Emerson,1972-06-01 **Naturalistic Photography for Students of the Art** Peter Henry Emerson,1890 *Naturalistic Photography for Students of the Art* Peter Henry Emerson,1889 **Photography and the Art of Chance** Robin Kelsey,2015-05-26 As anyone who has wielded a camera knows photography has a unique relationship to chance It also represents a struggle to reconcile aesthetic aspiration with a mechanical process Robin Kelsey reveals how daring innovators expanded the aesthetic limits of photography in order to create art for a modern world **Catalog of the Avery Memorial Architectural Library of Columbia University. 2d Ed., Enl** Avery Library,1982 Encyclopedia of Nineteenth-Century Photography John Hannavy,2013-12-16 The Encyclopedia of Nineteenth Century Photography is the first comprehensive encyclopedia of world photography up to the beginning of the twentieth century It sets out to be the standard definitive reference work on the subject for years to come Its coverage is global an important first in that authorities from all over the world have contributed their expertise and scholarship towards making this a truly comprehensive publication The Encyclopedia presents new and ground breaking research alongside accounts of the major established figures in the nineteenth century arena Coverage includes all the key people processes equipment movements styles debates and groupings which helped photography develop from being a solution in search of a problem when first invented to the essential communication tool creative medium and recorder of everyday life which it had become by the dawn of the twentieth century The sheer breadth of coverage in the 1200 essays makes the Encyclopedia of Nineteenth Century Photography an essential reference source for academics students researchers and libraries worldwide **Art and Modern Copyright** Elena Cooper,2018-08-16 This book is the first in depth and longitudinal study of the history of copyright protecting the visual arts Exploring legal developments during an important period in the making of the modern law the mid nineteenth to early twentieth centuries in relation to four themes the protection of copyright authors painters photographers and engravers art collectors sitters and the public interest it uncovers a number of long forgotten narratives of copyright history including views of copyright that differ from how we think today As well as considering the distinct nature of the contribution of copyright to the history of the cultural domain accounted for by scholars of art history and the sociology of art this book examines the value to lawyers and policy makers today of copyright history as a destabilising influence in taking us to ways of thinking that differ from our own history can sharpen the critical lens through which we view copyright debates today **Photographic Theory** Andrew E. Hershberger,2014-01-07 Hershberger is the winner of a 2015 Insight Award from the Society for Photographic Education for his work on this book and for his overall contributions to the field Photographic Theory An Historical Anthology presents a compendium of readings spanning ancient times to the digital age

that are related to the history nature and current status of debates in photographic theory Offers an authoritative and academically up to date compendium of the history of photographic theory Represents the only collection to include ancient Renaissance and 19th 20th and 21st century writings related to the subject Stresses the drama of historical and contemporary debates within theoretical circles Features comprehensive coverage of recent trends in digital photography Fills a much needed gap in the existing literature

Automatism and Creative Acts in the Age of New Psychology

Linda M. Austin, 2018-06-14 The late nineteenth century saw a re examination of artistic creativity in response to questions surrounding the relation between human beings and automata These questions arose from findings in the new psychology physiological research that diminished the primacy of mind and viewed human action as neurological and systemic Concentrating on British and continental culture from 1870 to 1911 this unique study explores ways in which the idea of automatism helped shape ballet art photography literature and professional writing Drawing on documents including novels and travel essays Linda M Austin finds a link between efforts to establish standards of artistic practice and challenges to the idea of human exceptionalism Austin presents each artistic discipline as an example of the same process creation that should be intended but involving actions that evade mental control This study considers how late nineteenth century literature and arts tackled the scientific question Are we automata
