## **Narrating History Developing Doctrine:**

**Narrating History, Developing Doctrine** Bradford E. Hinze, 1993 Bradford E Hinze offers a comprehensive comparative investigation of the theologies of Reformed theologian Friedrich Schleiermacher 1768 1834 and Catholic Johann Sebastian Drey 1777 1853 Although they represented different theological traditions both theologians contributed to the emergence of doctrinal development as a theological principle Particular attention is paid to the effect of metaphor and narrative patterns especially as these informed Schleiermacher's and Drey's understanding of historiography hermeneutics and the tasks of theology The book concludes with a review of specific doctrines the two theologians judged to be in need of criticism reform and development *Hermeneutics of Doctrine in a Learning Church* Gregory A. Ryan, 2020-08-10 In *Hermeneutics of Doctrine in a Learning Church* Gregory A Ryan offers an account of the dynamic multi dimensional task of interpreting Christian tradition He integrates doctrinal hermeneutics the pasteurality of doctrine exemplified by Pope Francis and a systematic appraisal of Receptive Ecumenism to provide an original perspective on this task The book focuses on three contemporary Catholic theologians Francis Schüssler Fiorenza Ormond Rush and Paul D Murray highlighting how each recognises the dynamic interaction of multiple perspectives involved in authentic ecclesial interpretation Christian tradition whether passed on in teaching scripture practices or structures needs to be continually received and interpreted This book offers theologians ecumenists and church workers a fresh model for receptive ecclesial learning in which doctrinal hermeneutics and pastoral realities are dynamically integrated *In Defense of Doctrine* Rhyne R. Putman, 2015 In *Defense of Doctrine* is an apologetic for the ongoing constructive theological task in Protestant and Evangelical traditions It suggests that doctrinal development can be explained as a hermeneutical phenomenon and that insights from hermeneutical philosophy and the philosophy of language can aid theologians in constructing explanatory theses for particular theological problems associated with the facts of doctrinal development Joining the recent call to theological interpretation of Scripture Putman provides a constructive model that forwards a descriptive and normative pattern for reading Scripture and theological tradition together **The Oxford Handbook of Catholic Theology** Lewis Ayres, Medi Ann Volpe, Thomas L. Humphries (Jr.), 2019 This Handbook provides an introduction to all the major aspects of Catholic theology As well as covering basic topics of doctrine and moral theology the book considers some of Catholic theology's most important sources between 200 and 1870 and all the main movements and developments in Catholic theology since 1870 **Christian Community in History** Roger Haight, 2004 E F G H I J K L M N O P Q R S T U V W Y Z **The Christology of John Macquarrie** Vernon L. Purdy, 2009 The Christology of John Macquarrie comprehensively scrutinizes the life and writings of Scottish born systematic theologian and philosopher John Macquarrie 1919 2007 in an attempt to comprehend and evaluate his Christology The author examines the people e.g. Heidegger Schleiermacher the philosophical and theological positions and the writings that formed Macquarrie's thinking One major influence was his commitment to modern critical theology

including the premise that in the modern world the only acceptable Christological tenets are those that can stand up to the scrutiny of modern critical reasoning The work concludes that this commitment profoundly shaped Macquarrie's theology especially his Christology The book also discusses Macquarrie's evaluation and criticisms of the Christology of other theologians e.g. Kierkegaard Moltmann Pannenberg and others concluding that Macquarrie's understanding of the Christian faith and the person of Jesus Christ is consonant with modern liberal Anglo-Catholicism This idea furthers the argument that Macquarrie's reluctance to accept traditional incarnational categories suggests that his Christology is a modern form of Adoptionism

**System and Story** Gale Heide, 2009-01-01 System and Story is intended to develop a means for bridging the gap between critics of system and those who may find value in doing systematics from a Biblically oriented context Narrative theologians have rightly identified and critiqued the development of system in academic theology Unfortunately they have not identified the ways in which systematic elements have always played a role in theological knowledge This study demonstrates the inherent systematic tendencies that still exist in narrative approaches to theology while at the same time acknowledging the appropriateness of aspects of the narrative critique of system The reaction against Enlightenment modernism is examined from the perspective of the heightened role of system in religious epistemology The work of Stanley Hauerwas serves to carry much of the conversation regarding the critique of system and a narrative alternative as it is discovered in communal formation After summarizing Hauerwas's theology if such a thing is possible the final chapters explore the ecclesiological concerns of narrative theologians according to a more systematic rendering of pneumatology A Biblical rendering of pneumatology from the perspective of the Spirit's role in ecclesiology allows for a modest i.e. pre-modern systematic presentation commensurate with narrative communal formation Thus the narrative attempt to once again do theology for the church is seen as compatible with a Scriptural i.e. modestly systematic theology of the Spirit

*Faithfully Seeking Understanding* Johannes Kuhn, 2009 The selections are taken from chapters of Kuhn's books including his Catholic Dogmatics and from various articles that appeared in the Tübingen quarterly *Die theologische Quartalschrift* They are arranged according to the following topics faith and reason revelation and the personhood of God responses to Protestant liberalism theological topics including grace and freedom theology and the university and Catholic fundamental theology Though diverse in subject when read together the essays yield a complete theological vision that derives from a carefully constructed theological foundation

*History of the Development of the Doctrine of the Person of Christ* Isaak August Dorner, Issac August Dorner, 1890

*Senses of Tradition* John E. Thiel, 2000-09-21 This book articulates a theory of Catholic tradition that departs from previous understandings Drawing on the medieval concept of the four-fold sense of scripture John Thiel proposes four interpretive senses of tradition He also offers a theory of doctrinal development that reconciles Catholic belief in apostolic authority and continuity of tradition with a critical approach to the evidence of history

*Theology and the University in Nineteenth-Century Germany* Zachary Purvis, 2016-07-21 Theology and the University in Nineteenth

Century Germany examines the dual transformation of institutions and ideas that led to the emergence of theology as science the paradigmatic project of modern theology associated with Friedrich Schleiermacher Beginning with earlier educational reforms across central Europe and especially following the upheavals of the Napoleonic period an impressive list of provocateurs iconoclasts and guardians of the old faith all confronted the nature of the university the organization of knowledge and the unity of theology s various parts quandaries which together bore the collective name of theological encyclopedia Schleiermacher s remarkably influential programme pioneered the structure and content of the theological curriculum and laid the groundwork for theology s historicization Zachary Purvis offers a comprehensive investigation of Schleiermacher s programme through the era s two predominant schools speculative theology and mediating theology Purvis highlights that the endeavour ultimately collapsed in the context of Wilhelmine Germany and the Weimar Republic beset by the rise of religious studies radical disciplinary specialization a crisis of historicism and the attacks of dialectical theology In short the project represented university theology par excellence Engaging in detail with these developments Purvis weaves the story of modern university theology into the broader tapestry of German and European intellectual culture with periodic comparisons to other national contexts In doing so he Purvis presents a substantially new way to understand the relationship between theology and the university both in nineteenth century Germany and indeed beyond

**Christology From Within and Ahead** Mark Chan, 2021-10-01 Troeltsch s struggle with historicism sets the stage for a proposal that Christology be done from within and from ahead Gadamer s philosophical hermeneutics and Schleiermacher s experiential theology inform a Christology from within that is rooted in tradition and experience while Pannenberg s notion of proleptic eschatological fulfilment serves as resource for a Christology from ahead This volume develops a hermeneutical Christology that takes into account the historical contingency of knowledge and seeks a Christology beyond the objectivism of timeless truth and the relativism of absolutised contextuality The book is concluded with an examination of the convergence of critical traditionality experiential appropriation and eschatological prolepsis in the Christology of the apostle Paul The author explores how Christology might respond to the scandal of universality in postmodernity without defaulting on its claim to transcontextual referentiality

Schleiermacher and Palmer Justin A. Davis, 2019-09-11 Twenty first century Protestantism is radically different from the Protestantism of the Reformation The challenges of modernity affected all aspects of Christianity and the more successful attempts to combat these challenges came about as a result of two rather different yet similar theologians in the nineteenth century This work provides an exhaustive look at Friedrich Schleiermacher the father of modern liberal Protestantism and Phoebe Palmer the mother of the Holiness movement The trend of liberalism is to strip away all but what is essential to Christian life while the Holiness movement sought to make all of life applicable to the Bible and God While these two movements may appear contradictory they are grounded in a shared source of experiential Protestantism commonly known as Pietism and develop their theological systems from this starting point This study includes not only their

theologies but also biographies that introduce the reader to these two luminaries Liberalism and holiness as created by Schleiermacher and Palmer lay the foundation for Pentecostalism fundamentalism neo orthodoxy and the interdenominational movements of the nineteenth century Only from this vantage can we understand the modern Protestant mindset

**The Aesthetic Hermeneutics of Hans-Georg Gadamer and Hans Urs Von Balthasar** Jason Paul Bourgeois,2007 Through a comparison of their aesthetics and hermeneutics this book reveals that both Gadamer and Balthasar reject an autonomous neutral distanced starting point for interpretation Instead they advocate a dialogical model in which interpreters allow themselves to be engaged by the truth of the text or artwork at hand Both thinkers use aesthetic categories to describe this model of interpretation such as the neo Platonic category of radiance and both reflect a disclosure concealment theory of truth In recognizing that interpreters are part of an unfolding history and that the examination of historical texts cannot be done from a neutral standpoint they both acknowledge that textual interpretation must contain the dimension of dialogue with the past truths Significantly Balthasar incorporates these aesthetic and hermeneutical categories into an explicitly Trinitarian salvation history framework which is absent in Gadamer s thought This book concludes with the implications of an aesthetic hermeneutics for contemporary Roman Catholic theology and its dialogue with various schools of thought philosophical and religious arguing that the concrete particular forms of Christianity as expressed in Roman Catholicism cannot be bracketed or evacuated by Catholic theologians in the interest of achieving consensus in religious matters To the contrary it is precisely in these forms that we believe that God s revelation takes place

*Providence Perceived* Mark W. Elliott, 2015-04-24 This book will offer an account not so much of God's Providence an sich but rather of divine providence as experienced by believers and unbelievers It will not ask questions about whether and how God knows the future or how suffering can be accounted for as is the case in the treatments by William Lane Craig Richard Swinburne or J Sanders but will focus on prayer and decision making as a faithful and or desperate response to the perception of God as having some controlling influence The following gives an idea of the ground to be covered The patristic foundations of the Christian view of Providence The medieval synthesis of objective and subjective views Reformational and Early Modern the shift towards piety Modern Enlightenment Providence and Ethics Barth and the Sceptics The sense of Providence in the Modern Novel and World

**Graham Greene's Catholic Imagination** Mark Bosco, 2005-02-17 Graham Greene's early books are described as Catholic Novels with his later work falling into political and detective genres This title argues that this is a false dichotomy created by a narrowly prescriptive understanding of the Catholic genre and obscures the impact of Greene's religious imagination on his literary art
