Texas Takes Wing Barbara Ganson, 2014-01-01 A history of aviation in Texas that brilliantly demonstrates the evolution of flight technology as a harbinger of social change. Technology and Culture. In this book pilot and historian Barbara Ganson brings to life the colorful personalities that shaped the phenomenally successful development of the aviation industry in the Lone Star state. Weaving stories and profiles of aviators, designers, manufacturers, and those in related services, *Texas Takes Wing* covers the major trends that propelled Texas to the forefront of the field. Covering institutions from San Antonio's Randolph Air Force Base, the West Point of this branch of service, to Brownsville's airport with its Pan American Airlines instrument flight school, which served as an international gateway to Latin America as early as the 1920s, to Houston's Johnson Space Center, home of Mission Control for the US space program, the book provides an exhilarating timeline and engaging history of dozens of unsung pioneers as well as their more widely celebrated peers. Drawn from personal interviews as well as major archives and the collections of several commercial airlines including American, Southwest, Braniff, Pan American Airways, and Continental, this sweeping history captures the story of powered flight in Texas since 1910. With its generally favorable flying weather, flat terrain, and wide open spaces, Texas has more airports than any other state and is often considered one of America's most aviation friendly places. *Texas Takes Wing* also explores the men and women who made the region pivotal in military training, aircraft manufacturing during wartime, general aviation, and air servicing of the

agricultural industry The result is a soaring history that will delight aviators and passengers alike Includes photos
