Lotus-flower Cave Shuangdong Han,1986 Lotus-flower Cave Shuangdong Han,1986 Lotus-flower Cave Foreign Languages Press,2007-10-01 Excerpt from a Chinese classical book Journey to the West **China** Damian Harper,2012 Presents information on China s culture history and people offers walking cycling and boat tours and suggests excursions off the beaten path The Buddhist Caves at Aurangabad: Transformations in Art and Religion Pia Brancaccio,2010-12-17 This is a study that focuses on the art and architecture of a group of Buddhist rock cut monuments excavated on the western edge of the Deccan Plateau in India It analyses the various cultural historical and religious phenomena that shaped the caves at Aurangabad through the first seven centuries of the Common Era and it comments on the Buddhist tradition of the western Deccan as a whole The result is a comprehensive work that does not address exclusively iconography and chronology but looks beyond Aurangabad to the larger artistic and religious traditions of the Indian Subcontinent **The Yellow River Rough Guides Snapshot China (includes Ningxia, Inner Mongolia, Shanxi, Shaanxi, Xi'an and Henan)** David Leffman,Mark South,Martin Zatko,Simon Lewis,2012-05-03 The Rough Guide Snapshot to The Yellow River is the ultimate travel guide to this fascinating part of China It guides you through the region with reliable information and comprehensive coverage of all the sights and attractions from the magnificent Terracotta Army to the walled city of Pingyao and from the Yungang Caves to the mountains of Wutai Shan Detailed maps and up to date listings pinpoint the best restaurants hotels and bars ensuring you have the best trip possible whether passing through staying for a week or longer Also included is the Basics section from The Rough Guide to China with all the practical information you need for travelling in China including transport food drink costs health entry requirements and personal safety Also published as part of The Rough Guide to China Full coverage Ningxia Zhongwei Shapotou Yinchuan Inner Mongolia Genghis Khan s Mausoleum Hohhot the grasslands Shanxi Yungang Caves Wutai Shan Pingyao Shaanxi Xi an The Terracotta Army Henan Longmen Caves Luoyang Song Shan Shaolin temple Zhengzhou Kaifeng Equivalent printed page extent 134 pages **The Cave Temples of India** James Fergusson,James Burgess,1880 *Ajanta* Sheila L. Weiner,2023-11-15 The Ajanta caves in Maharashtra India have been a subject of considerable fascination since their discovery by British officers in 1819 These thirty one rock cut caves located along a dramatic ravine above the Waghora River are known for their intricate Buddhist art spanning several centuries The caves include monastic dwellings vih ras and prayer halls caitya halls some elaborately decorated with murals and sculptures As these caves were carved out of the rock rather than being naturally occurring formations they required immense effort and coordination to construct Despite the number assigned to each cave by archaeologists the order of their excavation remains uncertain and many of them are left incomplete This unfinished state combined with stylistic diversity within individual caves suggests the artists might have worked across different caves at varying times possibly following the natural light throughout the day to guide their progress Ajanta is distinctive in the history of Indian art because it uniquely combines

painting sculpture and architecture to showcase Buddhist art evolution from the early H nay na aniconic tradition through to the Mah y na phase where Buddha images and Bodhisattvas appear prominently The artistic themes in Ajanta revolve around narrative portrayals and worship focused iconography with shrine figures embodying a massive spiritual weightiness in contrast to the more graceful or dwarfish depictions of demigods and figures in the J taka tales This study explores the origins of this iconographic duality at Ajanta examining how the artistic and religious traditions that shaped it developed internally and in relation to other sites illuminating how the evolution of Buddhism itself is mirrored in its art and monuments Divided into three main parts the study analyzes historical architectural and stylistic progressions that influenced Ajanta s art The first section delves into historical contexts relevant to Buddhist development in the area while the second investigates the architectural evolution of caitya halls and vih ras and the emergence of the Buddha image The third section focuses on the stylistic progression of the narrative art at Ajanta tracking the evolution of both the Buddha image and the surrounding decorative forms Through synthesizing historical paleographic and iconographic evidence the study aims to provide a cohesive understanding of Buddhist art s evolution specifically at Ajanta over several centuries This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1977

Yu has successfully taken on the task and in this new edition he has made his translations even more accurate and accessible. The explanatory notes are updated and augmented and Yu has added new material to his introduction based on his original research as well as on the newest literary criticism and scholarship on Chinese religious traditions. He has also modernized the transliterations included in each volume using the now standard Hanyu Pinyin romanization system. Perhaps most important, Yu has made changes to the translation itself in order to make it as precise as possible. One of the great works of Chinese literature, *The Journey to the West*, is not only invaluable to scholars of Eastern religion and literature but in Yu's elegant rendering also a delight for any reader.

[Japanese Mandalas](#)
 Elizabeth ten Grotenhuis, 1998-11-01. The first broad study of Japanese mandalas to appear in a Western language, this volume interprets mandalas as sanctified realms where identification between the human and the sacred occurs. The author investigates eighth- to seventeenth-century paintings from three traditions: Esoteric Buddhism, Pure Land Buddhism, and the kami worshipping Shinto tradition. It is generally recognized that many of these mandalas are connected with texts and images from India and the Himalayas. A pioneering theme of this study is that in addition to the South Asian connections, certain paradigmatic Japanese mandalas reflect pre-Buddhist Chinese concepts, including geographical concepts. In convincing and lucid prose, ten Grotenhuis chronicles an intermingling of visual, doctrinal, ritual, and literary elements in these mandalas that has come to be seen as characteristic of the Japanese religious tradition as a whole. This beautifully illustrated work begins in the first millennium B.C.E. in China with an introduction to the Book of Documents and ends in present-day Japan at the sacred site of Kumano. Ten Grotenhuis focuses on the Diamond and Womb World mandalas of Esoteric Buddhist tradition, on the Taima mandala, and other related mandalas from the Pure Land Buddhist tradition, and on mandalas associated with the kami worshipping sites of Kasuga and Kumano. She identifies specific sacred places in Japan with sacred places in India and with Buddhist cosmic diagrams. Through these identifications, the realm of the buddhas is identified with the realms of the kami and of human beings, and Japanese geographical areas are identified with Buddhist sacred geography. Explaining why certain fundamental Japanese mandalas look the way they do and how certain visual forms came to embody the sacred, ten Grotenhuis presents works that show a complex mixture of Indian Buddhist elements, pre-Buddhist Chinese elements, Chinese Buddhist elements, and indigenous Japanese elements.
