Cities of Jiangnan in Late Imperial China Linda Cooke Johnson,1993-01-01 This book examines cities of the Jiangnan region of south central China between the twelfth and nineteenth centuries an area considered to be the model of a successfully developing regional economy The six studies focus on the urban centers of Suzhou Hangzhou Yangzhou and Shanghai Emphasizing the regional focus the authors explore the interconnections and sequential relationships between these major cities and analyze common themes such as the development of handicraft industry transport and commerce class structure ethnic diversity and internal immigration and the social and political pressures generated by developments in manufacturing taxes and government politics The book provides a valuable resource on commercial development and internal economic and social development in pre modern China particularly on specific regional development and the historical role of traditional Chinese cities **Printing and Book Culture in Late Imperial China** Cynthia J.

Brokaw,Kai-Wing Chow,2005-03-07 Despite the importance of books and the written word in Chinese society the history of the book in China is a topic that has been little explored This pioneering volume of essays written by historians art historians and literary scholars introduces the major issues in the social and cultural history of the book in late imperial China Informed by many insights from the rich literature on the history of the Western book these essays investigate the relationship between the manuscript and print culture the emergence of urban and rural publishing centers the expanding audience for books the development of niche markets and specialized publishing of fiction drama non Han texts and genealogies and more

Copper Coins and the Emperor's Wallet: The Role of Currency in Ming China Sui-Wai Cheung,2023-10-20 Sui Wai Cheung s study of the institutional history of copper coins in the Ming dynasty reveals how emperors and statesmen perceived and used the copper coins at their disposal In this process he uncovers the reality of the Sons of Heaven showing that although Ming emperors seemed to have unlimited power they could not afford the upkeep on their palace In this revealing history of Ming China Cheung argues that especially after the breakdown of the household registration system the aim of the Ming coinage system was to create a new source of income in order to maintain the emperor s domain in Beijing

Modern China's Network Revolution Zhongping Chen,2011-06-27 Chambers of commerce developed in China as a key part of its sociopolitical changes In 1902 the first Chinese chamber of commerce appeared in Shanghai By the time the Qing dynasty ended over 1 000 general chambers affiliated chambers and branch chambers had been established throughout China In this new work author Zhongping Chen examines Chinese chambers of commerce and their network development across Lower Yangzi cities and towns as well as the nationwide arena He details how they achieved increasing integration and how their collective actions deeply influenced nationalistic reformist and revolutionary movements His use of network analysis reveals how these chambers promoted social integration beyond the bourgeoisie and other elites and helped bring

society and the state into broader and more complicated interactions than existing theories of civil society and public sphere suggest. With both historical narrative and theoretical analysis of the long neglected local chamber networks, this study offers a keen historical understanding of the interaction of Chinese society, business, and politics in the early twentieth century. It also provides new knowledge produced from network theory within the humanities and social sciences.

The Destruction of the Medieval Chinese Aristocracy Nicolas Tackett, 2020-10-26. Historians have long been perplexed by the complete disappearance of the medieval Chinese aristocracy by the tenth century, the great clans that had dominated China for centuries. In this book, Nicolas Tackett resolves the enigma of their disappearance using new digital methodologies to analyze a dazzling array of sources. Tackett systematically mines thousands of funerary biographies excavated in recent decades, most of them never before examined by scholars, while taking full advantage of the explanatory power of Geographic Information System (GIS) methods and social network analysis. Tackett supplements these analyses with extensive anecdotes culled from epitaphs, prose literature, and poetry, bringing to life women and men who lived a millennium in the past. The Destruction of the Medieval Chinese Aristocracy demonstrates that the great Tang aristocratic families adapted to the social, economic, and institutional transformations of the seventh and eighth centuries far more successfully than previously believed. Their political influence collapsed only after a large number were killed during three decades of extreme violence following Huang Chao's sack of the capital cities in 880 CE. 2015 James Breasted Prize, American Historical Association.

Perpetual Happiness Shih-shan Henry Tsai, 2011-07-01. The reign of Emperor Yongle, or Perpetual Happiness, was one of the most dramatic and significant in Chinese history. It began with civil war and a bloody coup, saw the construction of the Forbidden City, the completion of the Grand Canal, consolidation of the imperial bureaucracy, and expansion of China's territory into Mongolia, Manchuria, and Vietnam. Beginning with an hour-by-hour account of one day in Yongle's court, Shih-shan Henry Tsai presents the multiple dimensions of the life of Yongle (Zhu Di, 1360-1424) in fascinating detail. Tsai examines the role of birth, education, and tradition in molding the emperor's personality and values, and paints a rich portrait of a man characterized by stark contrasts. Synthesizing primary and secondary source materials, he has crafted a colorful biography of the most renowned of the Ming emperors.

A History of the Chinese Language Hongyuan Dong, 2020-12-31. A History of the Chinese Language provides a comprehensive introduction to the historical development of the Chinese language from its Proto-Sino-Tibetan roots in prehistoric times to Modern Standard Chinese. Beede, 1994-05 A fascinating encyclopedic survey of the Spanish Cuban American War the Philippine War and the small wars between 1899 and the end of the occupation of Haiti in 1934 The name changes themselves are instructive The usage of Spanish American War ignores the fact that the war in Cuba had been la

Remaking the Chinese City Joseph W. Esherick, 2001-10-31 In China today skyscrapers tower over ancient temples freeways deliver lines of cars and tour buses to imperial palaces cinema houses compete with old theaters featuring Peking Opera The disparity evidenced in the contemporary Chinese cityscape can be traced to the early decades of the twentieth century when government elites sought to transform cities into a new world that would be at once modern and distinctly Chinese Remaking the Chinese City aims to capture the full diversity of recent Chinese urbanism by examining the modernist transformations of China's cities in the first half of the twentieth century Collecting in one place some of the most interesting and exciting new work on Chinese urban history this volume presents thirteen essays discussing ten Chinese cities the commercial and industrial center of Shanghai the old capital Beijing the southern coastal city of Canton the interior's Chengdu the tourist city of Hangzhou the utopian New Capital built in Manchuria during the Japanese occupation the treaty port of Tianjin the Nationalists capital in Nanjing and temporary wartime capitals of Wuhan and Chongqing Unlike past treatments of early twentieth century China which characterize the period as one of failure and decay the contributors to this volume describe an exciting world in constant and fundamental change During this time the Chinese city was remade to accommodate parks and police paved roads and public spaces Rickshaws trolleys and buses allowed the growth of new downtowns Department stores theaters newspapers and modern advertising nourished a new urban identity Sanitary regulations and traffic laws were enforced and modern media and transport permitted unprecedented freedoms Yet despite their fondness for things Western and modern early urban planners envisioned cities that would lead the Chinese nation and preserve Chinese tradition The very desire for modernity led to the construction of a visible and accessible national past and the imagining of a distinctive national future In their investigation of the national capitals of the period the essays show how cities were reshaped to represent and serve the nation To promote tourism traditions were invented and recycled for the pleasure and edification of new middle class and foreign consumers of culture Abundantly illustrated with maps and photographs Remaking the Chinese City presents the best and most current scholarship on modern Chinese cities Its
