Exceptional Child Education Resources ,2000 Help For Parents! Maximized Parenting, 112 Solutions to the Parenting Problems of Today
Francis Edo Olotu ,Catherine Olubukunola Olotu,2014-02-24
Effective parenting is about raising well adjusted children who are assets to society
Maximized Parenting is a book which promotes effective parenting through equipping parents with the knowledge that fosters proper foundation for parenting
According to Partnership for 21st Century Skills 2006 and American Management Association's AMA 2010 Survey many employers believe that higher education is failing in its role to adequately develop needed skills in students
Parents with the help of this book can bridge the knowledge gap between what higher education provides and what the employment industry requires
The book is for parents who consider parenting as one of their most important responsibilities in life
One of the greatest assets a child could have is dutiful parents from whom he she learns the act of parenting
Parents without this privilege are large in number and to them parenting is a dark continent which they find difficult to navigate
This book is written to inform inspire and impart knowledge about parenting in the 21st century
The book would enable parents interact with their children in a way that would motivate them to be outstanding persons in life
In this information age you cannot limit your child to how you were brought up or what you know because he she was born in another era
The gamut of issues covered in this book will equip you to bring up your child to be successful in life
Issues treated in this book will help you know healthy parenting methods that are best for your child
The book contains a very broad mix of issues a parent would encounter at every stage of a child's life
It is written from the perspective that a parent's job is for life and as such parents need help to sustain their long term commitment to their children
Issues covered include character building instilling moral values into children basic life skills at every stage of life sexuality education and handling children with special needs
While the information in this book is specifically for parents the information would be useful to fathers groups men's groups women's groups grandparents extended family members and childcare providers that have opportunities to relate to children
Research now and again has shown that a family is more important to a child's school success than how much money the family makes or how much education the parents have
No parent who has read this book should ever ask How can I make my child a success in life
The

social commentator Michael Novak wrote on the importance of family One unforgettable law has been learned through all the disasters and injustices of the last thousand years if things go well with the family life is worth living when the family falters life falls apart The goal of Maximized Parenting is to fill the knowledge gap in you that will make you a better parent as well as an inspiration to other parents of the 21st century Choose to be an intentional parent who will put in the needed time energy and efforts to raise successful children Know that expensive toys and vacations are a poor substitute for the valuable time you need to spend with your children Refuse to outsource your parenting duties to care givers and boarding schools and you will be a stakeholder in the next generations through your children who will pass on your legacies Remember when a parent dies one thing that cannot be buried with him her is his her impact on the lives of his her children those things become a living memorial in his her children **"Children and Families in Poverty** United States. Field,Valerie A. Sanchez,2009-07-01 Engaging in sex becoming parents raising children these are among the most personal decisions we make and for people with mental retardation these decisions are consistently challenged regulated and outlawed This book is a comprehensive study of the American legal doctrines and social policies past and present that have governed procreation and parenting by persons with mental retardation It argues persuasively that people with retardation should have legal authority to make their own decisions Despite the progress of the normalization movement which has moved so many people with mental retardation into the mainstream since the 1960s

negative myths about reproduction and child rearing among this population persist Martha Field and Valerie Sanchez trace these prejudices to the eugenics movement of the late nineteenth and early twentieth centuries They show how misperceptions have led to inconsistent and discriminatory outcomes when third parties seek to make birth control or parenting decisions for people with mental retardation They also explore the effect of these decisions on those they purport to protect Detailed thorough and just their book is a sustained argument for reform of the legal practices and social policies it describes
