The World of William Saroyan Nona Balakian,1998 In this work the author tells how Saroyan transformed the short story by personalizing it and by loosening the structure of the novella form He went on to bring new life to the theater and to the telling of autobiography Better than that of any recent drama critic Balakian's chapters on the theater place Saroyan's plays in the larger framework of the American theater of his time and achieve the creation of a total picture of the state of the American theater of the 1930s
