Naming The Witch:

Naming the Witch James T. Siegel, 2006 *Naming the Witch* explores the recent series of witchcraft accusations and killings in East Java which spread as the Suharto regime slipped into crisis and then fell After many years of ethnographic work focusing on the origins and nature of violence in Indonesia Siegel came to the conclusion that previous anthropological explanations of witchcraft and magic mostly based on sociological conceptions but also including the work of E E Evans Pritchard and Claude Lévi Strauss were simply inadequate to the task of providing a full understanding of the phenomena associated with sorcery and particularly with the ideas of power connected with it Previous explanations have tended to see witchcraft in simple opposition to modernism and modernity enchantment vs disenchantment The author sees witchcraft as an effect of culture when the latter is incapable of dealing with accident death and the fear of the disintegration of social and political relations He shows how and why modernization and witchcraft can often be companions as people strive to name what has hitherto been unnameable

Naming the Witch James T. Siegel, 2006 *Naming the Witch* Stratton, Kimberly B., 2007 *Naming the Witch* Kimberly B. Stratton, 2022-05-03 Kimberly B Stratton investigates the cultural and ideological motivations behind early imaginings of the magician the sorceress and the witch in the ancient world Accusations of magic could carry the death penalty or at the very least marginalize the person or group they targeted But Stratton moves beyond the popular view of these accusations as mere slander In her view representations and accusations of sorcery mirror the complex struggle of ancient societies to define authority legitimacy and Otherness Stratton argues that the concept magic first emerged as a discourse in ancient Athens where it operated part and parcel of the struggle to define Greek identity in opposition to the uncivilized barbarian following the Persian Wars The idea of magic then spread throughout the Hellenized world and Rome reflecting and adapting to political forces values and social concerns in each society Stratton considers the portrayal of witches and magicians in the literature of four related periods and cultures classical Athens early imperial Rome pre Constantine Christianity and rabbinic Judaism She compares patterns in their representations of magic and analyzes the relationship between these stereotypes and the social factors that shaped them Stratton's comparative approach illuminates the degree to which magic was and still is a cultural construct that depended upon and reflected particular social contexts Unlike most previous studies of magic which treated the classical world separately from antique Judaism *Naming the Witch* highlights the degree to which these ancient cultures shared ideas about power and legitimate authority even while constructing and deploying those ideas in different ways The book also interrogates the common association of women with magic denaturalizing the gendered stereotype in the process Drawing on Michel Foucault's notion of discourse as well as the work of other contemporary theorists such as Homi K Bhabha and Bruce Lincoln Stratton's bewitching study presents a more nuanced ideologically sensitive approach to understanding the witch in Western history

The Witch Ronald Hutton, 2017-01-01 This book sets the notorious European witch trials in the widest and deepest possible perspective and

traces the major historiographical developments of witchcraft Untimely Sacrifices Daena Aki Funahashi,2023-04-15
Untimely Sacrifices questions why individuals may give their time and energy to the collective against their own self interest
Turning to Finland where public health officials named occupational burnout as a new hazard of the new economy Daena
Funahashi asks What moves people to work to the point of pathological stress Contrary to health experts who highlight the
importance of self management and energetic conservation Funahashi questions the very economic premise of cognitive
psychology that one could economize one s energy and thus save oneself By pitting anthropological takes on sacrifice next to
the clinical discourses on pressure work and coping Funahashi offers ways to rethink what drives stress Untimely Sacrifices
also provides a compelling critique of state welfare and political economy contesting the tendency to treat the gift economy
as something separate from the force that makes redistributive mechanisms of state welfare work It is a book essential to
those interested in how forces unassimilable to conventional economy come to matter in issues of labor stress and welfare

work shows how to obtain a familiar and work with one and it also provides cautions and remedies for any problems that may
occur in this magical partnership *Daughters of Hecate* Kimberly B. Stratton,Dayna S. Kalleres,2014-10-01 Daughters of
Hecate unites for the first time research on the problem of gender and magic in three ancient Mediterranean societies early
Judaism Christianity and Graeco Roman culture The book illuminates the gendering of ancient magic by approaching the
topic from three distinct disciplinary perspectives literary stereotyping the social application of magic discourse and material
culture The authors probe the foundations of processes and motivations behind gendered stereotypes beginning with
Western culture s earliest associations of women and magic in the Bible and Homer s Odyssey Daughters of Hecate provides
a nuanced exploration of the topic while avoiding reductive approaches In fact the essays in this volume uncover complexities
and counter discourses that challenge rather than reaffirm many gendered stereotypes taken for granted and reified by most
modern scholarship By combining critical theoretical methods with research into literary and material evidence Daughters of

Hecate interrogates a false association that has persisted from antiquity to early modern witch hunts to the present day

The Empty Seashell Nils Bubandt, 2015-05-06
The Empty Seashell explores what it is like to live in a world where cannibal witches are undeniably real yet too ephemeral and contradictory to be an object of belief In a book based on more than three years of fieldwork between 1991 and 2011 Nils Bubandt argues that cannibal witches for people in the coastal and predominantly Christian community of Buli in the Indonesian province of North Maluku are both corporeally real and fundamentally unknowable Witches known as *gua* in the Buli language or as *suanggi* in regional Malay appear to be ordinary humans but sometimes especially at night they take other forms and attack people in order to kill them and eat their livers They are seemingly everywhere and nowhere at the same time The reality of *gua* therefore can never be pinned down The title of the book comes from the empty nautilus shells that regularly drift ashore around Buli village Convention has it that if you find a live nautilus you are a *gua* Like the empty shells witchcraft always seems to recede from experience Bubandt begins the book by recounting his own confusion and frustration in coming to terms with the contradictory and inaccessible nature of witchcraft realities in Buli A detailed ethnography of the encompassing inaccessibility of Buli witchcraft leads him to the conclusion that much of the

anthropological literature which views witchcraft as a system of beliefs with genuine explanatory power is off the mark. Witchcraft for the Buli people doesn't explain anything. In fact, it does the opposite: it confuses, obfuscates, and frustrates. Drawing upon Jacques Derrida's concept of aporia, an interminable experience that remains continuously in doubt, Bubandt suggests the need to take seriously people's experiential and epistemological doubts about witchcraft and outlines by extension a novel way of thinking about witchcraft and its relation to modernity. *A Witch's 10 Commandments* Marian Singer, 2006-05-30. A Simon Schuster eBook. Simon Schuster has a great book for every reader. *Making Amulets Christian* Theodore de Bruyn, 2018-01-26. *Making Amulets Christian* Artefacts, Scribes, and Contexts examines Greek amulets with Christian elements from late antique Egypt in order to discern the processes whereby a customary practice, the writing of incantations on amulets, changed in an increasingly Christian context. It considers how the formulation of incantations and amulets changed as the Christian church became the prevailing religious institution in Egypt in the last centuries of the Roman empire. Theodore de Bruyn investigates what we can learn from incantations and amulets containing Christian elements about the cultural and social location of the people who wrote them. He shows how incantations and amulets were indebted to rituals or ritualizing behaviour of Christians. This study analyzes different types of amulets and the ways in which they incorporate Christian elements. By comparing the formulation and writing of individual amulets that are similar to one another, one can observe differences in the culture of the scribes of these materials. It argues for conditioned individuality in the production of amulets. On the one hand, amulets manifest qualities that reflect the training and culture of the individual writer. On the other hand, amulets reveal that individual writers were shaped, whether consciously or inadvertently, by the resources they drew upon, by what is called tradition in the field of religious studies. *Witch Camps and Witchcraft Discourse in Africa* Matthew Gmalifo Mabefam, 2023-09-18. *Witch Camps and Witchcraft Discourse in Africa* Critiquing Development Practices explores how local development interventions related to witchcraft in Africa intersect and conflict with globally accepted development practices. This book argues that development practitioners need to pay attention to what concepts like witchcraft and occult mean to local people and provides a nuanced account of how different development actors conceptualize and approach development in Africa through communities of refuge. Matthew Mabefam invites development practitioners to be open to culturally sensitive solutions to social inequalities rather than dismissing them and acting in ways that may further aggravate the challenges faced by individuals accused of witchcraft. The foundational knowledge for the book is derived from ongoing ethnographic fieldwork in Gnani in Northern Ghana, a rural community that provides refuge for people who have been banished from their communities and is deeply informed by the author's experiences of growing up and working within refuge communities in Ghana. This book contributes to the decolonization of development epistemes, knowledge, and practices and contributes to a better understanding of the limits of the neo-liberal paradigm of socio-economic development that has dominated the direction of development policy.
