

### **Brainstorm your list.**

In each hexagon above, complete the sentence with a different activity.

### **Now whittle it down.**

Ask yourself, *If I had to choose between the first activity and the second, which is more appealing to me?* Once you have your answer, put your finger on the winner and compare that choice with the third activity. Repeat this exercise all the way around the loop, moving your finger to the winning activity after each comparison; when you complete the loop, your finger will be on your number one passion. Write that activity at the top of the list below, and draw an X over the activity in the loop. Now repeat this process four more times (always starting from the top), and each time, skip the X-ed out activities. You've just found your top five passions.

**Social Media Guide** Harkamal Preet Pal Singh Ubhi,2019-05-05 Today you re faced with a lot of options when it comes to  
launching your social media presence Twitter or Facebook Linkedin Instagram or Pinterest How about all of them It s  
difficult to determine which platform is best for your business if you don t know a thing about them or their strengths I guide  
you through the most fundamental strategies for some of today s biggest social platforms I present you with a very practical  
approach to each social network and answer some of the biggest questions businesses have This is definitely a must read if  
you re just beginning your social media journey Without an audience there s not much use for a social media strategy In  
today s marketing age your audience matters more than ever Every business needs one to survive It s how you discover and  
forge loyal relationships with customers But in many cases businesses treat their audiences like afterthoughts rather than  
assets A bottom up strategy for creating a foundation building your assets attracting followers and integrating social media  
and blogging It s a great resource for beginners as well as seasoned professionals looking to improve Your priority isn t to  
sell a product but rather help someone discover how your product solves their problem By focusing on helping you ll develop  
stronger relationships with more loyal customers than if you focus solely on selling When you consider the selling power of  
sites like Facebook and Twitter that stat might seem surprising i provide you with all of the information and tools necessary  
to engage customers in a digital world My advice is practical concise and helps you leverage the human side of your business  
Currently more than 500 million Tweets are composed each day on Twitter and 80 million photos are shared daily on  
Instagram To add to it more than 30 billion pieces of content are shared on Facebook each month To say consumers are  
overloaded by information would be an understatement Beyond sales a social media marketer must keep an eye on Tweets  
shares Likes Pins regrams revines clicks unlikes and much more With so many measurable metrics it s easy to lose sight of  
what truly matters Success isn t getting 1 000 Retweets of a funny picture you posted Instead great social media is about  
providing value to your customers It was recently determined that people lose concentration after only eight seconds leaving  
marketers with a very small window for impact As a result images were adopted as a way to work around our diminishing  
attention spans     **Humphrey's Manual of Type-writing, Business Letter-writer, and Exercises for Phonographic**
