The Music and Dance of the World's Religions E.

Rust, 1996-08-23 Despite the world wide association of music and dance with religion this is the first full length study of the subject from a global perspective The work consists of 3 816 references divided among 37 chapters It covers tribal regional and global religions and such subjects as shamanism liturgical dance healing and the relationship of music mathematics and mysticism The referenced materials display such diverse approaches as analysis of music and dance description of context direct experience observation and speculation The references address topics from such disciplines as sociology anthropology history linguistics musicology ethnomusicology theology medicine semiotics and computer technology Chapter 1 consists of general references to religious music and dance The remaining 36 chapters are organized according to major geographical areas Most chapters begin with general reference works and bibliographies then continue with topics specific to the region or religion This book will be of use to anyone with an interest in music dance religion or culture The Mysticism of Sound and Music Hazrat Inayat Khan, 2022-10-04 The first teacher to bring Islamic mysticism to the West presents music s divine nature and its connection to our daily lives in this poetic classic of Sufi literature Music according to Sufi teaching is really a small expression of the overwhelming and perfect harmony of the whole universe and that is the secret of its amazing power to move us The Indian Sufi master Hazrat Inayat Khan 1882 1927 the first teacher to bring the Islamic mystical tradition to the West was an accomplished musician himself His lucid exposition of music's divine nature has become a modern classic beloved not only by those interested in Sufism but by musicians of all kinds **Healing Mantras** Thomas Ashley-Farrand, 2008-12-24 Sound is more than simply a medium of artistic expression Sound has practical and powerful applications in the real world Mantras or simple chants are short phrases packed with energy and intention specifically designed to generate powerful sound waves that promote healing insight creativity and spiritual growth Healing Mantras is the practical how to guide that makes the strengths and benefits of mantras available to everyone The transformative power of sound has been passed down to the present from the sages of India the classical scientists of ancient Greece and the medieval monks of Europe Mantras sounds and chants have inspired comforted and mended the lives of individuals religious orders and even entire cultures Even though the science and discipline of chanting and formal prayer are practiced in every religion around the world this is the first time that ancient Sanskrit mantras have been explained and adapted to Western needs One of the few Western experts in Hindu and Buddhist mantras Thomas Ashley Farrand has practiced mantra based spiritual disciplines for twenty five years In this illuminating book he explains how and why mantras work and shows how to use them for everything from controlling habits to overcoming fear from curing specific ailments to finding inner peace In each of the more than fifty mantras all translated from the original Sanskrit Ashley Farrand unlocks the power of every word

explains its appropriate application and tells you how to pronounce it in easy to follow phonetic symbols Inside you ll find mantras for Health Worldly Success Habit Control Protection Grief Anger Controlling Fear Personal Attraction Wisdom Concentration and Mental Clarity Healing Life Issues and more These mantras can be repeated aloud or in silence and can be used by people of any religion or spiritual practice as you wash dishes as you drive on the freeway as you meditate or as you cook Sound can help and sound can heal and Healing Mantras now makes this sound medicine available to everyone **Healing Power of Sound** Mitchell L. Gaynor, M.D., 2002-08-13 A guide to the surprising benefits of music on your mind spirit and body complete with sound based breathing and meditation exercises Since 1991 Dr Mitchell Gaynor has been achieving remarkable results by integrating music vocalization breathing and meditation techniques in his work with patients In The Healing Power of Sound he presents his sound based techniques for self healing techniques that anyone can use whether faced with a life threatening disease or simply seeking relief from the stresses of daily life Numerous studies have demonstrated the health benefits of music it can lower blood pressure and heart and respiratory rates reduce cardiac complications increase the immune response and boost our natural opiates Gaynor shows how when integrated as part of a mind body spirit approach to wellness music can play a significant part in maintaining a healthy lifestyle or in healing serious disease The Healing Power of Sound includes twelve exercises involving breathing meditation and toning using pure vocal sound to resolve tension release emotion and spur the healing process that can be used by anyone to improve health and Aesthetics of Religion Alexandra K. Grieser, Jay Johnston, 2017-12-18 This volume is the first English quality of life language presentation of the innovative approaches developed in the aesthetics of religion The chapters present diverse material and detailed analysis on descriptive methodological and theoretical concepts that together explore the potential of an aesthetic approach for investigating religion as a sensory and mediated practice. In dialogue with yet different from other major movements in the field material culture anthropology of the senses for instance it is the specific intent of this approach to create a framework for understanding the interplay between sensory cognitive and socio cultural aspects of world construction The volume demonstrates that aesthetics as a theory of sensory knowledge offers an elaborate repertoire of concepts that can help to understand religious traditions These approaches take into account contemporary developments in scientific theories of perception neuro aesthetics and cultural studies highlighting the socio cultural and political context informing how humans perceive themselves and the world around them Developing since the 1990s the aesthetic approach has responded to debates in the study of religion in particular striving to overcome biased categories that confined religion either to texts and abstract beliefs or to an indisputable sui generis mode of experience This volume documents what has been achieved to date its significance for the study of religion and for interdisciplinary scholarship Music and the Power of Sound Alain Daniélou, 1995-08-01 Music has always been esteemed for its power to speak directly to our higher consciousness a power founded in the purity of simple harmonic ratios In this book Alain Danielou traces the development of

musical scales and tuning from their origins in both China and India through their merging in ancient Greece and on to the development of the Western traditions of modal and polyphonic music Understanding these potent harmonic relationships offers a way for today s musicians to transcend the limitations of overly rationalistic music by drawing on its metaphysical **Sound Healing for Beginners** Joshua Goldman, Alec W.
