Crime and Punishment in Early Modern Germany Maria R. Boes, 2016-05-13 Frankfurt am Main in common with other imperial German cities enjoyed a large degree of legal autonomy during the early modern period and produced a unique and rich body of criminal archives In particular Frankfurt's *Strafenbuch* which records all criminal sentences between 1562 and 1696 provides a fascinating insight into contemporary penal trends Drawing on this and other rich resources Dr Boes reveals shifting and fluid attitudes towards crime and punishment and how these were conditioned by issues of gender class and social standing within the city's establishment She attributes a significant role in this process to the steady proliferation of municipal advocates jurists trained in Roman Law who wielded growing legal and penal prerogatives Over the course of the book it is demonstrated how the courts took an increasingly hard line with select groups of people accused of criminal behavior and the open manner with which advocates exercised cultural religious racial gender and sexual orientation repressions Parallel with this however is identified a trend of marked leniency towards soldiers who enjoyed an increasingly

privileged place within the judicial system In light of this discrepancy between the treatment of civilians and soldiers the advocates actions highlight the emergence and spread of a distinct military judicial culture and Frankfurt s city council s contribution to the quasi militarization of a civilian court By highlighting the polarized and changing ways the courts dealt with civilian and military criminals a fuller picture is presented not just of Frankfurt s sentencing and penal practices but of broader attitudes within early modern Germany to issues of social position and cultural identity The English and Their Legacy, 900-1200 David Roffe,2012 The dynamics of medieval societies in England and beyond form the focus of these essays on the Anglo Norman world Over the last fifty years Ann Williams has transformed our understanding of Anglo Saxon and Norman society in her studies of personalities and elites In this collection leading scholars in the field revisit themes that have been central to her work and open up new insights into the workings of the multi cultural communities of the realm of England in the early Middle Ages There are detailed discussions of local and regional elites and the interplay between them that fashioned the distinctive institutions of local government in the pre Conquest period radical new readings of key events such as the crisis of 1051 and a reassessment of the Bayeux Tapestry as the beginnings of the *Historia Anglorum* studies of the impact of the Norman Conquest and the survival of the English and explorations of the social political and administrative cultures in post Conquest England and Normandy The individual essays are united overall by the articulation of the local regional and national identities that shaped the societies of the period Contributors S D Church William Aird Lucy Marten Hirokazu Tsurushima Valentine Fallan Judith Everard Vanessa King Pamela Taylor Charles Insley Simon Keynes Sally Harvey K S B Keats Rohan David Bates Emma Mason David Roffe Mark Hagger *Place-names, Language and the Anglo-Saxon Landscape* N. J. Higham, Martin J. Ryan,2011 The essays in this volume explore the richness of the interactions between the Anglo Saxons and their landscape how they understood described and exploited the environments of which they were a part Subjects explored include the history of the study of place names and the Anglo Saxon landscape **Journal** English Place-Name Society,2004 Vols for 1968 68 include the Society s Annual report 45th *Heathland* Clive Chatters,2021-03-04 In Clive we have an ever fascinating guide to Britain s heathery districts not only marvelling at the wildlife of such wild places but also celebrating their diverse origins uses and cultural resonances Andrew Byfield Heathlands are so much more than simply purple carpets of heather They are ancient landscapes found throughout Britain that support a complex of inter related species and an immense diversity of habitats They also possess a unique human history defined by the struggle between pastoralism and the competing demands of those who seek exclusive use of the land In this latest addition to the British Wildlife Collection Clive Chatters introduces us to Britain s heathlands and their anatomy He then takes the reader on a geographical heathland tour from the maritime sub arctic of the Shetlands to the mild wetness of the Atlantic coast with an in memoriam nod to those heaths that have been erased from common memory and understanding He concludes with a review of how people have perceived and used heathland wildlife over the ages and sets out a future vision

for this iconic landscape its unique habitats and the species that live there Most of our heaths are pale shadows of their former selves However Chatters argues it is not inevitable that the catastrophic losses of the recent past are the destiny of our remaining heaths Should we wish their place in the countryside as an integral part of British culture can be secured

Medieval Society and the Manor Court Zvi Razi,Richard Michael Smith,1996 The records of manorial courts have been used increasingly as the principal source for the reconstruction of rural and small town society in medieval England They offer a unique source with which to investigate peasant demography family patterns the village community and economy the characteristics and instruments of customary law and the ways in which that law was perceived and exploited by landlords and tenants The essays in this collection provide novel approaches to all of these themes and are written by many of the historians who have pioneered the use of this source category in the last two decades In two introductory chapters the editors review the historiography of manorial court rolls and account for their origins as a distinctive record of customary law within the broad context of medieval European society A valuable appendix contains an inventory of the most comprehensive unprinted manorial court roll series arranged systematically on a county to county basis detailing the repository in which they are located This book will serve as an essential reference tool for any serious study of medieval English rural society **The North Through Its Names** David Postles,2007 The personal names from the north during the medieval early modern period are linguistic phenomena incorporating dialect speech that defined a northern consciousness and in this way are an invaluable resource in exploring a northern identity The author attempts to reconstruct the language of speech community and communities of northern England through the reporting and recording of personal name elements examining the evidence from patronyms metronyms and personal names as well as occupational bynames and even nicknames **Essays in Derbyshire History** Gladwyn Turbutt,2006 The Local Historian ,2003 **Nomina** ,2005
