Edward Hutton

Naples And Campani:

Naples and Campania Revisited Edward Hutton, 1958 Leisurely and scholarly exploration of the Campanian countryside its provincial cities and its famous capital Naples **The Etruscans Outside Etruria** Paolo Bernardini, 2004 During the last millennium B C before the coming of the Romans the Etruscans built a thriving civilization in the western Mediterranean basin which was rich in natural resources From the eighth century B C Etruria became a destination on the Italian peninsula for refined works by artisans of the Hellenic regions the Near East and central Europe and for masters from these regions who emigrated and began to work for the local clientele These artisans would contribute significantly to the development of an art that was recognizably Etruscan The influence of Etruscan civilization on other cultures has received less attention from archaeologists than has the effect of the Eastern and Greek worlds on Etruscan culture This lavishly illustrated volume seeks to redress this imbalance by tracing the Etruscans impact beyond Etruria It focuses on the panorama of their commerce and the Etruscan ideological and cultural initiatives that radiated from their native territory into other regions Etruscan civilization spread across a surprisingly vast area from ancient Italy out into the Mediterranean basin and continental Europe The book devotes new attention to details that vary from region to region with a number of chapters devoted to regional specialists They offer fresh perspectives on the history art and political organization of a culture that in many ways remains mysterious Naples and Campania: Texts and Illustrations, with Introductions, Bibliography, and Index Alexander G. McKay, Vergilian Society, 1962 Etruscology Alessandro Naso, 2017-09-25 This handbook has two purposes it is intended 1 as a handbook of Etruscology or Etruscan Studies offering a state of the art and comprehensive overview of the history of the discipline and its development and 2 it serves as an authoritative reference work representing the current state of knowledge on Etruscan civilization The organization of the volume reflects this dual purpose The first part of the volume is dedicated to methodology and leading themes in current research organized thematically whereas the second part offers a diachronic account of Etruscan history culture religion art archaeology and social and political relations and structures as well as a systematic treatment of the topography of the Etruscan civilization and sphere of influence

Campania in the Flavian Poetic Imagination Antony Augoustakis, R. Joy Littlewood, 2019-01-17 The region of Campania with its fertility and volcanic landscape exercised great influence over the Roman cultural imagination A hub of activity outside the city of Rome the Bay of Naples was a place of otium leisure and quiet repose and literary productivity and yet also a place of danger the looming Vesuvius inspired both fear and awe in the region's inhabitants while the Phlegraean Fields evoked the story of the gigantomachy and sulphurous lakes invited entry to the Underworld For Flavian writers in particular Campania became a locus for literary activity and geographical disaster when in 79 CE the eruption of the volcano annihilated a great expanse of the region burying under a mass of ash and lava the surrounding cities of Pompeii Herculaneum and Stabiae In the aftermath of such tragedy the writers examined in this volume Martial Silius Italicus Statius

and Valerius Flaccus continued to live work and write about Campania which emerges from their work as an alluring region held in the balance of luxury and peril

The civil history of the kingdom of Naples P. Giannone, **Italy from the Alps to Naples** Karl Baedeker (Firm), 1928 *Letter and Report on the Discoveries at Herculaneum* Johann Joachim Winckelmann, 2011 This new translation brings to light the early days of scientific archaeology and the unearthing and study of Herculaneum and Pompeii as observed by the erudite and acerbic art historian Johann Joachim Winckelmann 1717-1768 His Letter published in German in 1762 displays his extensive knowledge of geology ancient literature and art while offering a scathing critique of the Spanish Bourbon excavations around the Bay of Naples and of the officials involved He further discusses these topics in his equally controversial Report of 1764 The introduction describes the context in which these texts were written identifies various politicians academics and collectors and elucidates topics of particular interest to Winckelmann from artifacts to local customs to the contents of ancient papyri The illustrations particularly those from the Bourbon publication *Le Antichit  di Ercolano* 1757-92 illuminate how these monuments influenced contemporary perception of the ancient world
