about gender sexuality and relationships Love Sex Gender and Superheroes examines a full range of superhero media from comics to films to television to merchandising With a keen eye for the genre s complex and internally contradictory mythology comics scholar Jeffrey A Brown considers its mixed messages Superhero comics may reinforce sex roles with their litany of phallic musclemen and slinky femme fatales but they also blur gender binaries with their emphasis on transformation and body swaps Similarly while most heroes have heterosexual love interests the genre prioritizes homosocial bonding and it both celebrates and condemns gendered and sexualized violence With examples spanning from the Golden Ages of DC and Marvel comics up to recent works like the TV series The Boys this study provides a comprehensive look at how superhero media shapes our perceptions of love sex and gender

Is "Love and Vertigo" mainly a novel about whiteness or a novel about immigrants? Charlotte Diez, 2006-02-15 Studienarbeit aus dem Jahr 2003 im Fachbereich Anglistik Literatur Note 2 Freie Universit t Berlin Sprache Deutsch Abstract The novel Love and Vertigo is about Grace Tay a Chinese woman who returns after a number of years from Australia to Singapore to her mother s wake It is a place with uncountable memories for the protagonist Grace and there in Singapore she wants to tackle with the life of her mother Pandora and the history of her family Grace talks about her problems being in a new country about migration and culture gaps Does she has problems because she is not white or because she is an immigrant and therefore an outsider Or both That is the main question I am asking in my homework and I will try to find out I worked with some essays that deal with the themes of being white being non white in addition to the novel to find out what the novel is really about Hsu Ming Teo the author of the book was born in

Malaysia and immigrated as well like the characters in her story to Australia with her parents in 1977. *Love and Vertigo* is her first novel and she is the Winner of the Australian Vogel Literary Award 1999. Migration racism and the problems that come with a new life in a new country are the main events in the novel. Hsu Ming Teo gives an inside look at three generations of one family. History for example the Japanese occupation and the anti Chinese riots in Malaysia in 1969 and political events are employed to situate the stories in their historical backgrounds. At the same time the gap between the mother's and the daughter's experiences, expectations and the gap between the different generations and cultures are mentioned and told in a realistic way with realistic characters as well. I liked to read the book a lot because it is an interesting and fascinating story which is based on historical events. I will try to take a closer look at the story in my homework and try to find out if *Love and Vertigo* is a representative story of immigrants or more about the problems of not being white or both a story about coloured immigrants.

Love, Justice, and Autonomy Rachel Fedock, Michael Kühler, Raja Rosenhagen, 2020-12-28. Philosophers have long been interested in love and its general role in morality. This volume focuses on and explores the complex relation between love and justice as it appears within loving relationships between lovers and their wider social context and the broader political realm. Special attention is paid to the ensuing challenge of understanding and respecting the lovers' personal autonomy in all three contexts. Accordingly the essays in this volume are divided into three thematic sections. Section I aims at shedding further light on conceptual and practical issues concerning the compatibility or incompatibility of love and justice within relationships of love. For example are loving relations inherently unjust? Might love require justice? Or do love and justice belong to distinct moral domains? The essays in Section II consider the relation between the lovers on the one hand and their broader societal environment on the other. Specifically how exactly are love and impartiality related? Are they compatible or not? Is it unjust to favor one's beloved? Finally Section III looks at the political dimensions of love and justice. How for instance do various accounts of love inform how we are to relate to our fellow citizens? If love is taken to play an important role in fostering or hindering the development of personal autonomy what are the political implications that need to be addressed and how? In addressing these questions this book engenders a better understanding both of conceptual and practical issues regarding the relation between love, justice and autonomy as well as their broader societal and political implications. It will be of interest to advanced students and scholars working on the philosophy of love from ethical, political and psychological angles.

William Rothman,2014-03-25 William Rothman argues that the driving force of Hitchcock s work was his struggle to reconcile the dark vision of his favorite Oscar Wilde quote Each man kills the thing he loves with the quintessentially American philosophy articulated in Emerson s writings that gave classical Hollywood movies of the New Deal era their extraordinary combination of popularity and artistic seriousness A Hitchcock thriller could be a comedy of remarriage or a melodrama of an unknown woman both Emersonian genres except for the murderous villain and godlike author Hitchcock who pulls the villain s strings and ours Because Hitchcock believed that the camera has a murderous aspect the question What if anything justifies killing which every Hitchcock film engages was for him a disturbing question about his own art Tracing the trajectory of Hitchcock s career Rothman discerns a progression in the films meditations on murder and artistic creation This progression culminates in Marnie 1964 Hitchcock s most controversial film in which Hitchcock overcame his ambivalence and fully embraced the Emersonian worldview he had always also resisted Reading key Emerson passages with the degree of attention he accords to Hitchcock sequences Rothman discovers surprising affinities between Hitchcock s way of thinking cinematically and the philosophical way of thinking Emerson s essays exemplify He finds that the terms in which Emerson thought about reality about our flux of moods about what it is within us that never changes about freedom about America about reading about writing and about thinking are remarkably pertinent to our experience of films and to thinking and writing about them He also reflects on the implications of this discovery not only for Hitchcock scholarship but also for film criticism in general
