Cultural Objects and Reparative Justice Patty Gerstenblith, 2023-09-20

Cultural Objects and Reparative Justice provides a comprehensive legal and historical analysis surrounding a highly debated current question: Where should cultural objects that were removed without consent be located? This book follows an innovative interdisciplinary approach based in law, history, art history, anthropology, and archaeology and proposes a paradigm for reparations. Tracing the historical foundations of the current legal framework, the work closely examines three factors that heavily informed the cultural heritage debate since the late eighteenth century: the rise of the encyclopaedic museum, the development of archaeology as a science, and the appropriation of objects in the context of armed conflict and colonialism. Each of these explorations is enriched by examples from around the globe and assessed on the international, national, and local level. Subjecting contested objects such as the Parthenon Sculptures, those from the Yuanmingyuan Palace, the Benin artifacts, looted archaeological artefacts, and human remains and artwork stolen during the Holocaust to this holistic approach enables a contextualisation of the unique history of appropriation of these objects. Cultural Objects and Reparative Justice outlines how current cultural heritage laws and ethical guidelines with respect to cultural heritage derive from a background of imperialism and colonialism. The book advocates for a new structure based on reparation, restitution, repatriation, compensation, and market regulation to cease perpetuating past harms and to disincentivize new ones.

Nineteenth-Century European Art Terry W. Strieter, 1999

Major art movements and artists of nineteenth-century Europe from the French Revolution to World War I are presented alphabetically in a dictionary format. Artists and art movements are integrated within the politics and culture of the times. An examination of the prominent authors, politicians, rulers, writers, and musicians who often posed for artists provides an historical background against which to study these famous, obscure, traditional, and avant-garde artists. Entries include the artists' models, many of whom became romantically involved with the artists, and the artworks in which the models appear. This focus on the European continent rather than on one specific country surveys the interconnected influences and politics that pervaded the lives of the artists during this age when Europe was powerful culturally and politically and helps to explain the various art movements such as the Neo-Classical, Romantic, Realist, Impressionist, Fauvist, Cubist, Expressionist, and Abstract that consequently evolved. Art history scholars, artists, and anyone with an interest in European art and politics will appreciate the organization and detail of this comprehensive volume.

The alphabetical entries coupled with straightforward and accessible writing make this reference both informative and engaging. As a research tool, entries are cross-referenced and a bibliography provides a useful guide to further research.

Book Jacket **Reframing Postcolonial Studies** David D. Kim, 2020-11-30. *Reframing Postcolonial Studies* addresses the urgent issues that Black Lives Matter has raised with respect to everyday material practices and the frameworks in which our knowledge and cultural heritage are conceptualized and stored. The book points urgently to the many ways in which our society must reinvent itself to enable equitable justice for all. Robert J. C. Young, Julius Professor of English and Comparative Literature, New York University, USA. Drawing on urban theory, art history, literary analysis, environmental humanities, and linguistics, this book is ambitious and wide-ranging, asking us what it is to live creatively and critically with the residues of colonial appropriation and sedimentation while in open dialogue with the subjects who still live in its wake. Tamar Garb, Durning Lawrence Professor in History of Art, University College London, UK. This book constitutes a collective action to examine what foundational concepts, interdisciplinary methodologies, and activist concerns are pivotal for the future of common humanity as we bear the weight of our postcolonial inheritance in the twenty-first century. Written by scholars of different generations, the chapters interrogate how current intellectual endeavors are in contact with individual and community-based actions outside of the academy. Going beyond the perennial debates on the tension between theory and praxis or on the disparity between activism and scholarship, they examine literary texts, visual artworks, language, and immigration policies, public monuments, museum exhibitions, moral dilemmas, and political movements to deepen our contemporary postcolonial action on the edge of conceptual thinking, methodological experimentation, and scholarly activism. *Reframing Postcolonial Studies* is the first volume whose rationale is formulated in explicitly intergenerational, future-oriented terms. *French News*, 1963. *Wonders of European Art* Louis Viardot, 1885. **Augustin Pajou** James David Draper, Augustin Pajou, Guilhem Scherf, 1997. This examination concentrates on the beginnings of Neoclassicism and explores the philosophical and scientific underpinnings of the Enlightenment in which Pajou played an important part. *Hogarth and his Place in European Art* Frederick Antal, 2022-11-30. First published in 1962, *Hogarth and his Place in European Art* attempts to convey the historical relevance both in its native and European context of perhaps the most outstanding English

painter of the eighteenth century Dr Antal applies his method of establishing the close relationship between the political and social history and the arts and letters of the period Thus the book goes far beyond the limits of art historical appreciation It gives a panoramic picture of the first half of the eighteenth century in England with all its social literary and artistic connotations He shows how England which during those years became both politically and economically the most advanced country in Europe could provide in Hogarth in spite of the slender native tradition the most progressive artistic personality of his time whose work revealed the views and tastes of a broad cross section of society He traces Hogarth s stylistic origins back to their European sources and analyses his impact on contemporary European and English art as well as the influence he exerted on generations to come This book will be of interest to students of art art history literature and European history
