literary history by fiction poetry and drama and has proved notoriously resistant to definition On Essays reveals in the essay a pattern of paradox at once a pedagogical tool and a refusal of the methodical languages of universities and professions politically engaged but retired and independent erudite and anti pedantic occasional and enduring intimate and oratorical allusive and idiosyncratic Perhaps because it is a form of writing against which literary scholarship has defined itself there has been surprisingly little work on the tradition of the essay Neither a comprehensive history nor a student companion On Essays is a series of seventeen elegantly written essays on authors and aspects in the history of the genre essays which taken together form the most substantial book yet published on the essay in Britain and America *The Cumulative Book Index* ,1905 A world list of books in the English language **Torch and Colonial Book Circular** ,1889 *Twentieth Century* ,1889 *Life, Sex and Ideas* A.
