Levinas and James Megan Craig, 2010 Bringing to light new facets in the philosophy of Emmanuel Levinas and William James Megan Craig explores intersections between French phenomenology and American pragmatism Craig demonstrates the radical empiricism of Levinas's philosophy and the ethical implications of James's pluralism while illuminating their relevance for two philosophical disciplines that have often held each other at arm's length Revealing the pragmatic minimalism in Levinas's work and the centrality of imagery in James's prose she suggests that aesthetic links are crucial to understanding what they share Craig's suggestive readings change current perceptions and clear a path for a more open pluralistic and creative pragmatic phenomenology that takes cues from both philosophers
