The Invisible Emperor Mark Braude, 2018 Part forensic investigation part dramatic jailbreak adventure Mark Braude's The Invisible Emperor is a gripping narrative history of Napoleon Bonaparte's ten month exile on the Mediterranean island of Elba In the spring of 1814 Napoleon Bonaparte was defeated Having overseen an empire spanning half the European continent and governed the lives of some eighty million people he suddenly found himself exiled to Elba less than a hundred square miles of territory This would have been the end of him if Europe's rulers had had their way But soon enough Napoleon imposed his preternatural charisma and historic ambition on both his captors and the very island itself plotting his return to France and to power After ten months of exile he

escaped Elba with just over a thousand supporters in tow landed near Antibes marched to Paris and retook the Tuileries Palace all without firing a shot Not long after tens of thousands of people would die fighting for and against him at Waterloo Braude dramatizes this strange exile and improbable escape in granular detail and with novelistic relish offering sharp new insights into a largely overlooked moment He details a terrific cast of secondary characters including Napoleon's tragically noble official British minder on Elba Neil Campbell forever disgraced for having let Boney slip away and his young second wife Marie Louise who was twenty two to Napoleon's forty four at the time of his abdication What emerges is a surprising new perspective on one of history's most consequential figures which both subverts and celebrates his legendary persona The Invisible Emperor is both a riveting story and an original examination of how preposterous quixotic and grandiose ideas can suddenly leap from the imagination and into reality
