Ancient Egypt Light Of The World 2 Vol set Gerald Massey,2013-10-15 First published in 2005 This expansive and fascinating treatment of ancient Egyptian mythology and its influence on the traditions that followed from it includes explorations of sign language in mythological representation totemism fetishism spirits and Gods the Egyptian Book of the Dead and Egyptian wisdom in the Hebrew Genesis Readers will enjoy the wealth of information offered by Massey as well as his clear and readable style

Oromo Democracy Asmarom Legesse,2000 This book reveals the many creative solutions an African society found for problems that people encounter when they try to establish a democratic system of governing their affairs In much of what has been written about Africa Little is ever shown of indigenous African democratic systems under which there is distribution of authority and responsibility across various strata of society and where warriors are subordinated to deliberative assemblies customary laws are revised periodically by a national convention and elected leaders are limited to a single eight year terms of office and subjected to public review in the middle of their term All these ideals and more are enshrined in the five century old constitution of the Oromo of Ethiopia which is the subject matter of this book In this book Legesse brings into sharp focus the polycephalous or multi headed system of government of the Oromo which is based on clearly defined division of labor and checks and balances between different institutions Revealing the inherent dynamism and sophistication of this indigenous African political system Legasse also shows in clear and lucid language that the system has had a long and distinguished history during which the institutions changed by deliberate legislation and evolved and adapted with time Amazon com
