**Namibia** United Nations Institute for Namibia,1986      **Namibia** ,1986      *Namibia perspectives for National Reconstruction and Development* Naciones Unidas. Institute for Namibia,      Namibia's Independence Struggle Cleophas Johannes Tsokodayi,2011-01-01      Understanding Namibia Henning Melber,2015-01-04 Since independence in 1990 Namibia has witnessed only one generation with no memory of colonialism the born frees who voted in the 2009 elections The anti colonial liberation movement SWAPO dominates the political scene effectively making Namibia a de facto one party state dominated by the first struggle generation While those in power declare their support for a free fair and just society the limits to liberation are such that emancipation from foreign rule has only been partially achieved Despite its natural resources Namibia is among the world s most unequal societies and indicators of wellbeing have not markedly improved for many among the former colonized majority despite a constitution enshrining human rights social equality and individual liberty This book analyses the transformation of Namibian society since Independence Melber explores the achievements and failures and contrasts the narrative of a post colonial patriotic history with the socio economic and political realities of the nation building project He also investigates whether notwithstanding the relative stability prevailing to date the negotiation of controlled change during Namibia s decolonization could have achieved more than simply a change of those in control

**The Gender Politics of the Namibian Liberation Struggle** Martha Akawa,2014 Women s contributions against apartheid under the auspices of the Namibian liberation movement SWAPO and their personal experiences in exile take center stage in this study Male and female leadership structures in exile are analysed whilst the sexual politics in the refugee camps and the public imagery of female representation in SWAPO s nationalism receive special attention The party s public pronouncements of women empowerment and gender equality are compared to the actual implementations of gender politics during and after the liberation struggle      Southern African Liberation Movements and the Global Cold War 'East' Lena Dallywater,Chris Saunders,Helder Adegar Fonseca,2019-06-17 In the global context of the Cold War the relationship between liberation movements and Eastern European states obviously changed and transformed Similarly forms of material aid and ideological encouragement underwent changes over time The articles assembled in this volume argue that the traditional Cold War geography of bi polar competition with the United States is not sufficient to fully grasp these transformations The question of which side of the ideological divide was more successful or lucky in impacting actors and societies in the global south is still relevant yet the Cold War perspective falls short in unfolding the complex geographies of connections and the multipolarity of actions and transactions that exists until today Acknowledging the complexities of liberation movements in globalization processes the papers thus argue that activities need to be understood in their local context including personal agendas and internal conflicts rather than relying primarily on the traditional frame of Cold War competition They point to the agency of individual activists in both Africa and Eastern Europe and the lessons practices and

languages that were derived from their often contradictory encounters In Southern African Liberation Movements authors from South Africa Portugal Austria and Germany ask What role did actors in both Southern Africa and Eastern Europe play What can we learn by looking at biographies in a time of increasing racial and international conflict And which creative solutions need to be found to combine efforts of actors from various ideological camps Building on archival sources from various regions in different languages case studies presented in the edition try to encounter the lack of a coherent state of the art They aim at combining the sometimes scarce sources with qualitative interviews to give answers to the many open questions regarding Southern African liberation movements and their connections to the East

**Economy-Environment-Development-Knowledge** Ken Cole,2002-01-04 As we approach the end of the second millennium we find ourselves in times of radical social change Orthodox explanations of the economy the environment and the development process are unable to provide coherent policies for such issues as employment creation environmental degradation and social progress Economy Environment Development Knowledge provides alternative perspectives on these fundamental aspects of human existence Economists environmentalists and development theorists have so far been unable to agree on the most successful prescriptions to address problems To understand contrast and compare alternative understandings of economic environmental and development issues we need to be aware why theorists conceptualise the process of social experience so differently Part 1 of Economy Environment Development Knowledge addresses the subjective preference cost of production and abstract labour theories of values in economics Part 2 explains egocentrism ecocentrism and socioecocentrism as competing theoretical perspectives in environmental theory Part 3 highlights modernisation theory structuralist theory and class struggle as ways to account for the process of development and Part 4 examines the generation of knowledge through positivism paradigms and praxis legitimating competing perspectives in economics environmentalist and development The book concludes by considering why different people find alternative explanations more or less plausible By addressing the disagreements between theorists Economy Environment Development Knowledge provides a unique basis to contrast and compare the plethora of theories of and policies for economic prosperity environmental sustainability and social progress

emerging variety of World Englishes      **The Excluded Past** Robert MacKenzie, Peter Stone, 2013-10-23 A ground breaking book that examines the uneasy relationship between archaeology and education Argues that archaeologists have a vital role to play in education alongside other interpreters of the past Contributors from different countries and disciplines show how the exclusion of aspects of the past tends to impoverish and distort social and educational experience      **Southern African Development Community Land Issues** Ben Chigara, 2013-03 This book constitutes volume one of a two volume examination of development community land issues in Southern Africa In this volume Ben Chigara undertakes a holistic interdisciplinary evaluation of the legitimacy of colonial and emergent post colonial rule property rights in affected States of the Southern African Development Community SADC It particularly focuses on intensifying litigation in national courts the SADC Tribunal and more recently the Washington based International Centre for the Settlement of Investment Disputes ICSID regarding counter claims to title to property The book examines cultural economic and political drivers at the core of SADC land issues focusing on their significance and potential to contribute to the discovery of a new sustainable land relations policy that guarantees social justice in the distribution of all the advantages and disadvantages relating to the allocation and use of land Chigara shows that persistent systematic administrative failures by pre colonial colonial and post colonial authorities have made for a very complex challenge that requires Solomonic tools that neither the Courts alone nor human rights centric morality alone could resolutely attend The book recommends a sophisticated systematic new approach to SADC land issues which is developed in volume two *Re conceiving Property Rights in the New Millennium* This book will be of great interest to students and researchers of Property and Conveyancing Law Human Rights Law and Land Law      *The Political Economy of Namibia* Tore Linné Eriksen, Richard Moorsom, 1989 Research institutes and documentation centres      **Voting for Democracy** John Daniel, Roger Southall, 2019-07-09 First published in 1999 the essays in this book examine the context and conduct of a series of watershed elections held in Anglophone Africa in the first half of the 1990s These elections crystallized a wider process of democratization underway in much of sub Saharan Africa during the last decade in which attempts were made to shift from various forms of authoritarian rule colonial or racial oligarchies military regimes one party states or presidential rule to pluralist parliamentary politics This volume brings together for the first time studies of these events in countries sharing a comparable legacy of British colonialism an acquaintance with the Westminster constitutional tradition and related experiences of decolonization and democratic struggle Written from a variety of perspectives by contributors with first hand knowledge and long experience of research in Africa the papers situate each election in its wider political context examining the political forces at work and the events which gave rise to reform All indicate that despite Western pressure for reform and the influence of the collapse of the Soviet Bloc in Eastern Europe internal African demands for democracy provided the primary driving force for change Not all the elections fulfilled the hopes invested in them In Nigeria they were annulled before all the votes had been counted In Kenya the disarray of the opposition ensured the return

to power of the old order Even where they produced a successful regime transition the democratic credentials of the new governments were sometimes seriously flawed Yet for all these limitations these watershed elections signalled important progress for African democracy They brought a formal end to colonial rule in Namibia and to three centuries of racial discrimination in South Africa They brought changes of government through the ballot box in Zambia and Malawi among the first instances in Africa of such change being accomplished without the use of force Above all they provided African electorates with an opportunity to pass judgement on long serving authoritarian regimes with unequivocal results in every case when given the chance to vote Africans voted for democracy *Space is the Ultimate Luxury* Bernard Moore, Luregn Lenggenhager, 2025-04-03 The Open Access publication of this book has been published with the support of the Swiss National Science Foundation This book explores the history ecology and society of a seemingly inhospitable stretch of land along the Orange River in southern Namibia Here a group of African farmers have succeeded against all odds to stay on their ancestral homeland through decades of colonialism and apartheid The twenty first century however has brought different people looking to evict them nature conservationists These farmers face off against billionaire gemstone mine owners rhinoceros veterinarians and carbon finance executives seeking to prove their legal and moral claims to their ancestral lands This book reveals how we got here and what is at stake if they fail Governments-in-Exile in Contemporary World Politics Yossi Shain, 2024-11-01 Exiled governments play a crucial role in long standing national conflicts around the world They have an enormous impact on transnational politics and the world order First published in 1991 *Governments in Exile in Contemporary World Politics* examines the odd but pivotal place that governments in exile have in international politics In a variety of case studies and theoretical essays by eminent scholars this volume deals with many volatile and news making national situations in Palestine Afghanistan Iran southwest Africa Cambodia Armenia Ireland among others that span a range of geopolitical regions It addresses diverse issues that are central to political science such as the limits of sovereignty the role of host states the elusive nature of representation in the absence of effective control over a home territory international legitimation and recognition governments in exile as political tools in the hands of their foreign patrons and the actual and symbolic importance of governments in exile in the preservation of diasporic nations and cultures The book fills a unique place in the literature on international politics by covering and comparing a truly international range of cases of governments in exile **Land Tenure, Housing Rights and Gender in Mozambique** ,2005 **Quality Teaching and Learning** Wendy Crebbin, 2004 This book provides a comprehensive analysis and critique of many key issues being addressed in schools and school systems in a variety of countries Using the postmodern approach of recognizing multiple meanings and interpretations *Quality Teaching and Learning* provides readers with a framework in which they can examine some of the commonsense reasoning behind many school practices and teaching and learning approaches Working from these understandings readers are enabled to look beyond current orthodoxies and recognize the advantages and disadvantages

along with many of the contradictions that exist within and between the multiple expectations being placed on schools

**Swapo's Struggle for Namibia, 1960-1991** Lauren Dobell,1998      **The UN Security Council and Informal Groups of States** Jochen Prantl,2006-04-27 This work offers the first comparative treatment of the roles of informal ad hoc groupings of states such as Groups of Friends or G 8 within selected conflict settings and their effects on the practices of the UN Security Council This pivotal work draws on both case study analysis and archival sources      **The Challenge of African Economic Recovery and Development** Adebayo Adedeji,Patrick Bugembe,O.
