Lotus International No 41 Living In The City Paris And Berlin:

Design Book Review, 1986 **Lotus International**, 2005 **The New Tenement** Florian Urban, 2017-10-12 This book examines new tenements dense medium rise multi storey residences that have been the backbone of European inner city regeneration since the 1970s and came with a new positive view on urban living Focusing principally on Berlin Copenhagen Glasgow Rotterdam and Vienna it relates architectural design to an evolving intellectual framework that mixed anti modernist criticism with nostalgic images and strategic goals and absorbed ideas about the city as a generator of creativity locale of democratic debate and object of personal identification This book analyses new tenements in the context of the post functionalist city and its mixed use neighbourhoods redeveloped industrial sites and regenerated waterfronts It demonstrates that these buildings are both generators and outcome of an urban environment characterised by information exchange rather than industrial production individual expression rather than mass culture visible history rather than comprehensive renewal and conspicuous difference rather than egalitarianism It also shows that new tenements evolved under a welfare state that all over Europe has come under pressure but still to a certain degree balances and controls heterogeneity and economic disparities **Avery Index to Architectural Periodicals, 1995** Avery Library, 1997-02 **Alvaro Siza** Álvaro Siza, Alexandre Alves Costa, 1988 *Paradise Planned* Robert A.M. Stern, David Fishman, Jacob Tilove, 2013-12-03 Paradise Planned is the definitive history of the development of the garden suburb a phenomenon that originated in England in the late eighteenth century was quickly adopted in the United State and northern Europe and gradually proliferated throughout the world These bucolic settings offered an ideal lifestyle typically outside the city but accessible by streetcar train and automobile Today the principles of the garden city movement are once again in play as retrofitting the suburbs has become a central issue in planning Strategies are emerging that reflect the goals of garden suburbs in creating metropolitan communities that embrace both the intensity of the city and the tranquility of nature Paradise Planned is the comprehensive encyclopedic record of this movement a vital contribution to architectural and planning history and an essential recourse for guiding the repair of the American townscape *Las Vegas in the Rearview Mirror* Martino Stierli, 2013 An illustrated reevaluation of the seminal architectural manifesto Learning from Las Vegas It explores the significance of this controversial publication by situating it in the artistic architectural and urbanist discourse of the 1960s and 70s and by evaluating the book's enduring influence of visual studies and architectural research *Publishers Weekly*, 1987 **Typology** Emanuel Christ, Christoph Gantenbein, Victoria Easton, 2015 Emanuel Christ and Christoph Gantenbein together with their teaching staff and students at ETH Zurich expanded their research on building typology to four more metropolises again in Europe Latin America and Asia 180 buildings were analyzed over the past two years to find inspiration and models that can be adapted for the local context of any given city Each example is documented with an image site and floor plans axonometric projection key data and a brief description An introduction and four essays on the interaction between various protagonists

and in particular the effect of governing local building regulation again show the potential for contemporary urban architecture The result is again a rich sourcebook of great practical value for students lecturers and practitioners of architecture Note de l diteur □□□□□,1989-06 Josef Frank Christopher Long,Josef Frank,2002 Architect designer and theorist Josef Frank 1885 1967 was known throughout Europe in the 1920s as one of the continent s leading modernists Yet despite his important contributions to the development of modernism Frank has been largely excluded from histories of the movement Josef Frank Life and Work is the first study that comprehensively explores the life ideas and designs of this complex and controversial figure Educated in Vienna just after the turn of the century Frank became the leader of the younger generation of architects in Austria after the First World War But Frank fell from grace when he emerged as a forceful critic of the extremes of modern architecture and design during the early 1930s Dismissing the demands for a unified modern style Frank insisted that it was pluralism not uniformity that most characterized life in the new machine age He called instead for a more humane modernism one that responded to people s everyday needs and left room for sentimentality and historical influences He was able to put these ideas into practice when in 1933 he was forced to leave Vienna for Sweden There his work came to define Swedish or Scandinavian modern design For more than thirty years he was the chief designer for the Stockholm furnishings firm Svenskt Tenn producing colorful cozy and eclectic designs that provided a refreshing alternative to the architectural mainstream of the day and presaged the coming revolt against modernism in the 1960s In this sensitive study of one of the twentieth century s seminal architects and thinkers Christopher Long offers new insight into Josef Frank s work and ideas and provides an important contribution to the understanding of modernist culture and its history Agrest and Gandelsonas Works Diana Agrest,Mario Gandelsonas,1995 Includes over forty substantially documented works **Theo Van Doesburg** Theo van Doesburg,Marleen Blokhuis,2000 **Sources of Modern Eclecticism** Demetri Porphyrios,1982 Alvaro Siza, 1954-1988 Álvaro Siza,1989 **Possessing the Past** □□□□□ □□,Wen Fong,James C.
