Submitted... for the Degree of Doctor of Philosophy, in the Faculty of Philosophy, Columbia University](#) William Webb Pusey III., 1939 **Enlightened Metropolis** Alexander M. Martin, 2013-03-28 Imperial Russia is said to have had two capital cities because it had two identities St Petersburg was Russia's window to Europe whereas Moscow preserved the nation's proud historical traditions Enlightened Metropolis challenges this myth by exploring how the tsarist regime actually tried to turn Moscow into a bridgehead of Europe in the heartland of Russia Moscow in the eighteenth century was widely scorned as backward and Asiatic The tsars thought it a benighted place that endangered their state's internal security and their effort to make Russia European Beginning with Catherine the Great they sought to construct a new Moscow with European buildings and institutions a Westernized middle estate and a new cultural image as an enlightened metropolis Drawing on the methodologies of urban social institutional cultural and intellectual history Enlightened Metropolis asks How was the urban environment buildings institutions streets smells transformed in the nine decades from Catherine's accession to the death of Nicholas I How were the lives of the inhabitants changed Did a middle estate come into being How similar was Moscow's modernization to that of Western cities and how was it affected by the disastrous occupation by Napoleon Lastly how were Moscow and its people imagined by writers artists and social commentators in Russia and the West from the Enlightenment to the mid nineteenth century *Science Fiction and Anticipation* Bernard Montoneri, 2022-08-16 *Science Fiction and Anticipation Utopias Dystopias and Time Travel* presents ten chapters discussing themes related to time travel utopias and dystopias in science fiction novels published in America and Europe between the 18th and 20th century These themes include social progress freedom and human rights technological advances and the issues of ethics racism sexism censorship and slavery The contributors analyze novels such as *The Year 2440* published in 1771 *Paris in the Twentieth Century* written by Jules Verne *Blake or The Huts of America* by Martin Robinson Delany *The Amphibian Man* by Alexander Belyaev *Heart of a Dog* by Mikhail Bulgakov *Ashes Ashes* by Ren Barjavel *The Machine Stops* by E M Forster *Morel's Invention* by Adolfo Bioy Casares and writers of Spanish Argentinian English and French fictions such as George Orwell Eduardo Ladislao Holmberg and Leopoldo Antonio Lugones Arg ello This book notably presents their sources and influence the accuracy of their predictions

and their relevance in our very unstable world *Utopianism for a Dying Planet* Gregory Claeys,2024-12-10 How the utopian tradition offers answers to today s environmental crises In the face of Earth s environmental breakdown it is clear that technological innovation alone won t save our planet A more radical approach is required one that involves profound changes in individual and collective behavior Utopianism for a Dying Planet examines the ways the expansive history of utopian thought from its origins in ancient Sparta and ideas of the Golden Age through to today s thinkers can offer moral and imaginative guidance in the face of catastrophe The utopian tradition which has been critical of conspicuous consumption and luxurious indulgence might light a path to a society that emphasizes equality sociability and sustainability Gregory Claeys unfolds his argument through a wide ranging consideration of utopian literature social theory and intentional communities He defends a realist definition of utopia focusing on ideas of sociability and belonging as central to utopian narratives He surveys the development of these themes during the eighteenth and nineteenth centuries before examining twentieth and twenty first century debates about alternatives to consumerism Claeys contends that the current global warming limit of 1.5C 2.7F will result in cataclysm if there is no further reduction in the cap In response he offers a radical Green New Deal program which combines ideas from the theory of sociability with proposals to withdraw from fossil fuels and cease reliance on unsustainable commodities An urgent and comprehensive search for antidotes to our planet s destruction Utopianism for a Dying Planet asks for a revival of utopian ideas not as an escape from reality but as a powerful means of changing it *The French Book Trade in Enlightenment Europe II* Simon Burrows,2018-08-09 This is a rich and path breaking comparative study of reading tastes in the final years of old regime Europe Based on extensive research in the account books of the Swiss publishers the Soci t Typographique de Neuch tel STN and related archives it charts the dissemination of literature and reading tastes across Europe in the years leading up to the French revolution In the process it recasts our understanding of late 18th century print culture and the contours of the enlightenment The fruit of a widely acclaimed five year database project the STN database it is also a story of pioneering efforts to apply the latest digital technology and GIS mapping techniques to traditional historical and bibliographic problems Although written to serve as a standalone study this book is ideally complemented by its companion volume Mark Curran s *The French Book Trade in Enlightenment Europe I Selling Enlightenment* which offers a radical reinterpretation of the structure and practices of the European book trade The STN database is now recognised as a cutting edge digital project of global significance Robert Darnton has called it a prodigious accomplishment and a joy to use while Jeremy Popkin adds No one working in the field of French Enlightenment studies can afford to ignore the rich mine of data that Simon Burrows and his collaborators have made accessible in an eminently usable form and the new possibilities it opens up for scholars *The French Book Trade in Enlightenment Europe I and II* offer a roadmap of that data and what it can show us *Cultural Transfer Through Translation* Stefanie Stockhorst,2010 Studies at least as much as to historical translation studies Book Jacket **Wagner**

and Beethoven Klaus Kropfing,1991-07-04 This book analyzes the lifelong impact of Beethoven's music on Wagner and its importance for his conception of music drama Kropfing charts and scrutinizes Wagner's early responses to the composer and considers his experience as a conductor of Beethoven's music A discussion of the Romantic Beethoven image leads to a careful study of Wagner's aesthetic writings including his programmatic explanations the text Concerning Franz Liszt's symphonic poems and his Beethoven centenary essay The penultimate chapter addresses Wagner's theory and practice of music drama which he came to regard as the preordained successor to the Beethoven symphony By analyzing special terms such as Leitmotiv Wagner's structural view of musical drama comes to the fore it is a view that deepens not only our understanding of musical drama as a hybrid genre of art but also of purely musical structure and forms that Wagner sought to outdo
