understanding of the Roman era in profound ways and yet despite such encouraging advances and such clear worth there has to date been little in the way of a dedicated forum for the presentation and evaluation of current approaches to the study of material culture The conference at which these papers were initially presented has gone some way to redressing this and these papers bring the very latest studies on Roman finds to a wider audience Twenty papers are here presented covering various themes

The Portrait Bust and French Cultural Politics in the Eighteenth Century Ronit Milano, 2015-02-24 In The Portrait Bust and French Cultural Politics in the Eighteenth Century Ronit Milano probes the rich and complex aesthetic and intellectual charge of a remarkably concise art form and explores its role as a powerful agent of epistemological change during one of the most seismic moments in French history The pre Revolutionary portrait bust was inextricably tied to the formation of modern selfhood and to the construction of individual identity during the Enlightenment while positioning both sitters and viewers as part of a collective of individuals who together formed French society In analyzing the contribution of

the portrait bust to the construction of interiority and the formulation of new gender roles and political ideals this book touches upon a set of concerns that constitute the very core of our modernity [Public Feminism in Times of Crisis](#) Leila Easa,Jennifer Stager,2022-07-26 Public Feminism in Times of Crisis examines the public practice of feminism in the age of social media While their concept of public feminism emerges from a moment of acute crisis the Trump years and the Covid 19 pandemic Leila Easa and Jennifer Stager locate its foundations in history journeying through broad swatches of time looking for connections between the centuries through art and literature and culture Each chapter focuses on what public feminists do in the world Public feminists gain control over an archive that otherwise contains or excludes them they recover their own stories and subjective experiences sometimes for activist use they examine images and language that construct women in patriarchal texts they situate the individual within a collective and the collective within an individual they confront the limitations of such situating due to the containment of patriarchy and reclaim new systems of power in response and they resurface a deep history for the alternative strategies of memorializing they employ In navigating these practices the authors also attend to the material conditions of writing histories as well as those shaping and enabling public feminist acts and protests more broadly [Julia Augusta](#) Tracene Harvey,2019-07-05 Julia Augusta examines the socio political impact of coin images of Augustus s wife Livia within the broader context of her image in other visual media and reveals the detailed visual language that was developed for the promotion of Livia as the predominant female in the Roman imperial family The book provides the most comprehensive examination of all extant coins of Livia to date and provides one of the first studies on the images on Roman coins as gender infused designs which created a visual dialogue regarding Livia s power and gender roles in relation to those of male members of the imperial family While the appearance of Roman women on coins was not entirely revolutionary having roughly coincided with the introduction of images of powerful Roman statesmen to coins in the late 40s BCE the degree to which Livia came to be commemorated on coins in the provinces and in Rome was unprecedented This volume provides unique insights into the impact of these representations of Livia both on coins and in other visual media Julia Augusta Images of Rome s First Empress on the Coins of the Roman Empire will be of great interest to students of women and imperial imagery in the Roman Empire as well as the importance of visual representation and Roman imperial ideology [Making Sense of Motherhood](#) Beth M. Stovell,2016-02-02 Motherhood provides a crucial place for exploring human life and its meaning Within motherhood lies a deep tension between the pain crisis and association with death in motherhood and the joy transformation and life in motherhood Few metaphors in Scripture or in life stand so firmly between life and death love and loss and joy and deep pain After all motherhood s meaning in part comes again and again at these crucial crossroads Thus motherhood has powerful implications for our biblical and theological understanding Bringing together Jewish and ecumenical Christian scholars from North America Oceania and South America this edited volume provides biblical and theological perspectives on understanding motherhood The authors reflect upon a selection of biblical

texts systematic theologians and Christian spiritual traditions to dialogue with the experience of maternity in its diverse manifestations The purpose of the book is to provide essays that through these biblical and theological lenses engage the question of motherhood today from the experience of pregnancy and birth to raising children to losing children and coping with grief In this way this volume helps to make sense of the complexity of motherhood **Antiquity in Print** Daniel Orrells,2024-05-16 Daniel Orrells examines the ways in which the ancient world was visualized for Enlightenment readers and reveals how antiquarian scholarship emerged as the principal technology for envisioning ancient Greek culture at a time when very few people could travel to Greece which was still part of the Ottoman Empire Offering a fresh account of the rise of antiquarianism in the 18th century Orrells shows how this period of cultural progression was important for the invention of classical studies In particular the main focus of this book is on the visionary experimentalism of antiquarian book production especially in relation to the contentious nature of ancient texts With the explosion of the Quarrel between the Ancients and the Moderns eighteenth century intellectuals antiquarians and artists such as Giambattista Vico Johann Joachim Winckelmann the Comte de Caylus James Stuart Julien David Leroy Giovanni Battista Piranesi and Pierre Fran ois Hugues d Hancarville all became interested in how printed engravings of ancient art and archaeology could visualize a historical narrative These figures theorized the relationship between ancient text and ancient material and visual culture theorizations which would pave the way to foundational questions at the heart of the discipline of classical studies and neoclassical aesthetics **Women's Dress in the Ancient Greek World** Lloyd Llewellyn-Jones,2001-12-31 The clothing and ornament of Greek women signalled much about the status and the morality assigned to them Yet this revealing aspect of women s history has been little studied In this collection of new studies by an international team ancient visual evidence from vase painting and sculpture is used extensively alongside Greek literature to reconstruct how women of the Greek world were perceived and also in important ways how they lived **Hippocrates in Context** P.J. van der Eijk,2018-07-17 This collection of papers studies the Hippocratic writings in their relationship to the intellectual social cultural and literary context in which they were written Context includes not only the Greek world but also the medical thought and practice of other civilisations in the Mediterranean such as Babylonian and Egyptian medicine A further point of interest are the relations between the Hippocratic writings and non Hippocratic medical authors of the fifth and fourth century BCE such as Diocles of Carystus Praxagoras of Cos as well as Plato Aristotle and Theophrastus The collection further includes studies of some of the less well known works in the Hippocratic Corpus such as Internal Affections On the Eye and Prorrhetoicon And finally a number of papers are devoted to the impact and reception of Hippocratic thought in later antiquity and the early modern period
