Nabokov Others Patterns In Russian Literature:

Nabokov and others William Woodin Rowe,1976 **Nabokov & Others** William Woodin Rowe,1979 **Historical Dictionary of Russian Literature** Jonathan Stone,2013 The Historical Dictionary of Russian Literature contains a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has over 100 cross referenced entries on significant people themes critical issues and the most significant genres **Patterns in Russian Literature II** William Woodin Rowe,1988 **The Cambridge Companion to Twentieth-Century Russian Literature** Evgeny Dobrenko,Marina Balina,2011-02-17 In Russian history the twentieth century was an era of unprecedented radical transformations changes in social systems political regimes and economic structures A number of distinctive literary schools emerged each with their own voice specific artistic character and ideological background As a single volume compendium the Companion provides a new perspective on Russian literary and cultural development as it unifies both migr literature and literature written in Russia This volume concentrates on broad complex and diverse sources from symbolism and revolutionary avant garde writings to Stalinist post Stalinist and post Soviet prose poetry drama and migr literature with forays into film theatre and literary policies institutions and theories The contributors present recent scholarship on historical and cultural contexts of twentieth century literary development and situate the most influential individual authors within these contexts including Boris Pasternak Alexander Solzhenitsyn Joseph Brodsky Osip Mandelstam Mikhail Bulgakov and Anna Akhmatova **Authorship in Nabokov's Prefaces** Jacqueline Hamrit,2015-01-12 Whereas literary criticism has mainly oscillated between the death of the author Barthes and the return of the author Couturier this work suggests another perspective on authorship through an analysis of Nabokov s prefaces It is here argued that the author being neither dead nor tyrannical alternates between authoritative apparitions and receding disappearances in the double gesture of mastery without mastery which Derrida calls exappropriation that is a simultaneous attempt to appropriate one s work control it have it under one s power and expropriate it losing control by loosening one s grip The intention of this is to approach through one s experience of reading and interpreting the experience of self effacement and impersonality pertaining to writing of Blanchot Prefaces are considered to be suitable places for the deconstruction of the classical image of Nabokov s arrogance through the unearthing of his reserve and vulnerability This work provides an account of the mere intuition which therefore does not pretend to be a conclusive and definitive interpretation of another image of Nabokov whose undeniable talent for deception seems in accordance with a need for discretion and secrecy **Reference Guide to Russian Literature** Neil Cornwell,2013-12-02 First Published in 1998 This volume will surely be regarded as the standard guide to Russian literature for some considerable time to come It is therefore confidently recommended for addition to reference libraries be they academic or public Imagery in Vladimir Nabokov's Last Russian Novel ([Dar]), Its English Translation (The Gift), and Other Prose Works of the 1930s Nassim Winnie Berdjis,1995 Nabokov's Canon Marijeta Bozovic,2016-05-31 Nabokov s

translation of Pushkin's Eugene Onegin 1964 and its accompanying Commentary along with *Invitation of a Stranger* 1969 his densely allusive late English language novel have appeared nearly inscrutable to many interpreters of his work. If not outright failures, they are often considered relatively unsuccessful curiosities. In Bozovic's insightful study, these key texts reveal Nabokov's ambitions to reimagine a canon of nineteenth and twentieth century Western masterpieces with Russian literature as a central rather than marginal strain. Nabokov's scholarly work, translations and lectures on literature bear resemblance to New Critical canon reformations; however, Nabokov's canon is pointedly translingual and transnational and serves to legitimize his own literary practice. The new angles and theoretical framework offered by Nabokov's *Canon* help us to understand why Nabokov's provocative monuments remain powerful source texts for several generations of diverse international writers as well as richly productive material for visual, cinematic, musical and other artistic adaptations.

Autobiographical Statements in Twentieth-Century Russian Literature Jane Gary Harris, 2014-07-14. The fifteen essays in this volume explore the extraordinary range and diversity of the autobiographical mode in twentieth century Russian literature from various critical perspectives. They will whet the appetite of readers interested in penetrating beyond the canonical texts of Russian literature. The introduction focuses on the central issues and key problems of current autobiographical theory and practice in both the West and in the Soviet Union while each essay treats an aspect of autobiographical praxis in the context of an individual author's work and often in dialogue with another of the included writers. Examined here are first the experimental writings of the early years of the twentieth century: Rozanov, Remizov and Bely; second the unique autobiographical statements of the mid 1920s through the early 1940s: Mandelstam, Pasternak, Olesha and Zoshchenko; and finally the diverse and vital contemporary writings of the 1960s through the 1980s as exemplified not only by creative writers but also by scholars, by Soviet citizens as well as by emigrants: Trifonov, Nadezhda Mandelstam, Lydia Ginzburg, Nabokov, Jakobson, Sinyavsky and Limonov. Nabokov's Early Fiction Julian W. Connolly, 2009-05-07. This book traces the evolution of Vladimir Nabokov's prose fiction from the mid 1920s to the late 1930s. While individual works by Nabokov have attracted extensive commentary, the precise contours of Nabokov's development as a writer of fiction have received little attention. Julian Connolly traces this development by focusing on a crucial subject: the relationship between self and other in its various forms, including character to character, character to author, author to reader. At the core of Professor Connolly's analysis is the discovery of a powerful structure of bifurcation in Nabokov's work between the character dimensions of a protagonist's identity and its latent

authorial dimensions As Nabokov's works grow more sophisticated the author manipulates the relationship between these two dimensions creating a series of memorable characters who seek to attain the status of authentic author by shedding that aspect of the self which functions as a character Julian Connolly's investigation into the relationship between self and other in the early fiction provides an original model for approaching all of Nabokov's fictional writing and constitutes a major contribution to Nabokov scholarship

Russian Literature and Psychoanalysis Daniel Rancour-Laferrriere, 1989-01-01 This is a collection of psychoanalytical essays on a broad spectrum of well known Russian authors such as Pushkin Dostoevsky Gogol Belyj Tjutcev Axmatova and Nabokov The volume includes some reprints among which a contribution by Sigmund Freud on Dostoevsky and Parricide The majority of the contributions are original publications by present day specialists in the field This is a book which may benefit literary scholars as well as professional psychoanalysts

The American Bibliography of Slavic and East European Studies for 1994 Patt Leonard, Rebecca Routh, 1997-05-31 This text provides a source of citations to North American scholarships relating specifically to the area of Eastern Europe and the former Soviet Union It indexes fields of scholarship such as the humanities arts technology and life sciences and all kinds of scholarship such as PhDs

The Five Senses in Nabokov's Works Marie Bouchet, Julie Loison-Charles, Isabelle Poulin, 2020-06-19 This collection of essays focuses on a subject largely neglected in Nabokovian criticism the importance and significance of the five senses in Vladimir Nabokov's work poetics politics and aesthetics This text analyzes the crucial role of the author's synesthesia and multilingualism in relation to the five senses as well as the sensual and erotic dimensions of sensoriality in his works Each chapter provides a highly focused and sometimes provocative approach to the unique role that sensory perceptions play in the shaping and narrating of Nabokov's memories and in his creative process

Nabokov's Otherworld Vladimir E. Alexandrov, 2014-07-14 A major reexamination of the novelist Vladimir Nabokov as literary gamesman this book systematically shows that behind his ironic manipulation of narrative and his puzzle like treatment of detail there lies an aesthetic rooted in his intuition of a transcendent realm and in his consequent redefinition of nature and artifice as synonyms Beginning with Nabokov's discursive writings Vladimir Alexandrov finds his world view centered on the experience of epiphany characterized by a sudden fusion of varied sensory data and memories a feeling of timelessness and an intuition of immortality which grants the true artist intimations of an otherworld Readings of *The Defense* *Invitation to a Beheading* *The Gift* *The Real Life of Sebastian Knight* *Lolita* and *Pale Fire* reveal the epiphanic experience to be a touchstone for the characters metaphysical insightfulness moral makeup and aesthetic sensibility and to be a structural model for how the narratives themselves are fashioned and for the nature of the reader's involvement with the text In his conclusion Alexandrov outlines several of Nabokov's possible intellectual and artistic debts to the brilliant and variegated culture that flourished in Russia on the eve of the Revolution Nabokov emerges as less alienated from Russian culture than most of his emigre readers believed and as less modernist than many of his Western readers still imagine Alexandrov's work is

distinctive in that it applies an otherworld hypothesis as a consistent context to Nabokov's novels. The approach is obviously a fruitful one. Alexandrov is innovative in rooting Nabokov's ethics and aesthetics in the otherworldly and contributes greatly to Nabokov studies by examining certain key terms such as commonsense nature and artifice. In general, Alexandrov's study leads to a much clearer understanding of Nabokov's metaphysics.
