Miyazaki's Animism Abroad Eriko Ogihara-Schuck, 2014-10-21 After winning an Oscar for Spirited Away the Japanese director Hayao Miyazaki's animated films were dubbed into many languages Some of the films are saturated with religious themes distinctive to Japanese culture How were these themes or what Miyazaki describes as animism received abroad especially considering that they are challenging to translate This book examines how American and German audiences grounded on Judeo Christian traditions responded to the animism in Miyazaki's Nausicaa of the Valley of the Wind 1984 My Neighbor Totoro 1988 Princess Mononoke 1997 Spirited Away 2001 and Ponyo on the Cliff by the Sea 2008 By a close reading of adaptations and film reviews and a study of transitions in their verbal and visual approaches to animism this book demonstrates that the American and German receptions transcended the conventional view of an antagonistic relationship between animism and Christianity With the ability to change their shapes into forms easily accessible to other cultural arenas the anime films make a significant contribution to inter religious dialogue in the age of secularization **Asian American**

Film Festivals Erin Franziska Högerle, 2020-10-26 Responding to a lack of studies on the film festival's role in the production of cultural memory this book explores different parameters through which film festivals shape our reception and memories of films By focusing on two Asian American film festivals this book analyzes the frames of memory that festivals create for their films constructed through and circulated by the various festival media It further establishes that festival locations both cities and screening venues play a significant role in shaping our experience of films Finally it shows that festivals produce performances which help guide audiences towards certain readings and direct the film's role as a memory object Bringing together film festival studies and memory studies Asian American Film Festivals offers a mixed methods approach with which to explore the film festival phenomenon thus shedding light on the complex dynamics of frames locations and performances shaping the festival's memory practices It also draws attention to the understudied genre of Asian American film festivals showing how these festivals actively engage in constructing and performing a minority group's collective identity and memory Animism in Contemporary Japan Shoko Yoneyama, 2018-11-09 Postmodern animism first emerged in grassroots Japan in the aftermath of mercury poisoning in Minamata and the nuclear meltdown in Fukushima

Fusing critiques of modernity with intangible cultural heritages it represents a philosophy of the life world where nature is a manifestation of a dynamic life force where all life is interconnected This new animism it is argued could inspire a fundamental rethink of the human nature relationship The book explores this notion of animism through the lens of four prominent figures in Japan animation film director Miyazaki Hayao sociologist Tsurumi Kazuko writer Ishimure Michiko and

Minamata fisherman philosopher Ogata Masato Taking a biographical approach it illustrates how these individuals moved towards the conclusion that animism can help humanity survive modernity It contributes to the Anthropocene discourse from a transcultural and transdisciplinary perspective thus addressing themes of nature and spirituality whilst also engaging with arguments from mainstream social sciences Presenting a new perspective for a post anthropocentric paradigm Animism in Contemporary Japan will be useful to students and scholars of sociology anthropology philosophy and Japanese Studies
