Laclotte,1982 **The louvre**,1990 **149 Paintings You Really Should See in Europe — France** Julian Porter,2013-10-16 This chapter from Julian Porter s essential companion to all the major European museums and galleries discusses some of the greatest paintings to be found in the museums and galleries of France His passion for art began with the seven years he spent as a student tour guide in Europe In this segment he visits Paris and discusses works by masters such as Delacroix David Renoir Manet Degas and many more In the usually pretentious arena of art connoisseurs Porter s voice stands out as fresh and original He finds the best of the best which he describes with entertaining irreverence and spares you hours of sore feet and superfluous information **Willa Cather and Modern Cultures** Melissa J. Homestead,Guy J. Reynolds,2011-10-01 Linking Willa Cather to the modern or modernism still seems an eccentric proposition to some people Born in 1873 Cather felt tied to the past when she witnessed the emergence of twentieth century modern culture and the clean classical sentences in her fiction contrast starkly with the radically experimental prose of prominent modernists Nevertheless her representations of place in the modern world reveal Cather as a writer able to imagine a startling range of different cultures Divided into two sections the essays in Cather Studies Volume 9 examine Willa Cather as an author with an innovative receptivity to modern cultures and a powerful affinity with the visual and musical arts From the interplay between modern and antimodern in her representations of native culture to the music and visual arts that animated her imagination the essays are unified by an understanding of Cather as a writer of transition whose fiction meditates on the cultural movement from Victorianism into the twentieth century Art Nouveau in Fin-de-Siecle France Debora L. practically all of his painted oeuvre Valentin de Boulogne Beyond Caravaggio explores both the the artist s superlative depictions of daily life and the tumultuous context in which they were produced Essays by a team of international scholars consider his key attributions to European painting his devotion to everyday objects and models from life his technique of staging pictures with the immediacy of unfolding drama and his place in the pantheon of French artists An extensive chronology surveys the rare extant documents that chronicle his biography while individual entries help situate his works in the contexts of his times Rich with incident and insight and beautifully illustrated in Valentin s complex suggestive paintings Valentin de Boulogne Beyond Caravaggio reveals a seminal artist a practitioner of realism in the seventeenth century who prefigured the naturalistic modernism of Gustave Courbet and Edouard Manet two centuries later
