Morgan, 1973 What is New Testament Theology? Hendrikus Boers, 1979 Here is a review of the history of New Testament theology as a discipline from its roots in the Reformation era through subsequent developments from Johann Philipp Gabler to Rudolf Bultmann and beyond Boers encourages the reader to evaluate and understand a variety of theological approaches in keeping with the diverse nature of the New Testament texts **New Testament Theology** Donald Guthrie, 1981 In this

comprehensive thematic study Donald Guthrie brings out the rich variety of New Testament thought while demonstrating its inner unity The Nature of New Testament Theology , 1973 New Testament Theology Leon Morris, 2011-03-01 This work is not a history of New Testament times nor an account of New Testament religion Nor does it proceed from a view that the New Testament was written as theology We must bear in mind that the writers of the New Testament books were not writing set theological pieces They were concerned with the needs of the churches for which they wrote Those churches already had the Old Testament but these new writings became in time the most significant part of the Scriptures of the

believing community As such they should be studied in their own right and these questions should be asked What do these writings mean What is the theology they express or imply What is of permanent validity in them We read these writings across a barrier of many centuries and from a standpoint of a very different culture We make every effort to allow for this but we never succeed perfectly In this book I am trying hard to find out what the New Testament authors meant and this not as an academic exercise but as the necessary prelude to our understanding of what their writings mean for us today From the Introduction **New Testament Theology and Its Quest for Relevance** Thomas Hatina,2013-03-14 This guide to structuring and creating a New Testament theology shows students how to examine ancient texts in the modern world

New Testament Theology Jon Isaak,2011-01-01 New Testament theology ought to be both descriptive and constructive this is the argument of New Testament Theology Extending the Table According to Isaak New Testament theology is descriptive in that it deals with the accounts that people narrate of their experience with Yahweh the God of Israel in the light of Easter It is constructive in that it joins the diverse testimonies of the New Testament writers into a textured and thick space within which contemporary followers of Jesus continue to be shaped by the ancient yet living Spirit of God Isaak s approach is historical thematic and theological in orientation It explores the conversation taking place around the table where the writers of the NT share their guiding vision of God s saving work among them and their passion for the Christian church engaged in God s mission The differing perspectives of the New Testament authors are held together without reduction forming a deep and rich space within which ongoing community reflection and praxis can take place New Testament Theology Frank J. Matera,2007-01-01 In this systematic book by book exploration of the theology of each New Testament writing Frank J Matera explores theological diversity and unity in the writings of the New Testament After an introduction to the history and method of New Testament theology he explains and describes the theologies of the Synoptic Pauline and Johannine traditions as well as the rich theology of other New Testament voices Hebrews the Catholic Epistles and the book of Revelation Integrating both Protestant and Catholic approaches this work provides students pastors and scholars a comprehensive view of the New Testament that is rich in exegetical and theological insight **Theology, Church, and Ministry** David S.
