Names On Trees Ariosto Into Art:

Names on Trees Rensselaer Wright Lee, 1977 The Description for this book **Names on Trees Ariosto into Art** will be forthcoming

Names on Trees Rensselaer W. Lee, **Encyclopedia of Italian Literary Studies: A-J** Gaetana Marrone, 2007 Publisher description

Reading Green in Early Modern England Leah Knight, 2016-04-08 Green in early modern England did not mean what it does today but what did it mean Unveiling various versions and interpretations of green this book offers a cultural history of a color that illuminates the distinctive valences greenness possessed in early modern culture While treating green as a panacea for anything from sore eyes to sick minds early moderns also perceived verdure as responsive to their verse sympathetic to their sufferings and endowed with surprising powers of animation Author Leah Knight explores the physical and figurative potentials of green as they were understood in Renaissance England including some that foreshadow our paradoxical dependence on and sacrifice of the green world Ranging across contexts from early modern optics and olfaction to horticulture and herbal health care this study explores a host of human encounters with the green world both the impressions we make upon it and those it leaves with us The first two chapters consider the value placed on two ways of taking green into early modern bodies and minds by seeing it and breathing it in while the next two address the manipulation of greenery by Orphic poets and medicinal herbalists as well as grafters and graffiti artists A final chapter suggests that early modern modes of treating green wounds might point toward a new kind of intertextual ecology of reading and writing *Reading Green in Early Modern England* mines many pages from the period not literally but tropically metaphorically green that cultivate a variety of unexpected meanings of green and the atmosphere and powers it exuded in the early modern world

Remembered Words Alastair Fowler, 2021-07-22 *Remembered Words* is a selection of Alastair Fowler's essays on genre realism and the emblem three interrelated subjects published over six decades It offers readers a way to arrive at a sense of how approaches to these subjects have changed over that period Specifically it shows how genre has come to be understood in terms of family resemblance theory *Remembered Words* argues that realism can be seen as altering historically so that Renaissance realism for example differs from those of later periods Similar changes are traced in the emblem which Fowler shows to be not only a particular genre but an element of various kinds of realism Famous passages in ancient literature are remembered in the familiar emblems of the Renaissance and Renaissance emblems form the basis of metaphors in later literature Meanwhile the general approach of the critic and the reader has been altering over the years as becomes evident when one takes into account the time scale of sixty years an unusually long working life for a critic Modern theoretical approaches which are often casually regarded as self evident may appear less inevitable and more arbitrary This is not to say that they are necessarily wrong just that they need to be argued for *Remembered Words* is intended for senior undergraduates and for graduate students who may use it to form ideas of Fowler

s approach and that of his contemporaries and predecessors over the last half century **The Aesthetic Life of Cyril Scott** Sarah Collins, 2013 **The Poetry of Place** Louisa MacKenzie, 2011-04-23 The sixteenth century in France was marked by religious warfare and shifting political and physical landscapes Between 1549 and 1584 however the Pl iade poets including Pierre de Ronsard Joachim Du Bellay R my Belleau and Antoine de Ba f produced some of the most abiding and irenic depictions of rural French landscapes ever written In The Poetry of Place Louisa Mackenzie reveals and analyzes the cultural history of French paysage through her study of lyric poetry and its connections with landscape painting cartography and land use history In the face of destructive environmental change lyric poets in Renaissance France often wrote about idealized physical spaces reclaiming the altered landscape to counteract the violence and loss of the period and creating in the process what Mackenzie following David Harvey terms spaces of hope This unique alliance of French Renaissance studies with cultural geography and eco criticism demonstrates that sixteenth century poetry created a powerful sense of place which continues to inform national and regional sentiment today **Shakespeare's Universe of Discourse** Keir Elam, 1984-06-21 This book makes ample use of approaches to language within linguistics semiotics the philosophy of language and sociology in order to do justice to the subtlety of Shakespeare s verbal artistry Keir Elam adopts a fresh approach to the language of Shakespeare s comedies considering it not simply as style but as the principal dramatic and comic substance of the plays Traditional analysis of the language as diction expression or verbal structure is not adequate to describe the range and importance of linguistic functions in these plays This book shows that in Shakespearean comedy language or rather discourse language in use is always a dynamic active protagonist of the drama The author explores the extraordinary gamut of verbal activities or language games that contribute to the rich rhetorical make up of the comedies The historical framework complements the application of critical theory which will assure a readership among students and teachers of Shakespeare as well as those interested in linguistics and semiotics Figures of the Text Michael Vincent, 1992-01-01 The works of Jean de La Fontaine have invited an extraordinary variety of readings in the three centuries since their composition By engaging selected fables and tales with contemporary notions of intertextuality reader reception theory and grammatology Figures of the Text raises questions about what reading La Fontaine meant in the 17th century and what it means today The study integrates a theory of reading and a theory of textual production by drawing attention to those aspects of the text that figure writing and reading for instance scenes of reading other modes of writing emblems hieroglyphics inscriptions and epitaphs proper names and citation proverbs maxims allusions the relation of represented orality to textuality of textuality to corporeality and of textuality to the visual arts ekphrasis and the archaeology of textual figures such as labyrinths textiles and veils The Oxford Handbook of Shakespearean Comedy Heather Hirschfeld, 2018-09-06 The Oxford Handbook of Shakespearean Comedy offers critical and contemporary resources for studying Shakespeare s comic enterprises It engages with perennial yet still urgent questions raised by the comedies and looks at them from a range of new perspectives that

represent the most recent methodological approaches to Shakespeare genre and early modern drama. Several chapters take up firmly established topics of inquiry such as Shakespeare's source materials, gender and sexuality, hetero and homoerotic desire, race and religion, and they reformulate these topics in the materialist, formalist, phenomenological, or revisionist terms of current scholarship and critical debate. Others explore subjects that have only relatively recently become pressing concerns for sustained scholarly interrogation such as ecology, cross-species interaction, and humoral theory. Some contributions, informed by increasingly sophisticated approaches to the material conditions and embodied experience of theatrical practice, speak to a resurgence of interest in performance from Shakespeare's period through the first decades of the twenty-first century. Others still investigate distinct sets of plays from unexpected and often polemical angles, noting connections between the comedies under inventive, unpredicted banners such as the theology of adultery, early modern pedagogy, global exploration, or monarchical rule. All the chapters offer contemporary perspectives on the plays, even as they gesture to critical traditions and they illuminate as well as challenge some of our most cherished expectations about the ways in which Shakespearean comedy affects its audiences. The Handbook situates these approaches against the long history of criticism and provides a valuable overview of the most up-to-date work in the field.

Situating Opera Herbert

Lindenberger, 2010-10-28. Setting opera within a variety of contexts: social, aesthetic, historical. Lindenberger illuminates a form that has persisted in recognizable shape for over four centuries. The study examines the social entanglements of opera, for example, the relation of Mozart's *Abduction from the Seraglio* and Verdi's *Il trovatore* to its initial and later audiences. It shows how modernist opera rethought the nature of theatricality and often challenged its viewers by means of both musical and theatrical shock effects. Using recent experiments in neuroscience, the book demonstrates how different operatic forms developed at different periods to create new ways of exciting a public. Lindenberger considers selected moments of operatic history from Monteverdi's *Orfeo* to the present to study how the form has communicated with its diverse audiences. Of interest to scholars and operagoers alike, this book advocates and exemplifies opera studies as an active, emerging area of interdisciplinary study.

Reading the Renaissance (Routledge Revivals) Jonathan Hart, 2014-10-14. *Reading the Renaissance*, first published in 1996, is a collection of essays discussing the literature, drama, poetics, and culture of the Renaissance period. The Renaissance, which extends from about 1300 to 1700 depending on the country, was originally a rebirth of the arts but has also come to apply to the wider cultural change in the face of modernization. The essays represent a plural Renaissance and explore the boundaries between genre and gender, languages and literatures, reading and criticism, the Renaissance and the medieval, the early modern, and the postmodern world, and theatre. There is also a plurality of methods that is fitting for the variety of topics and the richness of the Renaissance. This book is ideal for students of literature and theatre studies.

Ariosto and Boiardo Peter V. Marinelli, 1987. Ludovico Ariosto's *Orlando Furioso*, the first of the vernacular epics of the Renaissance, has long been considered a literary landmark. This comparative study of Boiardo's

Orlando Innamorato and Ariosto's Furioso reinterprets the relationship between these works on a more comprehensive scale than has previously been attempted *Creating the "Divine" Artist: From Dante to Michelangelo* Patricia Emison, 2004-05-01 Turning a skeptical eye on the idea that Renaissance artists were widely believed to be as utterly admirable as Vasari claimed this book reopens the question of why artists were praised and by whom and specifically why the language of divinity was invoked a practice the ancients did not license The epithet divino is examined in the context of claims to liberal arts status and to analogy with poets musicians and other uomini famosi The reputations of Michelangelo and Brunelleschi are compared not only with each other but with those of Dante and Ariosto of Aretino and of the ubiquitous beloved of the sonnet tradition Nineteenth century reformulations of the idea of Renaissance artistic divinity are treated in the epilogue and twentieth century treatments of the idea of artistic ingegno in an appendix *Reading the Renaissance* Jonathan Hart, 2019-06-04 Approaching the Renaissance from many perspectives historicism genre studies close reading anthropology feminism new historicism cultural materialism and postmodernism these original essays explore the boundaries between genre and gender languages and literatures reading and criticism the Renaissance and the Middle Ages the early modern and the post modern world and theater They offer a new way of looking at the Renaissance and at literature and history generally through the lens of cultural pluralism which reflects the changing nature of Western society The collection reveals that the study of literature should take into account its cultural context and that it is enriched by an examination of other literatures Cassell Dictionary Italian Literature Peter Bondanella, Julia Conway Bondanella, Jody Robin Shiffman, 2001-01-01 **Literary Names** Alastair Fowler, 2012-09-06 Why do authors use pseudonyms and pen names or ingeniously hide names in their work with acrostics and anagrams How has the range of permissible given names changed and how is this reflected in literature Why do some characters remain mysteriously nameless In this rich and learned book Alastair Fowler explores the use of names in literature of all periods primarily English but also Latin Greek French and Italian casting an unusual and rewarding light on the work of literature itself He traces the history of names through Homer Spenser Shakespeare Milton Thackeray Dickens Joyce and Nabokov showing how names often turn out to be the thematic focus Fowler shows that the associations of names at first limited become increasingly salient and sophisticated as literature itself develops **The Work of Form** Elizabeth Scott-Baumann, Ben Burton, 2014 The Work of Form investigates ways of reading early modern poetry which unite historical and formal approaches Essays explore a wide range of meanings of form drawing on early modern literary theory as well as practice to expand definitions and understandings of early modern poetic form As You Like It: The Oxford Shakespeare William Shakespeare, 2008-05-08 As You Like It is Shakespeare's most light hearted comedy and its witty heroine Rosalind has his longest female role In this edition Alan Brissenden reassesses both its textual and performance history showing how interpretations have changed since the first recorded production in 1740 He examines Shakespeare's sources and elucidates the central themes of love pastoral and doubleness Detailed annotations

investigate the allusive and often bawdy language enabling student actor and director to savour the humour and the seriousness of the play to the full
