London after Dark in British Popular Culture Mara Arts,2022-03-04 This book explores the representation of London s nightlife in popular films and newspapers of the interwar period Through a series of case studies it analyses how British popular media in the 1920s and 1930s displayed the capital after dark It argues that newspapers and films were part of a common culture which capitalized on the transgressive possibilities of the night At the same time both media ensured that those in authority such as the police were always shown to ultimately be in control of the night The first chapter of the book provides an overview of the British film and newspaper industries in the interwar period Subsequent chapters each explore a specific aspect of London s nightlife In turn these chapters consider how films and newspapers of the interwar period depicted women navigating the street at night the Metropolitan Police s involvement in nightlife and the capital s newly built and expanded suburbs and public transport network Finally the book considers how newspapers and films depicted themselves and one another Voices of Guinness Tim Strangleman,2019-05-01

Imagine a workplace where workers enjoyed a well paid job for life one where they could start their day with a pint of stout and a smoke and enjoy free meals in silver service canteens and restaurants During their breaks they could explore acres of parkland planted with hundreds of trees and thousands of shrubs Imagine after work a place where employees could play more than thirty sports or join one of the theater groups or dozens of other clubs Imagine a place where at the end of a working life you could enjoy a company pension from a scheme to which you had never contributed a penny Imagine working in buildings designed by an internationally renowned architect whose brief was to create a building that would last a century or two This is no fantasy or utopian vision of work but a description of the working conditions enjoyed by employees at the Guinness brewery established at Park Royal in West London in the mid 1930s In this book Tim Strangleman tells the story of the Guinness brewery at Park Royal showing how the history of one plant tells us a much wider story about changing attitudes and understandings about work and the organization in the twentieth and early twenty first centuries Drawing on extensive oral history interviews with staff and management as well as a wealth of archival and photographic sources the book shows how progressive ideas of workplace citizenship came into conflict with the pressure to adapt to new expectations about work and its organization Strangleman illustrates how these changes were experienced by those on the shop floor from the 1960s through to the final closure of the plant in 2005 This book asks striking and important questions about employment and the attachment workers

have to their jobs using the story of one of the UK and Ireland's most beloved brands Guinness

Critical Theory and Political Engagement C. Pawling, 2013-06-25 In this

timely study Pawling argues for a renewal of the politics of intellectual life calling for an engaged critical theory written in the spirit of May 1968 as exemplified in the works of figures such as Sartre Derrida Badiou Jameson and Said

Nights Out Judith Walkowitz, 2012-05-15 London's Soho district underwent a spectacular transformation between the late Victorian era and the end of the Second World War its fin de siècle buildings and dark streets infamous for sex crime political disloyalty and ethnic diversity became a center of culinary and cultural tourism servicing patrons of nearby shops and theaters

Indulgences for the privileged and the upwardly mobile edged a dangerous transgressive space imagined to be outside the nation Treating Soho as exceptional but also representative of London's urban transformation Judith Walkowitz shows how the area's foreignness liminality and porousness were key to the explosion of culture and development of modernity in the first half of the twentieth century She draws on a vast and unusual range of sources to stitch together a rich patchwork quilt of vivid stories and unforgettable characters revealing how Soho became a showcase for a new cosmopolitan identity

Democracy and Political Culture Ross McKibbin, 2019-02-21 Democracy and Political Culture Studies in Modern British History attempts to give a total picture of the political social culture of Great Britain in the twentieth century To do so it chooses a number of particular subjects which nonetheless stand for this culture as a whole and which together allow us to

reach a number general conclusions about modern British history In this sense it is a successor to McKibbin s previous collection of essays *The Ideologies of Class* 1991 while it also takes up a number of the themes of his *Classes and Cultures* 1998 Above all it is a study of British democracy and asks the questions what does it mean to describe Britain as a democratic society and how might we measure it against other comparable societies To do so McKibbin has chosen not only more global subjects Britain s social structure and the sources of political authority the social and political effects of the first world war Britain s electoral and party system its literary culture its sporting culture and the relation of that culture to the rest of the world as well as to Britain itself and a comparison of Britain s political culture with one of the closest comparable societies Australia and what that tells us about Britain but also individual studies of three men very prominent in British life who in different ways both contributed to Britain s political culture and were also students of it J M Keynes an economist Harold Nicolson a politician and writer and A J Cronin a novelist All three represented British political culture in its broadest spectrum

D. H. Lawrence and Ambivalence in the Age of Modernity Gaku Iwai, 2024-05-01 D H Lawrence is renowned for his scathing criticism of the ruling class industrialisation of the country and wartime patriotism However his texts bear the imprint of contemporary dominant ideologies and discourses of the period Comparing Lawrence s texts to various major and minor contemporary novels journal articles political pamphlets and history books this book aims to demonstrate that Lawrence s texts are ambivalent his texts harbour the dynamism of conflicting power struggles between the subversive and the reactionary For example in some apparently apolitical texts such as *The White Peacock* and *Movements in European History* reactionary ideologies and wartime propaganda are embedded Some texts like *Lady Chatterley s Lover* are intended to be a radical critique of the period wherein it was composed but they also bear discernible traces of the contemporary frame of reference that they intend to subvert Focusing on Lawrence s stories and novels set in the mining countryside and the works composed under the impact of the First World War this book establishes that Lawrence s texts in fact consist of multiple layers that are often in conflict with each other serving as a testimony to the age of modernity

Heredity and Infection Jean-Paul Gaudillière, Ilana Löwy, 2012-11-12 Ideas about the transmission of disease have long formed the core of modern biology and medicine *Heredity and Infection* examines their development over the last century Two scientific revolutions the bacteriological revolution of the 1890s and the genetic revolution at the start of the twentieth century acted as the catalysts of major change in our understanding of the causes of illness As well as being great scientific achievements these were social and political watersheds that reconfigured the medical and administrative means of intervention By establishing a clear distinction between transmission by infection and genetic transmission this shift was instrumental in separating hygiene from eugenism The authors argue that the popular perception of such a sharp divide stabilized only after 1945 when the use of antibiotics to end epidemics became commonplace For health professionals the separation has never become an absolute one and the book examines the various blends of heredity and infection that have preoccupied biology

medicine and the social sciences Heredity and Infection reconstructs the changing epidemiology of such historically important pathologies as tuberculosis cancer and AIDS In doing so it demonstrates the role of experimental models medical practices and cultural images in the making of contemporary biochemical knowledge

Domestic Modernism, the Interwar Novel, and E.H. Young Chiara Briganti, Kathy Mezei, 2016-12-05 Domestic Modernism the Interwar Novel and E H Young provides a valuable analytical model for reading a large body of modernist works by women who have suffered not only from a lack of critical attention but from the assumption that experimental modernist techniques are the only expression of the modern In the process of documenting the publication and reception history of E H Young s novels the authors suggest a paradigm for analyzing the situation of women writers during the interwar years Their discussion of Young in the context of both canonical and noncanonical writers challenges the generic label and literary status of the domestic novel as well as facile assumptions about popular and middlebrow fiction canon formation aesthetic value and modernity The authors also make a significant contribution to discussions of the everyday and to the burgeoning field of homeculture as they show that the fictional embodiment and inscription of home by writers such as Young Virginia Woolf Elizabeth Bowen Ivy Compton Burnett Lettice Cooper E M Delafield Stella Gibbons Storm Jameson and E Arnot Robertson epitomize the long standing symbiosis between architecture and literature or more specifically between the house and the novel

A Cultural History of Famine Ayesha Mukherjee, 2019-01-15 The term food security does not immediately signal research done in humanities disciplines It refers to a complex contested issue whose currency and significance are hardly debatable given present concerns about environmental change resource management and sustainability The subject is thus largely studied within science and social science disciplines in current or very recent historical contexts This book brings together perspectives on food security and related environmental concerns from experts in the disciplines of literary studies history science and social sciences It allows readers to compare past and contemporary attitudes towards the issues in India and Britain the economic social and environmental histories of these two nations have been closely connected ever since British travellers began to visit India in the latter half of the sixteenth century The chapters in this book discuss themes such as climate harvest failure trade technological improvements transport networks charity measures and popular protest which affected food security in both countries from the seventeenth century onwards The authors cover a range of disciplinary and interdisciplinary approaches and their chapters allow readers to understand and compare different methodologies as well as different contexts of time and place relevant to the topic This book will be of great interest to students and researchers of economic and social history environmental history literary studies and South Asian studies
