## **Nature Course Notes From The College De France Spep Studies In Historical Philosophy:**

**Nature** Maurice Merleau-Ponty, 2003 Collected in this text are the written notes of courses on the concept of nature given by Merleau Ponty at the College de France in the 1950s The ideas that animated the philosopher's lectures emerge in an early fluid form in the process of being elaborated negotiated critiqued and reconsidered

**Critical Communities and Aesthetic Practices** Francis Halsall, Julia Jansen, Sinéad Murphy, 2011-11-17 Critical Communities and Aesthetic Practices brings together eminent international philosophers to discuss the inter dependence of critical communities and aesthetic practices Their contributions share a hermeneutical commitment to dialogue both as a model for critique and as a generator of community Two conclusions emerge The first is that one's relationships with others will always be central in determining the social political and artistic forms that philosophical self reflection will take The second is that our practices of aesthetic judgment are bound up with our efforts as philosophers to adapt ourselves and our objects of interest to the inescapably historical and indeterminate conditions of experience The papers collected here address the issue that critical communities and aesthetic practices are never politically neutral and can never be abstracted from their particular contexts It is for this reason that the contributors investigate the politics not of laws parties or state constitutions but of open indefinitely critical communities such as audiences peers and friends Critical Communities and Aesthetic Practices is distinctive in providing a current selection of prominent positions written for this volume Together these comprise a pluralist un homogenized collection that brings into focus contemporary debates on critical and aesthetic practices

**Georges Sorel's Study on Vico** Eric Brandom, Tommaso Giordani, 2019-12-09 Georges Sorel's Study on Vico is a revelatory document of the depths and stakes of French social thought at the end of the 19th century What brought Sorel to the 18th century Neapolitan theorist of history Acute awareness of the limitations of Marxist thought in his day a profound concern with the material underpinnings of language law and culture and the imperative to understand the possibilities of revolutionary change We find here a different Sorel one who speaks in surprising ways to the 21st century The translation is accompanied by an introduction and by a set of notes which situate the text both in Sorel's overall intellectual trajectory and in the fin de siècle debates from which it emerged
