Names ,2002 Journal of the American Name Society   The New Cambridge Bibliography of English Literature: Volume 1, 600-1660 George Watson,Ian Roy Willison,1974-08-29 More than fifty specialists have contributed to this new edition of volume 1 of The Cambridge Bibliography of English Literature The design of the original work has established itself so firmly as a workable solution to the immense problems of analysis articulation and coordination that it has been retained in all its essentials for the new edition The task of the new contributors has been to revise and integrate the lists of 1940 and 1957 to add materials of the following decade to correct and refine the bibliographical details already available and to re shape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries   *American Book Publishing Record* ,2003   Names New and Old Edwin Wallace McMullen,2002 These essays tell the story of geographic literary personal and various other types of names Information on names is offered chronologically from 1391 up to the present time and the hip lit names used in Bret Easton Ellis s Less than Zero There are also technical studies such as the names of drugs in the world of street Spanish and the sound patterns of proper names in the English language   **A Reference Guide for English Studies** Michael J. Marcuse,1990-01-01 This text is an introduction to the full range of standard reference tools in all branches of English studies More than 10 000 titles are included The Reference Guide covers all the areas traditionally defined as English studies and all the field of inquiry more recently associated with English studies British and Irish American and world literatures written in English are included Other fields covered are folklore film literary theory general and comparative literature language and linguistics rhetoric and composition bibliography and textual criticism and women s studies   **Forthcoming Books** Rose Arny,2001-08   **Literary Onomastics Studies** ,1988   *Shakespeare Index: Citations and author index* Bruce T. Keeble,1988   **Naming Among the Xhosa of South Africa** S. J. Neethling,2005 This book is the first comprehensive monograph on naming in the Xhosa speaking community in South Africa This work brings together all available scholarly research on Xhosa naming as well as recent research by the author Onomastics the study of names naming and naming systems is relatively young in Southern Africa While the discipline of onomastics was already well established in northern Europe in the late nineteenth century the study of names and naming only really started

to take root in Southern Africa in the second half of the twentieth century And if onomastics itself is relatively young in Southern Africa the study of names and naming among the Bantu speaking societies and cultures is younger still Prior to 1976 one might have found the odd reference to personal names in ethnographic literature but one would have looked in vain for academic studies on naming patterns among the Zulu Xhosa Venda Tswana or any of the other indigenous language groupings of Southern Africa papers being read at the congresses of the Names Society of Southern Africa NSA articles being published in the NSA journal Nomina Africana and students in Departments of African Languages around Southern Africa producing postgraduate research into naming systems of the Zulu Xhosa Sotho Tswana and the other indigenous language communities of Southern Africa For monographs on the naming systems of the indigenous peoples though the serious names scholar had to wait until the twenty first century My own work Zulu Names appeared in 2002 published by the University of Natal Press in Pietermaritzburg and Minna Saarelma Maunumaa s Edhina Ekogidho Names as Links on the naming system of the Ambo people of Namibia and published by the Finnish Literature Society in Helsinki was released in 2003 This work by Bertie Neethling on the names of the Xhosa speaking people of South Africa thus completes the trio Bertie Neethling is well placed to write a book on Xhosa names and naming Cape where he has been teaching Xhosa for many years he has been one of Southern Africa s major contributors to the study of onomastics among the indigenous groups His interest in Xhosa onomastics and in literary onomastics in both Xhosa and Afrikaans goes hand in hand with his interest in oral literary productions and he is as well known for his scholarly articles on Xhosa iintsomi folktales and Xhosa oral poetry in journals such as The South African Journal of African Languages as he is for his articles on Xhosa onomastics in Nomina Africana A regular at the biennial congresses of the Names Society of Southern Africa his face is also well known at the triennial congresses of the International Council of Onomastic Sciences ICOS Naming patterns in all societies are subject to change and in the turbulent and changing socio political climate in South Africa since the early 1990s this has been particularly true for Xhosa society established and traditional Xhosa naming system with developments of the late twentieth and early twenty first centuries So for example we find the chapter on the Xhosa speaker s English name looking deeply into the question of whether the colonial name as many scholars have described this type of name is still a feature of Xhosa society or whether it has become a discarded symbol of the old South Africa The inclusion of chapters on the naming of informal settlements and of minibus taxis also gives this book the feel that it is tackling modern up to date onomastic issues and not just repeating stale ethnographic descriptions of Xhosa naming patterns of yesteryear The first section of the book and the most extensive one deals with anthroponymy and a wide range of different types of anthroponym is covered the real Xhosa name given at birth the English name the surname nicknames and names for married women expecting to find the usual and traditional categories like the names of towns and villages and other well known geographical names like those for rivers and mountains may well be surprised Neethling has decided to discuss place names mainly in an urbanised context

and hence the section on toponyms in this book deals with the names of schools businesses and informal settlements The book ends with a chapter each on minibus taxi names and the traditional names of the months of the year where an intriguing comparison is made with the lunar nomenclature of the Sioux people of North America I am sure that this book will very soon find a place on the bookshelf of every serious names scholar and student in South Africa and beyond as well as proving fascinating to people generally interested in the customs and traditions of the Xhosa speaking people   **Directory of American Scholars** ,1982   Directory of American Scholars Xerox Education Publications,1978   **Library of Congress Catalogs** Library of Congress,1980   Publications of the Modern Language Association of America ,1965-03 Vols for 1921 1969 include annual bibliography called 1921 1955 American bibliography 1956 1963 Annual bibliography 1964 1968 MLA international bibliography   *Subject Guide to Books in Print* ,1984
