Romantic Love and Sexual Behavior Victor C. De Munck, 1998-04-16 Westerners believe that love makes life worth living that sex is a natural desire different in kind from love and that only cynics reduce our love life to a calculation of economic or genetic factors In this volume essays explore these and other assumptions about the relationship between romantic love and sex This represents the first interdisciplinary social science study of love and sex Contributors ask and answer questions such as Is love just sex idealized or is it a transcendent and divine emotion Is love a cultural construct that is shared by members of the same culture or is it a matter of personal taste What keeps promiscuous people from using condoms even when they know they are at risk Are black professional men so rare that their conceptions of love and sex differ from those of white professional men Are brutal sexual fantasies an exclusively male domain and are they always excluded from love fantasies among normal adolescents Is divorce a culturally induced response to evolutionary reproductive strategies that compel individuals to maximize their genetic legacy Are marriages or relationships less satisfying or stable when an actual mate falls short of the fantasy of the ideal mate Is there a universal core to love and sex that is camouflaged by other cultural norms such as modesty and sexual segregation Is rape perceived as more acceptable when the rapist says he was motivated by love What do cult movements and romantic love have in common As they attempt to answer these and other questions the authors extend our understanding of the variety of ways that love and sex are conceptualized connected or separated

Love and Sexuality in Social Theory Emiliano Bevilacqua, Mariano Longo, Michael Hviid Jacobsen, 2024-11-27 Love and Sexuality in Social Theory considers the role that love and sexuality play in private and public life Drawing on both classical and contemporary social theory this book presents both theoretical and empirical studies of love and sexuality as social factors from the earliest reconstructions of modern emotional life to the most recent analyses of liquid love With attention to the consequences that passions and desires have both on morals and behaviour it departs from the analysis of society in terms of the division of labour and utilitarian mechanisms to consider how a society based on performances values human energy and emotional behaviour in a contradictory way This book therefore presents and discusses classic authors from Georg Simmel and Pitirim Sorokin to Marianne Weber and Simone De Beauvoir through the work of Erving Goffman and ending with contemporary authors such as Michel Foucault Anthony Giddens Zygmunt Bauman Ulrich Beck and Eva Illouz By presenting love as the social foundation of altruism an essential element in modern conceptions of subjectivity and a force shaping intimacy and contemporary social life this book will appeal to scholars of sociology particularly those interested in social theory and the sociology of emotions

The Power of Love Prophet Dr Wanjiru Gachie, 2019-08-08 Life experience has taught me that the necessities of life are many and varied there is nothing that the world hungers and needs so much as real love To possess love is to possess everything that you can desire in the present moment To be in love is to be set free indeed from life's imperfections and from the lesser and to attain the perfect and the grander this is what everyone is consciously or unconsciously working for and only love alone can accomplish this As you live in love you will not only increase your ability and the power that does all things will also acquire that rare and most excellent faculty of doing the right thing at the right time and opportunities for more love will come your way Thus the Power of Love and Sexual Instincts is written for that individual who desires to be equipped with love and sexual love skill that contributes to a more abundant life rather than going through the sex and love life by only muddling through without the depth of the matter The only life worth living is the loving one Be that different now Even though the concept of love and sex seems abhorrent to some people the topic is vital because love and sex is the foundation of human existence While ignorance may be bliss when everything is plain sailing ignorance has no defense when it comes to knowing the truth that sets free Hence some accurate knowledge is useful when the bark of life gets near the rocks in stormy weather Loving rightly is the most wonderful thing in the world One of the gains

of the study of the Power of Love and Sexual Instincts will be a better comprehension of the many phenomena which burden and grieve the soul body mind and spirit bringing you into a new light A poem by Nixon Waterman puts it all too well To know all is to forgive all By increasing your knowledge you forgive yourself for having missed the mark in the past However in this context forgiveness is more important being forgiven by Mother Nature for having sinned against her for having abhorred love and sexual instincts Love and Sex in Plain Language Eric W. Johnson,1984 Love, Sexuality, and Matriarchy Erich Fromm,2024-02-27 A fascinating collection of essays on the complicated relations between men and women from the New York Times bestselling author of The Art of Loving The New York Times Book Review The renowned social psychologist delves deep into the fraught relationship between genders drawing upon the influential insights of Bachofen Freud Marx and Briffault Not primarily interested in the existence of anatomical and biological differences between the sexes Fromm instead analyzes how these differences have been made use of throughout human history Drawing from Bachofen s Mother Right Fromm expounds on how matriarchal and patriarchal social structures determine relations between the sexes in essential ways and how they are shaped by the dominant orientation of the social character at any given time He posits that the most important question concerning gender relations is which characterological orientation determines human relationships love or hate love of life or fascination with force Thus it will not be gender conflict that will determine humanity s future but whether we opt for love of life or love of death As these essays show Fromm was a wide ranging thinker whose writings sometimes manifested brilliant insights or practical wisdom Kirkus Reviews **Love and Sexuality** Omraam Mikhaël Aïvanhov,Fraternité blanche universelle (France),1997-01-01 **Are You Normal About Sex, Love, and Relationships?** Bernice Kanner,2024-06-04 When it comes to sex and love how do you fit in Are you ahem normal Do you conform to the type standard or pattern the way MOST people do In the bedroom and elsewhere where we copulate we re both entirely predictable and utterly surprising Would you try to conceive without your partner s consent if you wanted a baby What s sexier suits slacks or jeans Do you slant to the right or left when kissing Have you ever lied to get a date Marketing guru Bernice Kanner has spent many years researching how Americans love and lust to give us the statistics to satisfy our every curiosity People talk about sex a lot a worry about it even more So pull up a chair and see how you compare Sexual Desire and Love Eric Fuchs,1983 In a comprehensive ground breaking study of the Christian teaching about sexuality Eric Fuchs surveys the taboos of Judaeo Christian morality He looks at the ethics of sexuality as they are presented in the Bible and by early theologians medieval scholastics reformers and counter reformers and present day thinkers Through it all he is concerned to answer the question By what mysterious alchemy did the liberating Gospel of Christ who unconditionally accepted wounded humanity become transformed into moral requirements that were so guilt forming Fuch s exhaustive study leads him to develop his own theological interpretation of sexuality its liberating aspects in the fulfilment of human life the completion of personality end the expression of humanity s highest ideals **Love, Heterosexuality and**

Society Paul Johnson, 2007-04-11 Heterosexuality is a largely silent set of practices and identities it is assumed to be everywhere and yet often remains unnamed and unexplored Despite recent changes in the theoretical understanding and representation of sexuality heterosexuality continues to be socially normative Forging a new agenda for the study of heterosexuality this in depth volume the first research monograph to focus on heterosexuality and society presents an empirical study of the construction negotiation and enactment of heterosexual sexuality Using detailed interview data it investigates how heterosexuality as both an identity and a set of practices is accomplished through love relationships Rather than assuming that romantic love is an outcome or expression of a pre defined sexuality Johnson explores how sexuality is brought to life through love Situated in the ongoing theoretical debates concerning the relationship between gender and sexuality Paul Johnson s book shows how ways of loving are interwoven with the construction practice regulation and government of heterosexuality Excellently written this important book also looks at gender in society and explores such areas as heterosexual subjectivities and the borders of desire As such the research it contains will be valuable for all students of sociology and gender studies

The Secrets of Love and Lust Simon Andrae, 1998 Subtitled THE SCIENCE AND PSYCHOLOGY OF SEX LOVE AND MARRIAGE this groundbreaking and controversial book is a massively informed yet highly entertaining study of the evolution and nature of sexual desire Arguing that our sexuality is the result of three interlocking forces gender culture and constitution Simon Andrae examines the process through which we become straight or gay grow up to desire blondes or brunettes breasts or buttocks people who do or don t look like our parents and sex which is wild or tame In the process he confronts some of the most fascinating questions which underpin all our lives why do men and women fantasise about different things what s so special about one person and not another and why do we fall in and out of love Whether he is discussing the science of the gay gene the flagellatory impulses of the Christian clergy the value of vibrators or the escapades of a lovesick medieval baron Andrae digs to the root of the human sex drive and explores it in lucid and compelling prose
