Titus Lucretius Carus

Nature Of Things 5:

The Nature of Things Anthony M. Quinton, 2019-03-07 Originally published in 1973 In this systematic treatise Anthony Quinton examines the concept of substance a philosophical refinement of the everyday notion of a thing Four distinct but not unconnected problems about substance are identified what accounts for the individuality of a thing what confers identity on a thing what is the relation between a thing and its appearances and what kind of thing is fundamental in the sense that its existence is logically independent of that of any other kind of thing In Part 1 the first two problems are discussed while in Part 2 the third and fourth are considered Part 3 examines four kinds of thing that have been commonly held to be in some way non material abstract entities the un observable entities of scientific theory minds and their states and finally values The author argues that theoretical entities and mental states are in fact material He gives a linguistic account of universals and necessary truths and advances a naturalistic theory of value

The Nature of Things William A. Magee, 2000-05-02 Nature is a topic in many Indian and Tibetan philosophical texts although its meaning varies considerably in both Hindu and Buddhist scriptures The discussion of nature pursued in this book begins with Nagarjuna first century founder of the Middle Way School who refuted a fabricated nature in his *Treatise on the Middle* In that seminal text he puts forth the three basic criteria for nature it must be something that is non fabricated independent and immutable This book presents Dzong ka ba s discussion of the overly narrow object in his *Great Exposition* and relates that discussion to Nagarjuna s verses in *Treatise on the Middle* When combined with an understanding of an overly broad object to be negated this topic brings the Middle Way practitioner to a precise identification of the nonexistent object of negation nature as being a thing s establishment by way of its own entity This book also presents Dzong ka ba s more mainstream commentary on the subject in the *Ocean of Reasoning* sections which are translated in Part Two It also describes Dzong ka ba s strong reaction to the positive and independent nature asserted by Tibet s greatest synthesist Dol bo Shay rap gyel tsen fourteenth century

On the Nature of Things Titus Lucretius Carus, William Ellery Leonard, 2004-01-01 The Roman philosopher s didactic poem in 6 parts *De Rerum Natura* On the Nature of Things theorizes that natural causes are the forces behind earthly phenomena and dismisses divine intervention Derived from the philosophical materialism of the Greeks Lucretius work remains the primary source for contemporary knowledge of Epicurean thought

Aristotle on the Nature of Truth Christopher P. Long, 2010-11-22 This book reconsiders the traditional correspondence theory of truth which takes truth to be a matter of correctly representing objects Drawing Heideggerian phenomenology into dialogue with American pragmatic naturalism Christopher P Long undertakes a rigorous reading of Aristotle that articulates the meaning of truth as a co operative activity between human beings and the natural world that is rooted in our endeavours to do justice to the nature of things By following a path of Aristotle s thinking that leads from our rudimentary encounters with things in perceiving through human communication to thinking this book traces an itinerary that uncovers the nature of truth as

ecological justice and it finds the nature of justice in our attempts to articulate the truth of things **Lucretius On the Nature of Things** Titus Lucretius Carus,1851 **On the Nature of Things** Lucretius,2015-06-01 This text is a translation of Lucretius poem which adheres faithfully to the text yet with poetic force accuracy and humanitas and includes introduction notes and a glossary of philosophical terms cross referenced to use throughout the poem **Francis Ponge and the Nature of Things** Patrick Alan Meadows,1997 One of the most significant French poets of the twentieth century Francis Ponge is treated in this study The fundamental role of atomistic philosophy in Ponge s writings especially as expressed in Lucretius s De Rerum Natura is discussed Meadows is the first author to examine Ponge s writings in a book length study

The Nature of Things Graham Buxton,Norman C. Habel,2016-11-16 In 2015 a conference on Rediscovering the Spiritual in God s Creation was held at the Serafino winery complex in the McLaren Vale region of South Australia The aim of the conference was not to seek consensus but to survey the landscape with a view to intentional responsible action in caring for God s creation Delegates were challenged to recognize their own worldviews and to widen their horizons to encompass the enormity of the transcendence and immanence of God s presence in all creation A group of leading international scholars and experts in the fields of science ecology theology and ethics participated in a multidisciplinary conversation on the spiritual in creation with the aim of discovering fresh horizons with regard to creation care liturgy justice and discipleship within the Christian community The chapters in this volume reflect the diversity of perspectives summarized in The Serafino Declaration which was crafted towards the end of the conference This declaration which opens the volume outlines a range of views relating to the presence of the spiritual in creation views that are both traditional and radical This volume highlights the current concern over ecological destruction and finds sources of inspiration in the deepest roots of our traditions and forms of spirituality to sustain efforts towards custodianship of the land and care for God s creation Contributors David Rhoads Paul Santmire Denis Edwards Bob White Heather Eaton Ernst Conradie Vicky Balabanski Celia Deane Drummond Mark Worthing Emily Colgan Dianne Rayson Anne Gardner Mark Liederbach Patricia Fox Anne Elvey Mick Pope **Of the Nature of Things** T.L. Carus,1743 *Of the Nature of Things* Titus Lucretius Carus,1714 *T. Lucretius Carus, Of the Nature of Things* Titus Lucretius Carus,Thomas Creech,1714 **Virgil on the Nature of Things** Monica R. Gale,2000-11-09 The Georgics has for many years been a source of fierce controversy among scholars of Latin literature Is the work optimistic or pessimistic pro or anti Augustan Should we read it as a eulogy or a bitter critique of Rome and her imperial ambitions This book suggests that the ambiguity of the poem is the product of a complex and thorough going engagement with earlier writers in the didactic tradition Hesiod Aratus and above all Lucretius Drawing on both traditional philological approaches to allusion and modern theories of intertextuality it shows how the world views of the earlier poets are subjected to scrutiny and brought into conflict with each other Detailed consideration of verbal parallels and of Lucretian themes imagery and structural patterns in the Georgics forms the basis for a reading of Virgil s poem as an extended

meditation on the relations between the individual and society the gods and the natural environment **The Logic of Hegel's 'Logic'** John W. Burbidge, 2006-03-28 George Wilhelm Friedrich Hegel has seldom been considered a major figure in the history of logic His two texts on logic both called *The Science of Logic* both written in Hegel's characteristically dense and obscure language are often considered more as works of metaphysics than logic But in this highly readable book John Burbidge sets out to reclaim Hegel's *Science of Logic* as logic and to get right at the heart of Hegel's thought Burbidge examines the way Hegel moves from concept to concept through every chapter of his work and traces the origins of Hegel's effort to think through the way thought thinks to Plato Kant and Fichte Having established the framework of Hegel's logical thought Burbidge demonstrates how Hegel organized the rest of his system including the *Philosophy of Nature* *Philosophy of Spirit* and his *Lectures on World History Art Religion and Philosophy* A final section discusses English language interpretations of Hegel's logic from the nineteenth through twentieth centuries Burbidge's *The Logic of Hegel's Logic* is written with an eye to the reader of general interests avoiding as much as possible the use of Hegel's technical vocabulary It is an excellent introduction to an otherwise very difficult text and has recently appeared in an Iranian translation Titus Lucretius Carus, Of the Nature of Things Titus Lucretius Carus, 1722 Drifting among Rivers and Lakes Michael Fuller, 2020-10-26 What drives literary change Does literature merely follow shifts in a culture or does it play a distinctive role in shaping emergent trends Michael Fuller explores these questions while examining the changes in Chinese ship poetry from the late Northern Song dynasty 960-1127 to the end of the Southern Song 1127-1279 a period of profound social and cultural transformation Shi poetry written in response to events was the dominant literary genre in Song dynasty China serving as a central form through which literati explored meaning in their encounters with the world By the late Northern Song however old models for meaning were proving inadequate and Daoxue Neo Confucianism provided an increasingly attractive new ground for understanding the self and the world *Drifting among Rivers and Lakes* traces the intertwining of the practice of poetry writings on poetics and the debates about Daoxue that led to the cultural synthesis of the final years of the Southern Song and set the pattern for Chinese society for the next six centuries Examining the writings of major poets and Confucian thinkers of the period Fuller discovers the slow evolution of a complementarity between poetry and Daoxue in which neither discourse was self-sufficient *The Story of Nature* Jeremy Mynott, 2024-10-29 The story of humanity's evolving relationship with the natural world from pre-history to the present day Nature has long been the source of human curiosity and wonderment and the inspiration for some of our deepest creative impulses But we are now witnessing its rapid impoverishment even destruction in much of our world In this beautifully illustrated book Jeremy Mynott traces the story of nature past present and future From the dramatic depictions of animals by the prehistoric cave painters through the romantic discovery of landscape in the eighteenth century to the climate emergency of the present day Mynott looks at the different ways in which humankind has understood the world around it Charting how our ideas about nature emerged and

changed over time he reveals how the impulse to control nature has deep historical roots As we reach an environmental crisis point this vital study shows how human imagination and wonder can play a restorative role and reveal what nature ultimately means to us *Philodemus and Poetry* Dirk Obbink,1995 Building on recent advances in the reconstruction of the charred papyri of Philodemus of Gadara ca 110 40 B C excavated from the Villa of the Papyri at Herculaneum this volume presents eleven new chapters in the history of literary criticism in antiquity The essays written by noted scholars treat the papyrus texts of Philodemus treatises on poetry and the related subjects of rhetoric and music establishing links with his Roman contemporaries Lucretius Catullus Horace and Vergil The study offers a critical survey of current trends and developments in recent scholarship on Philodemus in particular and Hellenistic literary theory in general The volume contains a complete translation of a new text of Philodemus On Poems book 5 Individual essays evaluate the philosophical and historical importance of these Epicurean treatises and of Philodemus as a literary theorist as they document connections between Greek philosophy and Roman literary production in the first century B C The recent papyrus discoveries of Ennius Lucretius and Posidippus make this an especially topical volume **T.
