**The Signifying Eye** Candace Waid, 2013-07-01. A bold book built of close readings, striking in its range and depth. *The Signifying Eye* shows Faulkner's art take shape in sweeping arcs of social labor and aesthetic history. Beginning with long unpublished works, his childhood sketches and his hand-drawn and hand-illustrated play *The Marionettes* and early novels *Mosquitoes* and *Sartoris*, working through many major works *The Sound and the Fury*, *As I Lay Dying*, *Sanctuary*, *Light in August* and *Absalom, Absalom!* and including more popular fictions *The Wild Palms* and *The Unvanquished* and late novels notably *Intruder in the Dust* and *The Town*. *The Signifying Eye* reveals Faulkner's visual obsessions with artistic creation as his work is read next to Wharton, Cather, Toomer and in a tour de force intervention Willem de Kooning. After coloring in southern literature as a reverse slave narrative, Waid's *Eye* locates Faulkner's fiction as the feminist hinge in a crucial parable of art that seeks abstraction through the burial of the race-defined mother. Race is seen through gender and sexuality while social fall is exposed in Waid's phrase as a coloring of class. Locating visual language that constitutes a pictorial vocabulary, *The Signifying Eye* delights in literacy as the oral meets the written and the abstract opens as a site to see narrative. Steeped in history, this book locates a heightened reality that goes beyond representation to bring Faulkner's novels, stories and drawings into visible form through Whistler, Beardsley, Gorky and de Kooning. Visionary and revisionist, Waid has painted the proverbial big picture, changing the fundamental way that both the making of modernism and the avant-garde will be seen. A Friends Fund publication.

**The Accommodated Animal** Laurie Shannon, 2024-05-31. Shakespeare wrote of lions, shrews, horned toads, curs, mastiffs and hellhounds. But the word animal itself

only appears very rarely in his work which was in keeping with sixteenth century usage As Laurie Shannon reveals in *The Accommodated Animal* the modern human animal divide first came strongly into play in the seventeenth century with Descartes's famous formulation that reason sets humans above other species I think therefore I am Before that moment animals could claim a firmer place alongside humans in a larger vision of belonging or what she terms cosmopolity With Shakespeare as her touchstone Shannon explores the creaturely dispensation that existed until Descartes She finds that early modern writers used classical natural history and readings of Genesis to credit animals with various kinds of stakeholder prerogative and entitlement employing the language of politics in a constitutional vision of cosmic membership Using this political idiom to frame cross species relations Shannon argues carried with it the notion that animals possess their own investments in the world a point distinct from the question of whether animals have reason It also enabled a sharp critique of the tyranny of humankind By answering the question of the animal historically *The Accommodated Animal* makes a brilliant contribution to cross disciplinary debates engaging animal studies political theory intellectual history and literary studies
