Official Gazette Philippines, 1990 *New Philosophy of God* Sean Wilson, 2025-02-06 This is a multidisciplinary work involving the fields of philosophy history religious studies medical science and politics It provides new thinking in the philosophy of God Building upon key insights from Paul Tillich Ludwig Wittgenstein and John Shelby Spong the work shows why the idea of God remains rational in our current age The book addresses nagging problems such as why God or devils never honestly appear in life why horrible evils afflict our existence and what a soul might be The book also offers a sober reimagination of the Christian memory Using a unique method of investigation it shows that the ethical teachings of Jesus are academically novel and represent a compelling account of how humans of any persuasion should treat one another and that the point is not to idolize any person or event in human history as a litmus Most importantly the book replaces the troubling aristocratic story arc in high Christology that sees God having a son resulting in a three person trinity with a new solution that utilizes the tools of philosophy of mind **To Crown the Year** Peter Mazar , 2014-12 This comprehensive guide to
