Re-Viewing the Past Sean D. O'Reilly, 2018-08-23 Re Viewing the Past The Uses of History in the Cinema of Imperial Japan analyzes the complicated relationship between history films audiences reviewers and censors in Japan for the critically important years from 1925 1945 First contextualizing the history of the popular Bakumatsu period 1853 1868 the moment of Japan's emergence as a modern nation Sean O'Reilly paves the way for a reinterpretation of Japanese pre and postwar cinema Setting a film in the Bakumatsu period offered cultural breathing room to both filmmakers and viewers offering a cinematic space where apolitical entertainment and now forbidden themes like romance still reigned Some filmmakers and viewers even conceived of these films as being a form of resistance against Japan's growing militarism As comparisons between the popularity of such films versus that of state sponsored propaganda films show audiences responded enthusiastically to these glimmers of resistance O'Reilly argues that we should turn our attention to the much more popular films of the time that were major hits with audiences in order to understand what resonated with wartime spectators and to speculate about why this might have been the case Including clips of these rare films a so far neglected area of Japanese film history is now firmly situated in context to offer a thought provoking multidisciplinary approach

Linguistic Emotivity Senko K. Maynard, 2002-07-26 Linguistic Emotivity explores expressive and emotive meanings in Japanese from the perspective of the Place of Negotiation theory The Place of Negotiation theory provides a framework for understanding how linguistic signs function in the place of communication in cognitive emotive and interactional places The theory finds the indexicality of a sign fundamental and views meanings as being negotiated among interactants who share not only information but more significantly feelings Using analytical tools recognized in conversation and discourse analyses the book analyzes emotive topics vocatives emotive nominals quotative topics etc and emotive comments da and ja nai interrogatives stylistic shifts etc in contemporary Japanese discourse It argues for the importance of emotivity in Japanese in the context of the Japanese culture of pathos Linguistic Emotivity challenges the traditional view of language that privileges logos form information and abstraction and instead it proposes a philosophical shift toward pathos expression emotion and linguistic

event action *Japanese Culture* Paul Varley,2000-03-01 For nearly three decades Japanese Culture has garnered high praise as an accurate and well written introduction to Japanese history and culture This widely used undergraduate text is now available in a new edition Thoroughly updated the fourth edition includes expanded sections on numerous topics among which are samurai values Zen Buddhism the tea ceremony Confucianism in the Tokugawa period the story of the forty seven ronin Mito scholarship in the early nineteenth century and mass culture and comics in contemporary times *The Acute-Care Nurse Practitioner* Judy Rashotte,2013-12-01 From the moment it was first proposed the role of the nurse practitioner has been steeped in controversy In the fields of both nursing and medicine the idea that a nurse practitioner can to some degree serve as a replacement for the physician has sparked heated debates Perhaps for that reason despite the progress of the nurse practitioner movement NPs have been reluctant to speak about themselves and their work and their own vision of their role has thus remained largely invisible Current research is dominated by instrumental and economic modes of discourse and tends to focus on the clinical activities associated with the role Although information about demographics educational preparation position titles reporting relationships and costs of care contribute to our understanding what was missing was an exploration of the lived experience of the nurse practitioner as a means to deepen that understanding as well as our appreciation for their role The Acute Care Nurse Practitioner is based on in depth interviews with twenty six nurse practitioners working in acute care settings within tertiary care institutions all across Canada Employing a hermeneutic approach Rashotte explores the perspectives from which NPs view their reality as they undergo a transformational journey of becoming a journey that is directed both outward into the world and inward into the self We learn how in their struggle to engage in a meaningful practice that fulfills their goals as nurses their purpose was hindered or achieved In large part the story unfolds in the voices of the NPs themselves but their words are complemented by descriptive passages and excerpts of poetry that construct an animated and powerful commentary on their journey Poised between two worlds NPs make a significant contribution to the work of their colleagues and to the care of patients and families The Acute Care Nurse Practitioner offers an experiential alternative to conventional discourse surrounding this health care provider s role *Gatekeepers* William Marling,2016-03-15 The romantic idea of the writer as an isolated genius has been discredited but there are few empirical studies documenting the role of gatekeeping in the literary process How do friends agents editors translators small publishers and reviewers not to mention the changes in technology and the publishing industry shape the literary process This matrix is further complicated when books cross cultural and language barriers that is when they become part of world literature Gatekeepers builds on the work of Pierre Bourdieu Randall Collins James English and Mark McGurl describing the multi layered gatekeeping process in the context of World Literature after the 1960s It focuses on four case studies Gabriel Garc a M rquez Charles Bukowski Paul Auster and Haruki Murakami The two American authors achieved remarkable success overseas owing to canny gatekeepers the two international authors

benefited tremendously from well curated translation into English Rich in archival materials correspondence between authors editors and translators and publishing industry analyses interviews with publishers and translators and close readings of translations this study shows how the process and production of literature depends on the larger social forces of a given historical moment William Marling also documents the ever increasing Anglo centric dictate on the gatekeeping process World literature the book argues is not so much a republic of letters as a field of chance on which the conversation is partly bracketed by historic events and technological opportunities

The Facts on File Companion to the World Novel Michael Sollars, Arbolina Llamas Jennings, 2008

The Political Force of Musical Beauty Barry Shank, 2014-03-17 In *The Political Force of Musical Beauty* Barry Shank shows how musical acts and performances generate their own aesthetic and political force creating however fleetingly a shared sense of the world among otherwise diverse listeners Rather than focusing on the ways in which music enables the circulation of political messages he argues that communities grounded in the act and experience of listening can give rise to new political ideas and expression Analyzing a wide range of beautiful music within popular and avant garde genres including the Japanese traditions in the music of Takemitsu Toru and Yoko Ono the drone of the Velvet Underground and the insistence of hardcore punk and Riot grrrl post punk Shank finds that when it fulfills the promise of combining sonic and lyrical differences into a cohesive whole musical beauty has the power to reorganize the basis of social relations and produce communities that recognize meaningful difference
