Nad A Study Of Some Unusual Other World Experiences:

The Uttermost Deep Gracia Fay Ellwood,2000-11 Covering neurological pharmacological and psychological approaches this book examines the constant themes that run through both positive and negative near death experiences **Afterlife Encounters** Dianne Arcangel,2005-09-02 Never before released research proves the dead communicate with us As a former hospice worker and director of the Elisabeth Kbler Ross Center Dianne Arcangel was certain that visitations from beyond death provided comfort and hope for loved ones still grappling with their loss As a researcher however she was unable to find specific data to measure that comfort and hope To remedy this lack of information she created the Afterlife Encounters Survey a five year international survival study Afterlife Encounters reveals the results of this landmark study and for the first time offers a systematic categorization of such encounters explaining when these encounters are most likely to occur and what type of apparition is likely to appear Afterlife Encounters presents not only the data but also the stories beyond the numbers as friends and family members relate their visitation experiences in their own words Included are amazing stories of the dead returning to tell loved ones that they had been murdered and who it was that killed them apparitions revealing where family treasure was buried even one spirit who provided a remarkable account of the tragedies of 9 11 weeks before those events occurred The stats and stories that Arcangel shares are certain to stay with you for a long time as will her eye opening conclusion afterlife encounters provide real lasting comfort and hope to an astounding 97 percent of those loved ones who experience them 700 Conscientiology Experiments Waldo Vieira,2018-08-22 A reference work on conscientiology this treatise with more than 5 000 entries in the bibliography first published in Portuguese in 1994 presents the reader with the bases of the neoscience conscientiology The author proposes 300 tests for self application dealing with topics of great relevance such as assistance the theory of thosene thought sentiment and energy and the theories of inversion and existential recycling among others The work presents conscientiology as the science applied to the study of consciousness ego personality in an integral approach with all its vehicles of manifestation bodies previous existences and attributes The content being deepened and presented in a theoretical and practical way so a reader understands the importance of this knowledge to their life The science of conscientiology utilizes the best of the main lines of human knowledge common sense religion philosophy political ideology and conventional science and is based on multidimensional self experience having consciousness as both the instrument and object of research Death, Dying, and Mysticism T. Cattoi,C. Moreman,G. C. Harcourt,2015-04-01 This volume offers a sample of reflections from scholars and practitioners on the theme of death and dying from scholars and practitioners ranging from the Christian tradition to Hinduism Lacanian psychoanalysis while also touching on the themes of the afterlife and near death experiences *Apparitions, Hauntings, and Poltergeists* D. Scott Rogo,2016-05-01 Apparitions represent a rich collection of phenomena They have been seen personifying the forms of the living and of the dead at the exact time of the agent s death and often a considerable time after

This essay chapter 16 of *Psychic Exploration* explores apparitions haunting and poltergeists The full volume of *Psychic Exploration* can be purchased as an ebook or paperback version from all major online retailers and at cosimobooks.com

God and the Evolving Universe James Redfield, Michael Murphy, Sylvia Timbers, 2003-01-06 In a world racked by violence and conflict James Redfield and Michael Murphy leading cocreators of today's spiritual boom present a message of hope and a vision for the future It is no accident they argue that the twentieth and early twenty first centuries have witnessed a revolution in new human capacities Daily we hear and read about supernormal athletic feats clairvoyant perception lives transformed by meditative practices healing through prayer and we ourselves experience these things The authors contend that thousands of years of human striving have delivered us to this very moment in which each act of self development is creating a new stage in planetary evolution and the emergence of a human species possessed of vastly expanded potential

After Death Sukie Miller, 1998 The first cross cultural investigation of how humanity copes with the reality of death this new understanding of the afterdeath in much the same way the work of Elisabeth Kubler Ross does for the dying process Using extensive and innovative research anecdotes and stories Sukie Miller has woven together the results of groundbreaking studies of attitudes world wide toward the afterdeath Identifying four distinct stages of the afterdeath Waiting Judgment Possibilities and Return she clarifies and analyses the results of her work in India Brazil Indonesia West Africa and the United States

[A Richard Matheson Collection](#) Richard Matheson, 2019-02-12 A Richard Matheson Collection discounted ebundle includes *Hell House* *Somewhere in Time* *What Dreams May Come* A collection of three novels by New York Time bestselling author Richard Matheson who Stephen King called the author who influenced me the most as a writer *Hell House* Rolf Rudolph Deutsch is going die But when Deutsch a wealthy magazine and newspaper publisher starts thinking seriously about his impending death he offers to pay a physicist and two mediums one physical and one mental 100 000 each to establish the facts of life after death Dr Lionel Barrett the physicist accompanied by the mediums travel to the Belasco House in Maine which has been abandoned and sealed since 1949 after a decade of drug addiction alcoholism and debauchery For one night Barrett and his colleagues investigate the Belasco House and learn exactly why the townfolks refer to it as the Hell House *Somewhere in Time* A powerful story of a love that transcends time and space written by one of the Grand Masters of modern fantasy Matheson's classic novel tells the moving romantic story of a modern man whose love for a woman he has never met draws him back in time to a luxury hotel in San Diego in 1896 where he finds his soul mate in the form of a celebrated actress of the previous century *Somewhere in Time* won the World Fantasy Award for Best Novel and the 1979 movie version starring Christopher Reeve and Jane Seymour remains a cult classic *What Dreams May Come* What happens to us after we die Chris Nielsen had no idea until an unexpected accident cut his life short separating him from his beloved wife Annie Now Chris must discover the true nature of life after death But even Heaven is not complete without Annie and when tragedy threatens to divide them forever Chris risks his very soul to save Annie from an eternity of despair

Matheson's powerful tale of life and love after death was the basis for the Oscar winning film starring Robin Williams. At the Publisher's request this title is being sold without Digital Rights Management Software (DRM) applied. Fairies Janet Bord, 2014-01-13 Janet Bord's fascinating investigation of this unexplored aspect of the supernatural reveals where you might be expected to meet fairies under what circumstances and what they would look or sound like. Encountering Mystery Dale C. Allison, 2022-07-26 Despite widespread skepticism on the matter a significant number of people today have stories of religious experience moments of inexplicable terror or rapturous joy visions near death experiences of the afterlife encounters with angels heavenly voices and premonitions How should rationally minded people respond What would your reaction be if someone told you that one night while sitting alone she saw through the window a brilliant light descend from the sky until it was so large that it filled the room and that it radiated a feeling of pure love And what would you say if a friend confided that one night he woke up and could not move felt he was being suffocated and sensed an evil spirit in the room By default in the secular age we are skeptical about anything mysterious or supernatural More likely than not most people would respond to the stories above with embarrassment and concern about the person's grasp of reality or they would attempt to explain them away through rational or scientific means But the truth is that religious experiences like these are not as uncommon as they seem although talking about such experiences often is This is the case even in a faith tradition such as Christianity despite the Bible's numerous accounts of miraculous and mysterious happenings In Encountering Mystery noted biblical scholar Dale Allison makes the argument that stories of religious experience are meaningful and not to be marginalized and that we have a moral prerogative to lovingly engage with such stories regardless of whether we have had similar experiences Through a close look at phenomena such as moments of inexplicable terror or rapturous joy visions near death experiences of the afterlife encounters with angels heavenly voices and premonitions Allison shows how ordinary practices of faith need not be at odds with individual religious experiences Above all he enjoins us to be honest about the persistence of religious experience in a secular age and to make space for those who encounter mystery in their lives **The Future of the Body** Michael Murphy, 1993-04-21 In the oral and written histories of every culture there are countless records of men and women who have displayed extraordinary physical mental and spiritual capacities In modern times those records have been supplemented by scientific studies of exceptional functioning Are the limits of human growth fixed Are extraordinary abilities latent within everyone Is there evidence that humanity has unrealized capacities for self transcendence Are there specific practices through which ordinary people can develop these abilities Michael Murphy has studied these questions for over thirty years In The Future of the Body he presents evidence for metanormal perception cognition movement vitality and spiritual development from more than 3 000 sources Surveying ancient and modern records in medical science sports anthropology the arts psychical research comparative religious studies and dozens of other disciplines Murphy has created an encyclopedia of exceptional functioning of body mind and spirit He paints a broad and

convincing picture of the possibilities of further evolutionary development of human attributes By studying metanormal abilities under a wide range of conditions Murphy suggests that we can identify those activities that typically evoke these capacities and assemble them into a coherent program of transformative practice A few of Murphy's central observations and proposal include The observation that cultural conditioning powerfully shapes or extinguishes metanormal capacities The proposition that we cannot comprehend our potentials for extraordinary life without an empirical approach that involves many fields of inquiry and different kinds of knowing The notion that a widespread realization of extraordinary capacities would constitute an evolutionary transcendence analogous to the rise of humankind from its primal ancestry The proposal that all or most instances of significant human development are produced by a limited number of identifiable activities such as disciplined self observation visualization of desired capacities and caring for others The idea that a balanced development of our various capacities is possible through integrated practices In *The Future Of The Body* Murphy states that such practices can carry forward Earth's evolutionary adventure and lead humanity to the next step in its development

What Dreams May Come Richard Matheson, 2008-04-29 The New York Times bestseller A LOVE THAT TRANSCENDS HEAVEN AND HELL What happens to us after we die Chris Nielsen had no idea until an unexpected accident cut his life short separating him from his beloved wife Annie Now Chris must discover the true nature of life after death But even Heaven is not complete without Annie and when tragedy threatens to divide them forever Chris risks his very soul to save Annie from an eternity of despair Richard Matheson's powerful tale of life and love after death was the basis for the Oscar winning film starring Robin Williams

Personal Spirituality Daniel J. Benor, 2006 Dr Benor addresses his explorations from the standpoint of an advocate but one who is an open minded explorer neither from a religious nor a conventional medical perspective The breadth and depth of the research reports in this volume on the psychic intuitive and spiritual aspects of healing will engage even the knowledgeable reader This book is destined to take its place among the most influential and controversial in the field of claims reports and experiences of unconventional healing and spiritual awareness

The Sound Current Tradition David Christopher Lane, 2022-07-14 The practice of listening to subtle inner sounds during meditation to concentrate and elevate the mind has a long history in various religions around the world including Islam Christianity Hinduism Buddhism Jainism and Sikhism Today there are a number of new religious movements that have made listening to the inner sound current a cornerstone of their teachings These groups include the Radhasoamis the Divine Light Mission Eckankar the Movement of Spiritual Inner Awareness MSIA MasterPath the Sawan Kirpal Mission Quan Yin Ching Hai Manavta Mandir ISHA and a number of others In this study we provide a historical and comprehensive overview of these movements and how they have incorporated listening to the inner sound as part of their spiritual discipline We are particularly interested in the distinctive and nuanced ways that each group teaches how to listen to the inner sound current and how they interpret it in their own unique theologies

literary mix tape that explores the entwined boundaries between sound material culture landscape and esoteric belief Trees rigged up to the wireless radio heavens A fax machine used to decode the language of hurricanes A broadcast ghost that hijacked a television station to terrorize a city A failed computer factory in the desert with a slap back echo resounding into ruin In High Static Dead Lines media historian and artist Kristen Gallerneaux weaves a literary mix tape that explores the entwined boundaries between sound material culture landscape and esoteric belief Essays and fictocritical interludes are arranged to evoke a network of ley lines for the sonic spectre to travel through a hypothetical presence that manifests itself as an invisible layer of noise alongside the conventional histories of technological artifacts The objects and stories within span from the mid nineteenth century to the present day touching upon military communications and cultural history A connective thread is the recurring presence of sound audible self generative and remembered charting the contentious sonic histories of paranormal culture

The Heartbeat of Intelligence Elaine Matthews, 2001-07-10 The Evolving Heart Nature's Astonishing Evolutionary Intention for Humanity The Heartbeat of Intelligence shows why we are not fulfilling our potential as individuals and as a species It shows how and why we stepped off the evolutionary path intended by Nature a path which would have put us several evolutionary steps ahead of where we are now had we not strayed from it The book shows how stepping off the path has severely jeopardized the mysterious connection between the heart and the brain a connection which is essential for our continued evolution as a species The author believes that we will not continue evolving or even survive as a species without that understanding The book explains The theory of neoteny and why this is the most crucial aspect of human evolution Why synchronicity is the law by which human beings will live in the future How left brain dominance has led to nearly all of the problems we face today Why Nature is far more profound and mysterious than science allows Why seeing the Universe as a hologram answers so many puzzling questions Love and compassion passion and joy goodness and beauty are the birthright of every human being built into our genes and intended by Nature to speak in every beat of our heart The book shows us the delightful steps of joy and lightness which will not only take us several evolutionary steps forward but will help us save our beautiful planet Astonishingly this could all be accomplished in less than a generation
