

NAFANUA

The background of the entire page is a photograph of a dense rainforest. A large, thick tree trunk with many buttresses is the central focus. Sunlight filters through the dense canopy of green leaves, creating a dappled light effect. The overall color palette is dominated by greens and browns, with some bright highlights from the sunlight.

Nafanua Saving The Samoan Rain Forest:

Nafanua Paul Alan Cox,1997 The author describes his work in a remote Samoan village studying rain forest remedies and discusses how this led to his collaboration with village elders to protect the Falealupo rain forest **Rainforest Tourism, Conservation and Management** Bruce Prideaux,2014-09-19 Globally rainforests are under threat on numerous fronts including clearing for agriculture harvesting for timber and urban expansion Yet they have a crucial role in biodiversity conservation climate change mitigation and providing other ecosystem services As the term is used in this book rainforests include both temperate and tropical although the emphasis is on tropical rainforests Rainforests are also attractive tourist spaces and where they have been used as a tourism resource have generated significant income for local communities However not all use of rainforests as a tourism resource has been sustainable This book argues that sustainability must be the foundation on which tourism use of this complex but ultimately fragile ecosystem must be built upon It provides a multi disciplinary perspective incorporating rainforest science management and tourism issues The book is organized into four sections commencing with Rainforest Ecology and Management followed by People and Rainforests Opportunities for Rainforest Tourism Development and finally Threats to Rainforests Each major rainforest region is covered including the Amazon Central America Africa Australia and south east Asia in the context of a specific issue For example rainforests in Papua New Guinea are examined in the context of community based ecotourism development while the rainforests in Borneo are discussed in an examination of wildlife issues Other issues covered in this manner include governance empowerment issues for rainforest peoples and climate change *Field Guide to the Sāmoan Archipelago* ,2002 Features descriptions and beautiful color illustrations of over 400 species of marine and terrestrial fauna found in the ecosystems of Samoa s coral reefs ocean waters sea grass beds rain forests mangrove forests and wetlands *Indigenous Ecotourism* Heather Zeppel,2006-01-01 This volume reviews indigenous ecotourism as a special type of nature based tourism and examines the key principles of conservation and community benefits from indigenous owned and operated ecotourism businesses or joint ventures It compares indigenous ecotourism in developed and developing countries and provides global case studies of indigenous ecotourism projects in the Pacific Islands Africa Latin America and Southeast Asia The book analyses key factors and constraints for sustainable development of Indigenous ecotourism and explores the growing links between biodiversity conservation ecotourism and indigenous rights It will appeal to practitioners researchers and students in ecotourism and sustainable tourism indigenous studies conservation natural resource management and community development **BOOK JACKET** Fodor's Complete Guide to the National Parks of the USA Fodor's Travel Guides,2025-07-29 Whether you want to hike through the jaw dropping scenery of Acadia see rare wildlife and natural wonders in Yellowstone or go river rafting in the Grand Canyon the local Fodor s travel experts in all the National Parks are here to help Fodor s Complete Guide to the National Parks of the USA is packed with maps carefully curated recommendations and everything

Borderwaters Brian Russell Roberts, 2021-04-05 Conventional narratives describe the United States as a continental country bordered by Canada and Mexico Yet since the late twentieth century the United States has claimed more water

space than land space and more water space than perhaps any other country in the world This watery version of the United States borders some twenty one countries particularly in the archipelagoes of the Pacific and the Caribbean In *Borderwaters* Brian Russell Roberts dispels continental national mythologies to advance an alternative image of the United States as an archipelagic nation Drawing on literature visual art and other expressive forms that range from novels by Mark Twain and Zora Neale Hurston to Indigenous testimonies against nuclear testing and Miguel Covarrubias's visual representations of Indonesia and the Caribbean Roberts remaps both the fundamentals of US geography and the foundations of how we discuss US culture

People, Plants, and Justice Charles Zerner, 2000 In an era of market triumphalism this book probes the social and environmental consequences of market linked nature conservation schemes Rather than supporting a new anti market orthodoxy Charles Zerner and colleagues assert that there is no universal entity the market Analysis and remedies must be based on broader considerations of history culture and geography in order to establish meaningful and lasting changes in policy and practice Original case studies from Asia Latin America Africa and the South Pacific focus on topics as diverse as ecotourism bioprospecting oil extraction cyanide fishing timber extraction and property rights The cases position concerns about biodiversity conservation and resource management within social justice and legal perspectives providing new insights for students scholars policy professionals and donor foundations engaged in international conservation and social justice

Plants, People, and Culture Michael J Balick, Paul Alan Cox, 2020-08-19 Is it possible that plants have shaped the very trajectory of human cultures Using riveting stories of fieldwork in remote villages two of the world's leading ethnobotanists argue that our past and our future are deeply intertwined with plants Creating massive sea craft from plants indigenous shipwrights spurred the navigation of the world's oceans Today indigenous agricultural innovations continue to feed clothe and heal the world's population One out of four prescription drugs for example were discovered from plants used by traditional healers Objects as common as baskets for winnowing or wooden boxes to store feathers were ornamented with traditional designs demonstrating the human ability to understand our environment and to perceive the cosmos Throughout the world the human body has been used as the ultimate canvas for plant based adornment as well as indelible design using tattoo inks Plants also garnered religious significance both as offerings to the gods and as a doorway into the other world Indigenous claims that plants themselves are sacred is leading to a startling reformulation of conservation The authors argue that conservation goals can best be achieved by learning from rather than opposing indigenous peoples and their beliefs

KEY FEATURES An engrossing narrative that invites the reader to personally engage with the relationship between plants people and culture Full color illustrations throughout including many original photographs captured by the authors during fieldwork New to this edition *Plants That Harm* a chapter that examines the dangers of poisonous plants and the promise that their study holds for novel treatments for some of our most serious diseases including Alzheimer's and substance addiction Additional readings at the end of each chapter to encourage further exploration Boxed features on selected topics that offer

further insight Provocative questions to facilitate group discussion Designed for the college classroom as well as for lay readers this update of *Plants People and Culture* entices the reader with firsthand stories of fieldwork spectacular illustrations and a deep respect for both indigenous peoples and the earth's natural heritage *The Ethnobotany of Eden* Robert A. Voeks, 2018-06-27 In the mysterious and pristine forests of the tropics a wealth of ethnobotanical panaceas and shamanic knowledge promises cures for everything from cancer and AIDS to the common cold To access such miracles we need only to discover and protect these medicinal treasures before they succumb to the corrosive forces of the modern world A compelling biocultural story certainly and a popular perspective on the lands and peoples of equatorial latitudes but true Only in part In *The Ethnobotany of Eden* geographer Robert A Voeks unravels the long lianas of history and occasional strands of truth that gave rise to this irresistible jungle medicine narrative By exploring the interconnected worlds of anthropology botany and geography Voeks shows that well intentioned scientists and environmentalists originally crafted the jungle narrative with the primary goal of saving the world's tropical rainforests from destruction It was a strategy deployed to address a pressing environmental problem one that appeared at a propitious point in history just as the Western world was taking a more globalized view of environmental issues And yet although supported by science and its practitioners the story was also underpinned by a persuasive mix of myth sentimentality and nostalgia for a long lost tropical Eden Resurrecting the fascinating history of plant prospecting in the tropics from the colonial era to the present day *The Ethnobotany of Eden* rewrites with modern science the degradation narrative we've built up around tropical forests revealing the entangled origins of our fables of forest cures ***The Rain Forest and the Flying Foxes***, 1998 *Cases in Innovative Nonprofits* Ram A. Cnaan, Diane Vinokur-Kaplan, 2014-12-02 Become an innovator in the nonprofit world Student friendly and readable *Cases in Innovative Nonprofits* provides readers with current comparative case studies of innovative nonprofit organizations that are meeting the needs of humanity in both the U S and abroad Edited by well known scholars Ram A Cnaan and Diane Vinokur Kaplan this text provides inspiring examples of social entrepreneurs who have instituted new services to meet the needs of both new and long standing social problems Each case features either an unidentified need and its successful response or an existing need that was tackled in a unique and innovative manner The text is purposefully organized into four parts Part 1 Two conceptual chapters give the reader an understanding of what a nonprofit social innovation is and tools to analyze various social innovations in this volume and elsewhere Part 2 Ten cases reveal the innovative formation of new nonprofit organizations Part 3 Three cases emphasize innovation through collaboration Part 4 Five cases demonstrate innovations taking place within an existing nonprofit organization By using a simple identical format for each case this text facilitates student learning through comparative review providing a deeper understanding about the complexity and steps required to achieve nonprofit social innovation ***The Cultural History of Plants*** Sir Ghilleen Prance, Mark Nesbitt, 2012-10-12 This valuable reference will be useful for both scholars and general readers It is both botanical and

cultural describing the role of plant in social life regional customs the arts natural and covers all aspects of plant cultivation and migration and covers all aspects of plant cultivation and migration The text includes an explanation of plant names and a list of general references on the history of useful plants **Islands Magazine** ,1993-09 *Our Backyard* Gerald R. Visgilio,Diana M. Whitelaw,2003-06-05 This collection of essays by local activists and nationally recognized scholars deals with the history status and dilemmas of environmental justice These essays provide a comprehensive overview of social and political aspects associated with environmental injustices in minority and poor communities It will provide a solid platform for dialogue between activists and policymakers or between teachers and students The Rotarian ,2000-02 Established in 1911 The Rotarian is the official magazine of Rotary International and is circulated worldwide Each issue contains feature articles columns and departments about or of interest to Rotarians Seventeen Nobel Prize winners and 19 Pulitzer Prize winners from Mahatma Ghandi to Kurt Vonnegut Jr have written for the magazine **The Trashing of Margaret Mead** Paul Shankman,2009-12-03 In 1928 Margaret Mead published *Coming of Age in Samoa* a fascinating study of the lives of adolescent girls that transformed Mead herself into an academic celebrity In 1983 anthropologist Derek Freeman published a scathing critique of Mead s Samoan research badly damaging her reputation Resonating beyond academic circles his case against Mead tapped into important public concerns of the 1980s including sexual permissiveness cultural relativism and the nature nurture debate In venues from the New York Times to the TV show *Donahue* Freeman argued that Mead had been hoaxed by Samoans whose innocent lies she took at face value In *The Trashing of Margaret Mead* Paul Shankman explores the many dimensions of the Mead Freeman controversy as it developed publicly and as it played out privately including the personal relationships professional rivalries and larger than life personalities that drove it Providing a critical perspective on Freeman s arguments Shankman reviews key questions about Samoan sexuality the alleged hoaxing of Mead and the meaning of the controversy Why were Freeman s arguments so readily accepted by pundits outside the field of anthropology What did Samoans themselves think Can Mead s reputation be salvaged from the quicksand of controversy Written in an engaging clear style and based on a careful review of the evidence *The Trashing of Margaret Mead* illuminates questions of enduring significance to the academy and beyond 2010 Distinguished Lecturer in Anthropology at the American Museum of Natural History *The Trashing of Margaret Mead* reminds readers of the pitfalls of academia It urges scholars to avoid personal attacks and to engage in healthy debate The book redeems Mead while also redeeming the field of anthropology By showing the uniqueness of the Mead Freeman case Shankman places his continued confidence in academia scholars and the field of anthropology H Net Reviews Hope at Sea Teresa Shewry,2015-09-16 As far back as Thomas More s *Utopia* and Francis Bacon s *New Atlantis* the Pacific Ocean has inspired literary creations of promising worlds *Hope at Sea* asks how literary writers have more recently conceived the future of ocean living In doing so it provides a new perspective on art and imagination in the face of enormous environmental change Drawing together ecocriticism theories of hope and literary

analysis this book explores how literary writers evoke hope in engaging with environmental upheavals that are reshaping life in the Pacific Ocean Teresa Shewry considers contemporary poetry short stories novels art and journalistic pieces from Australia New Zealand Hawai i and other ocean sites examining their imaginative accounts of present life and future living in places where humans coexist with environmental loss rivers that no longer reach the sea dwindling populations of ocean life the effects of nuclear weapons testing and more These works are connected by their views of a future that includes hope Until now hope has never been theorized in a direct sustained way in ecocriticism Hope at Sea makes an argument for hope as a lens for creative and critical confrontation with environmental disruptions and the resulting sense of loss It also reflects on the critical approaches that hope as an analytic category opens up for the study of environmental literature With hope as a critical perspective Shewry develops a method for reading environmental literature literary writers create new ways to apprehend existing environmental realities and craft stories about seas forests cities and rivers that could be not as literal plans but as ways of imagining promising lives in the present world and in the world to come

Eating on the Wild Side Nina L. Etkin, 2000-11 People have long used wild plants as food and medicine and for a myriad of other important cultural applications While these plants and the foraging activities associated with them have been dismissed by some observers as secondary or supplementary or even backward their contributions to human survival and well being are more significant than is often realized Eating on the Wild Side spans the history of human plant interactions to examine how wild plants are used to meet medicinal nutritional and other human needs Drawing on nonhuman primate studies evidence from prehistoric human populations and field research among contemporary peoples practicing a range of subsistence strategies the book focuses on the processes and human ecological implications of gathering semidomestication and cultivation of plants that are unfamiliar to most of us Contributions by distinguished cultural and biological anthropologists paleobotanists primatologists and ethnobiologists explore a number of issues such as the consumption of unpalatable and famine foods the comparative assessment of aboriginal diets with those of colonists and later arrivals and the apparent self treatment by sick chimpanzees with leaves shown to be pharmacologically active Collectively these articles offer a theoretical framework emphasizing the cultural evolutionary processes that transform plants from wild to domesticated with many steps in between while placing wild plant use within current discussions surrounding biodiversity and its conservation Eating on the Wild Side makes an important contribution to our understanding of the links between biology and culture describing the interface between diet medicine and natural products By showing how various societies have successfully utilized wild plants it underscores the growing concern for preserving genetic diversity as it reveals a fascinating chapter in the human ecology
