   N.S. Trubetzkoy N. S. Trubetzkoy,2001 Edited and with an introduction by Anatoly Liberman Translated by Marvin Taylor and Anatoly Liberman N S Trubetzkoy 1890 1939 is generally celebrated today as the creator of the science of phonology While his monumental Grundz ge der Phonologie was published posthumously and contains a summary of Trubetzkoy s late views on the linguistic function of speech sounds there has until now been no practical way to trace the development of his thought or to clarify the conclusions appearing in that later work With the publication of Studies in General Linguistics and Language Structure not only will linguists have that opportunity but a collection of Trubetzkoy s work will appear in English for the first time Translated from the French German and Russian originals these articles and letters present Trubetzkoy s work in general and on Indo European linguistics The correspondence reprinted here also for the first time in English is between Trubetzkoy and Roman Jakobson The resulting collection offers a view of the evolution of Trubetzkoy s ideas on phonology the logic in laws of linguistic geography and relative chronology and the breadth of his involvement with Caucasian phonology and the Finno Ugric languages A valuable resource this volume will make Trubetzkoy s work available to a larger audience as it sheds light on problems that remain at the center of contemporary linguistics

Dictionary of the Prague School of Linguistics Josef Vachek,2003-06-23 This is the first English version of a text out of print for more than 40 years summarising the positions and key concepts of an influential stream of linguistic thought Using quotations as entries J Vachek 1909 1997 a leading advocate of the Prague School employed more than 160 sources papers and monographs by well over 30 representatives of the school Mathesius Trnka Skali ka Dane Dokulil Muka ovsk Jakobson Trubetzkoy Isachenko and others The dictionary both captures the pioneering efforts and achievements of the school from its foundation in 1926 and provides a framework for assessing the current state of affairs attesting to its originality and serving as a preventive to treading paths already explored The headword concepts are provided with French German and Czech equivalents and Vachek s original preface is supplemented by a foreword which traces the development of the school up to the present date and puts it into perspective   **Studies in Javanese Morphology** E M Uhlenbeck,1978   **Roman Jakobson** Stephen Rudy,2012-02-13 No detailed description available for Roman Jakobson   From Linguistic Areas to Areal Linguistics Pieter Muysken,2008-02-06 From linguistic areas to areal linguistics explores language description and typology in terms of areal background presenting case studies in areal linguistics Some concern well established linguistic areas such as the Balkan other regions such as East Nusantara Indonesia and the Guapore Mamore Amazon regions have never before been studied in an areal perspective and yet other areas are involved in current debates The insight has gained ground that languages owe many of their characteristics to the languages they are in contact with over time Yet the nature of these areal influences remains a matter of debate Furthermore areas are often hard to define Hence the title a shift from linguistic areas as concrete and circumscribed objects to a new way of doing linguistics areally New findings include the observation that there may be many more language areas than previously recognized The book is primarily directed at linguists working in descriptive comparative historical and typological linguistics Since it covers linguistic areas from four continents it will have a wide appeal   Russian and East European Books and Manuscripts in the United States Tanya Chebotarev,Jared S. Ingersoll,2014-06-03 Gain a better understanding of the past and cultures of Slavic and East European peoples with American archival collections Russian and East European Books and Manuscripts in the United States the first collection of its kind offers perspectives from leading Slavic librarians archivists and historians on the cultural history of Russian and East European exiles and immigrants to North America in the twentieth century Editor Tanya Chebotarev curator of the Bahkmeteff Archive at Columbia University and a group of leading authorities document the concerted effort to preserve Russian and East European written culture outside the bounds of Communist power This book is a vital addition to the collections of archivists librarians historians and graduate students in Russian studies and American immigrations Russian and East European Books and Manuscripts in the United States explores the role of Russian migr s librarians and scholars in the United States in providing a haven for archival collections of Russian literature art and historical manuscripts

at the height of panic during the Cold War This essential resource celebrates the efforts made by archivists and librarians in collecting migr materials This book addresses many important related topics such as an introduction to the life and work of Boris Aleksandrovich Bakhmeteff financial contributor to the Archive and the last Russian ambassador to the United States before the Bolsheviks seizure of power the Eurasianist movement its roles and views on science culture and empire reflections of Russian migr s on Soviet nationality policies during the 1920s and 1930s American collections on immigrants from the Russian Empire the New York Public Library its role in collecting and describing vernacular Slavic and East European language and history materials to a diverse readership Columbia University Libraries Slavic and East European Collections a historical overview of these extraordinarily rich collections of materials from or about the Russian Empire the Soviet Union and the countries and people of Eastern Europe the Hoover Institution s Polish migr collections and the Polish state archives Russian archives online present status and future prospects This book also details recent efforts to repatriate archival collections and libraries abroad and return them to their countries of origin Disagreements between countries are already emerging and Russian and East European Books and Manuscripts in the United States discusses their implications and the future of America s Slavic archives **Structure and the Whole** Patrick Sériot,2014-04-01 This book identifies the Romantic notion of the whole as the fundamental epistemological source of the notion of structure in the thinking of the Prague Linguistic Circle primarily its Russian representatives and studies what amounted to the slow painful process of disengagement from the organicist metaphor in an intellectual world very different from Saussure s **Oppositions in Morphology** Irina Khlebnikova,2019-01-29 No detailed description available for Oppositions in Morphology **Phonology** Charles W. Kreidler,2001 Phonology Critical Concepts the first such anthology to appear in thirty years and the largest ever published brings together over a hundred previously published book chapters and articles from professional journals These have been chosen for their importance in the exploration of theoretical questions with some preference for essays that are not easily accessible Divided into sections each part is preceded by a brief introduction which aims to point out the problems addressed by the various articles and show their relations to one another *Empire De/Centered* Maxim Waldstein,Sanna Turoma,2016-05-06 In 1991 the Soviet empire collapsed at a stroke throwing the certainties of the Cold War world into flux Yet despite the dramatic end of this last empire the idea of empire is still alive and well its language and concepts feeding into public debate and academic research Bringing together a multidisciplinary and international group of authors to study Soviet society and culture through the categories empire and space this collection demonstrates the enduring legacy of empire with regard to Russia whose history has been marked by a particularly close and ambiguous relationship between nation and empire building and between national and imperial identities Parallel with this discussion of empire the volume also highlights the centrality of geographical space and spatial imaginings in Russian and Soviet intellectual traditions and social practices underlining how Russia s vast geographical dimensions have profoundly informed Russia s state and nation

building both in practice and concept Combining concepts of space and empire the collection offers a reconsideration of Soviet imperial legacy by studying its cultural and societal underpinnings from previously unexplored perspectives In so doing it provides a reconceptualization of the theoretical and methodological foundations of contemporary imperial and spatial studies through the example of the experience provided by Soviet society and culture   *Russia between East and West* ,2007-01-01 Throughout most of Russian history two views of who the Russians are have dominated the minds of Russian intellectuals Westerners assumed that Russia was part of the West whilst Slavophiles saw Russia as part of a Slavic civilization At present it is Eurasianism that has emerged as the paradigm that has made attempts to place Russia in a broad civilizational context and it has recently become the only viable doctrine that is able to provide the very ideological justification for Russia s existence as a multiethnic state Eurasians assert that Russia is a civilization in its own right a unique blend of Slavic and non Slavic mostly Turkic people While it is one of the important ideological trends in present day Russia Eurasianism with its origins among Russian emigrants in the 1920s has a long history Placing Eurasianism in a broad context this book covers the origins of Eurasianism dwells on Eurasianism s major philosophical paradigms and places Eurasianism in the context of the development of Polish and Turkish thought The final part deals with the modern modification of Eurasianism The book is of great relevance to those who are interested in Russian European and Asian history area studies
