Navajo Trader Gladwell Richardson,1991-07-01 Gladwell Toney Richardson came from a long line of Indian traders and published nearly three hundred western novels under pseudonyms like Maurice Kildare His forty years of managing trading posts on the Navajo Reservation are now recalled in this colorful memoir **Navajo National Monument** Hal Rothman,1991 **Navajo National Monument** United States. National Park Service,2003 This General Management Plan Summary provides the highlights of the Navajo National Monument Final General Management Plan Environmental Impact Statement The plan is intended to provide a foundation to help park managers guide programs and set priorities for resource stewardship visitor understanding partnerships facilities and operations The plan will guide management of the monument for the next 1520 years **Navajo National Monument (N.M.), General Management Plan** ,2003 *Navajo National Monument* ,2003 **Navajo National Monument, Arizona** United States. National Park Service,2003 *Southwest Cultural Resources Center Professional Papers* ,1983 **Navajo Childbirth** Rita Weyrauch Begay,1985 The Case of the Indian Trader Paul Berkowitz,2011-05-15 This is the story of Billy Gene Malone and the end of an era Malone lived almost his entire life on the Navajo Reservation working as an Indian trader the last real Indian trader to operate historic Hubbell Trading Post In 2004 the National Park Service NPS launched an investigation targeting Malone alleging a long list of crimes that were similar to Al Capone In 2005 federal agent Paul Berkowitz was assigned to take over the year and a half old case His investigation uncovered serious problems with the original allegations raising questions about the integrity of his supervisors and colleagues as well as high level NPS managers In an intriguing account of whistle blowing Berkowitz tells how he bypassed his chain of command and delivered his findings directly to the Office of the Inspector General Northern Navajo Frontier 1860 1900 Robert Mcpherson,2001-10 The Navajo nation is one of the most frequently researched groups of Indians in North America Anthropologists sociologists historians and others have taken turns explaining their views of Navajo history and culture A recurrent theme throughout is that the U S government defeated the Navajos so soundly during the early 1860s that after their return from incarceration at Bosque Redondo they were a badly shattered and submissive people The next thirty years saw a marked demographic boom during which the Navajo population doubled Historians disagree as to the extent of this growth but the position taken by many historians is that because of this growth and the rapidly expanding herds of sheep cattle and horses the government beneficently gave more territory to its suffering wards While this interpretation is partly accurate it centers on the role of the government the legislation that was passed and the frustrations of the Indian agents who rotated frequently through the Navajo Agency in Fort Defiance New Mexico and ignores or severely limits one of the most important actors in this process of land acquisition the Navajos themselves Instead of being a downtrodden group of prisoners defeated militarily in the 1860s and dependent on the U S government for protection and guidance in the 1870s and 80s they were vigorously involved in defending and expanding the borders of their homelands This

was accomplished not through war and as a concerted effort but by an aggressive defensive policy built on individual action that varied with changing circumstances Many Navajos never made the Long Walk to Bosque Redondo Instead they eluded capture in northern and western hinterlands and thereby pushed out their frontier This book focuses on the events and activities in one part of the Navajo borderlands the northern frontier where between 1860 and 1900 the Navajos were able to secure a large portion of land that is still part of the reservation This expansion was achieved during a period when most Native Americans were losing their lands

Both Sides of the Bullpen Robert S. McPherson, 2017-10-19 Between 1880 and 1940 Navajo and Ute families and westward trending Anglos met in the bullpens of southwestern trading posts to barter for material goods As the products of the livestock economy of Navajo culture were exchanged for the merchandise of an industrialized nation a wealth of cultural knowledge also changed hands In *Both Sides of the Bullpen* Robert S McPherson reveals the ways that Navajo tradition fundamentally reshaped and defined trading practices in the Four Corners area of southeastern Utah and southwestern Colorado Drawing on oral histories of Native peoples and traders collected over thirty years of research McPherson explores these interactions from both perspectives as wool blankets and silver crossed the counter in exchange for flour coffee and hardware To succeed traders had to meet the needs and expectations of their customers often interpreted through Navajo cultural standards From the organization of the post building to gift giving health care and burial services and a credit system tailored to the Navajo calendar every feature of the trading post served trader and customer alike Over time these posts evolved from ad hoc business ventures or profitable cooperative stores into institutions with a clearly defined set of expectations that followed Navajo traditional practices Traders spent their days evaluating craft work learning the financial circumstances of each Native family following economic trends in the wool and livestock industry back east and avoiding conflict In detail and depth the many voices woven throughout *Both Sides of the Bullpen* restore an underappreciated era to the history of the American Southwest They show us that for American Indians and white traders alike in the Four Corners region during the late 1800s and early 1900s barter was as much a cultural expression as it was an economic necessity

National Parks and the Woman's Voice Polly Welts Kaufman, 2006 In this updated study Polly Kaufman discovers that staff are no longer able to fulfill the National Park Service mission without outside support

América Robert Goodwin, 2019-03-05 An epic history of the Spanish empire in North America from 1493 to 1898 by Robert Goodwin author of *Spain The Centre of the World* At the conclusion of the American Revolution half the modern United States was part of the vast Spanish Empire The year after Columbus's great voyage of discovery in 1492 he claimed Puerto Rico and the Virgin Islands for Spain For the next three hundred years thousands of proud Spanish conquistadors and their largely forgotten Mexican allies went in search of glory and riches from Florida to California Many died few triumphed Some were cruel some were curious some were kind Missionaries and priests yearned to harvest Indian souls for God through baptism and Christian teaching Theirs was a frontier world which Spain struggled to control in the

face of Indian resistance and competition from France Britain and finally the United States In the 1800s Spain lost it all Goodwin tells this history through the lives of the people who made it happen and the literature and art with which they celebrated their successes and mourned their failures He weaves an epic tapestry from these intimate biographies of explorers and conquerors like Columbus and Coronado but also lesser known characters like the powerful G lvez family who gave invaluable and largely forgotten support to the American Patriots during the Revolutionary War the great Pueblo leader Popay and Esteban the first documented African American Like characters in a great play or a novel Goodwin s protagonists walk the stage of history with heroism and brio and much tragedy *American Indians and National Parks* Robert H. Keller, Michael F. Turek, 1998-08-01 Many national parks and monuments tell unique stories of the struggle between the rights of native peoples and the wants of the dominant society These stories involve our greatest parks Yosemite Yellowstone Mesa Verde Glacier the Grand Canyon Olympic Everglades as well as less celebrated parks elsewhere In *American Indians and National Parks* authors Robert Keller and Michael Turek relate these untold tales of conflict and collaboration *American Indians and National Parks* details specific relationships between native peoples and national parks including land claims hunting rights craft sales cultural interpretation sacred sites disposition of cultural artifacts entrance fees dams tourism promotion water rights and assistance to tribal parks Beginning with a historical account of Yosemite and Yellowstone *American Indians and National Parks* reveals how the creation of the two oldest parks affected native peoples and set a pattern for the century to follow Keller and Turek examine the evolution of federal policies toward land preservation and explore provocative issues surrounding park Indian relations When has the National Park Service changed its policies and attitudes toward Indian tribes and why How have environmental organizations reacted when native demands such as those of the Havasupai over land claims in the Grand Canyon seem to threaten a national park How has the Park Service dealt with native claims to hunting and fishing rights in Glacier Olympic and the Everglades While investigating such questions the authors traveled extensively in national parks and conducted over 200 interviews with Native Americans environmentalists park rangers and politicians They meticulously researched materials in archives and libraries assembling a rich collection of case studies ranging from the 19th century to the present In *American Indians and National Parks* Keller and Turek tackle a significant and complicated subject for the first time presenting a balanced and detailed account of the Native American national park drama This book will prove to be an invaluable resource for policymakers conservationists historians park visitors and others who are concerned about preserving both cultural and natural resources **New Mexico Magazine**, 2001 **Arizona Highways**, 1991 **Investigating Arthur Upfield** Carol Hetherington, Kees de Hoog, 2011-10-18 Arthur Upfield created Detective Inspector Napoleon Bonaparte Bony who features in twenty nine novels written from the 1920s to the the 1960s mostly set in the Australian Outback He was the first Australian professional writer of crime detection novels Upfield arrived in Australia from England on 4 November 1911 and this collection of twenty two critical essays by academics

and scholars has been published to celebrate the centenary of his arrival The essays were all written after Upfield s death in 1964 and provide a wide range of responses to his fiction The contributors from Australia Europe and the United States include journalist Pamela Ruskin who was Upfield s agent for fifteen years anthropologists literary scholars pioneers in the academic study of popular culture such as John G Cawelti and Ray B Browne and novelists Tony Hillerman and Mudrooroo whose own works have been inspired by Upfield s The collection sheds light on the extent and nature of critical responses to Upfield over time demonstrates the type of recognition he has received and highlights the way in which different preoccupations and critical trends have dealt with his work The essays provide the basis for an assessment of Upfield s place not only in the international annals of crime fiction but also in the literary and cultural history of Australia
