Desire for Love Marina Ragachewskaya, 2012-11-15 Desire for Love The Secret Longings of the Human Heart in D H Lawrence's Works is a collection of essays dedicated to several novels
 novellas short stories and non fiction by D H Lawrence one of the great 20th century English writers With the help of the
 psychoanalytic textual approach Marina Ragachewskaya analyses subtle expressions of the emotional sphere in Lawrence's
 characters and their desire for love which is realised linguistically stylistically and symbolically The discussion of the writer's
 textual subtleties suggests emotional education and intellectual delight The book offers an outline of Lawrence's own
 psychoanalytic theory and how it is implemented in his fiction Specific issues such as love discourse the unnamed eros a
 Jungian quest in search of love Doppelgangers love of power and the power of love sublimation and the language of dance as
 well as love in the time of war pertain to the discovery of unconscious desires and a culture of feeling in Lawrence
 Comparisons with other authors are surprisingly rare in Lawrence studies To fill this gap the volume also contains an essay
 on Lawrence's war stories analysed alongside Virginia Woolf's Mrs Dalloway and Pat Barker's Regeneration This inquiry into
 genuine human feeling will be equally attractive to literature scholars students and general readers

The Couple Ferdinand Fellmann, 2016 The mating couple is considered as both the origin and the foundation of a strong social self
 Despite increasing self realization the individual always is in need of being justified through an intimate relationship in which
 both partners accept one another such as they are In view of the process of global urbanization this book shows how empathy
 and reliability are the royal road to overcoming existential loneliness Series Development in Humanities Vol 14 Subject

university pedagogy more specifically higher teaching and learning The authors argument is in defence of cultivating humanity through higher educational encounters on the basis of virtues that connect with the idea of love Unlike romantic and erotic love the book examines love in relation to educational encounters whereby humans or citizens can engage autonomously deliberatively and responsibly yet lovingly The rationale for focussing on the notion of philia love in educational encounters the authors argue is that doing so allows our current understandings of such encounters to be expanded beyond mere talk of reasonable engagements autonomous action deliberative iterations and simple action toward emotive enactments that could enhance human relations in educational encounters
