Nature's Oracle Ullica Segerstrale, 2013-02-28 W D Hamilton 1936 2000 was responsible for a revolution in thinking about evolutionary biology a revolution that changed our understanding of life itself He played a central role in the realization that what matters in evolution is not the survival of the individual but of the survival of its genes This provided the solution to the long standing problem of animal altruism that vexed even Darwin himself and in due course resulted in terms like selfish genes kin selection and sociobiology becoming familiar to a wider public Hamilton went on to solve many more major problems and open up ever new fields he shaped much of our current understanding of central problems including the evolution of sexual reproduction and ageing He became world famous and garnered international prizes But this is all in hindsight In fact Hamilton s recognition came late his career is a classic case of misunderstood genius In this illuminating and moving biography Ullica Segerstrale documents Hamilton s extraordinary life and work revealing a man of immense intellectual curiosity an uncompromising truth seeker a naturalist and jungle explorer

a risk taker an unconventional scientist with a poet's soul and a deep concern for life on earth and mankind's future

Nature's Fading Chorus Gordon Miller, 2000-05 Naturalists in every age have been intrigued by frogs toads and salamanders They have seen these amphibians in a variety of guises as beings with magical powers or implicit moral lessons as the products of spontaneous generation as heralds of the seasons as evidence of evolution or material for biological experiments or most recently as ecological barometers for the biosphere *Nature's Fading Chorus* presents an anthology of writings on amphibians drawn from the entire Western natural history tradition beginning with Aristotle's *Inquiry Concerning Animals* written in the fourth century B C E and continuing through recent scientific accounts of the relatively sudden and alarming global declines and deformities in amphibian species The offerings not only reveal much about amphibian life but also provide fascinating insight into the worldviews of the many writers scientists and naturalists who have delved into the subject The book is divided into five sections The first three offer selections from the most influential contributors to the Western canon of natural history writing and contain classic texts that illustrate central themes in the changing understanding of amphibians and of the natural world The fourth section offers engaging essays by leading twentieth century nature writers that portray a variety of amphibians in diverse terrains Part five covers the various aspects of and research on the problem of amphibian declines and deformities Featured are more than thirty five pieces including works from Pliny the Elder Gilbert White William Bartram Henry David Thoreau Charles Darwin T H Huxley Loren Eiseley Stephen Jay Gould George Orwell Annie Dillard Terry Tempest Williams and many others Arranged chronologically the writings provide an intriguing look at the ways in which humankind's understanding of its place in nature has changed through the course of Western history and of the niche amphibians have occupied in that evolution [Womens' Nature](#) Conrad Riker, 101-01-01 They're Not Broken You Just Misunderstood the Rules Why do women act hot and cold even after they claim to love you Why does being kind and loyal get you ghosted while bad boys keep winning Why does every relationship feel like a power struggle you didn't sign up for If you're tired of being emotionally manipulated financially drained and socially gaslit this book is your wake up call This is not self help fluff This is field tested truth from evolutionary psychology sexual strategy and real world male experience Exposes the hidden mating matrix women navigate and how you've been playing checkers while they play chess Reveals why being a good man is often punished not rewarded in modern dating Shows how women are not emotionally monogamous even in long term relationships Uncovers the biological imperative behind female hypergamy and serial monogamy Explains why commitment doesn't stop women from keeping multiple men on the hook Teaches you how to recognize emotional manipulation before it costs you time money or dignity Demonstrates why female friendship is often just social grooming with strings attached Equips you to build unshakable frame the one thing no woman can resist no matter her strategy If you want to stop being used rejected and confused by women and finally understand the unspoken rules of attraction and power buy this book today [Memory Studies in the Digital Age](#)
