Rovang, 2023-01-09 The *Archetype of the Dying and Rising God in World Mythology* is the first global treatment of the dying and rising god archetype since that classification was called into serious doubt in the final decades of the twentieth century While assaults on the concept have focused on the Classical and ancient Near Eastern Biblical traditions this study goes beyond but also includes these areas to encompass world mythology Beginning with an interrogation of the most influential criticisms the author then

examines evidence for the archetype's validity by analyzing dying and rising god myths from ancient Near Eastern Classical and non Classical sources from around the world He treats implications of the archetype for religious studies literature and psychology both in discussing the myths themselves and in separate chapters dedicated to these fields The focused treatment on single myths makes this book a useful reference source At the same time its inductive approach to evidence provides a conclusive argument on the question with applications that warrant reading it from cover to cover Additional distinctive features of this book include a thematic interpretation of T S Eliot's *Waste Land* a new perspective on the Jungian archetypes and a call for a neo archetypal approach to literary criticism
